DELAY OVER S-51 CRASH RADIO TOLD

Operator Testifies Liner Captain Waited Two Hours to Inform of Disaster

[BY A. P. NIGHT WIRE]

BOSTON, Oct. 19.—Capt. John L. Diehl waited almost two hours before he filed a radio that the City of Rome had rammed and sunk the submarine S-51, Harold H. Kelley, radio operator on the steamer, testified here today before the naval inquiry board investigating the disaster which resulted in the loss of thirty-three lives off Block Island on September 25, last.

Kelley also said that a few seconds before the collision, just after the steamer had sounded a short series of warning-whistle blasts, he looked out of the door of his radio room and saw the lights of the submarine about 175 feet off the City of Rome's starboard bow.

SNOW FALLS IN SECTIONS OF MIDWEST

Freezing Temperature and Below Recorded as Wind Sweeps from Rockies

[EXCLUSIVE DISPATCH]

CHICAGO, Oct. 19.—Blizzards in Minnesota and the Rockies made themselves felt in Chicago today through a steady west wind that lowered the temperature to 33 deg. at the government's weather observatory and blew freezing on the ground. The same wind is expected to make tonight the coldest since fall began.

Snow was seen in Chicago today but the few flakes were casual enough to be almost overlooked by the weather forecaster.

Below freezing temperatures generally were sprinkled through the prairie and mountain States last night, the lowest mark being registered at Cheyenne, Wyo.—18 deg. Denver reported 24 and Rapid City, S. D., 26 among other low marks. While rising temperatures were predicted the cold apparently was progressing eastward.

Three deaths resulted from winter's first general visit to the Northwest, two men being killed at Red Wing, Minn., and one at Minneapolis by trains while they were blinded by snow.

From one to four inches fell in various Wisconsin and Minnesota communities; Des Moines reported a shower and severe flurries whipped by sharp winds brought a wintry reminder to Omaha.

Nine men, marooned at the summit of Pike's Peak when the automobile highway was closed to traffic by heavy snow, were rescued unharmed by a special cog train. The "Sentinel of the Rockies" is now winter-fast except to a few hardy mountain climbers.

Lissner Voices Disapproval of Palmer Ouster

[BY A. P. NIGHT WIRE]

NEW YORK, Oct. 19.—Disapproval of the retirement of Leigh C. Palmer as president of the United States Fleet Corporation was voiced today by Meyer Lissner of Los Angeles, a commissioner of the United States Shipping Board, who arrived from Europe on the steamer Leviathan.

"I am not at all in accord with the action of the Shipping Board in removing Mr. Palmer," said Mr. Lissner, in a prepared statement, "and I regret very much the series of incidents leading up to his retirement."

SYNDICALISM LAW UPHELD

Federal Supreme Court Dismisses Appeal of Charlotte Whitney, Convicted Under State Statute

[EXCLUSIVE DISPATCH]

WASHINGTON, Oct. 19.—The California antisyndicalism statute was in effect declared constitutional today by the United States Supreme Court, which dismissed without opinion an appeal made by Charlotte Anita Whitney of Oakland.

Miss Whitney, a member and one of the organizers of the Communist Labor party, was convicted five years ago in Alameda county, California, and sentenced to from one to fourteen years imprisonment. Hers was the first conviction under the California antisyndicalism law passed in 1919 and which is similar to the syndicalism and criminal-anarchy statutes of other States which also have been upheld by the court's decisions.

There have been more than 100 convictions under the law and all these cases depended upon the decision in Miss Whitney's case.

WHITNEY CASE MAY BE REOPENED, SAY LAWYERS

[BY A. P. NIGHT WIRE]

OAKLAND, Oct. 19.—Charlotte Anita Whitney, daughter of a former State Supreme Court Justice, today lost a five-year battle for freedom when the United States Supreme Court refused, for lack of jurisdiction, to pass on her appeal from conviction for violating the California criminal syndicalism law.

Miss Whitney was tried here in 1919 on a charge of aiding in formation of a Communist labor party in California. The suffrage and social worker was convicted and sentenced to serve one to fourteen years in San Quentin prison.

In her defense Miss Whitney insisted that she countenanced no violence in advocating governmental changes and insisted that the party advocated no such violence.

A possibility of a motion to reopen the case in some of the courts through which it has passed on its way to the highest tribunal in the land, is said by attorneys to be the only practicable method by which Miss Whitney can further delay beginning her term in the State prison. She has been at liberty under $10,000 bond. Her present home is at Carmel.

Walker, head of the Arizona division of the Veterans' Bureau, with station at Phoenix. It is asserted that disabled men in Tucson have met with good treatment from the Phoenix office.

WRITING OF MOSES FOUND

Engraved Thanks to Queen for Saving Him From Bulrushes First Alphabet of Man

[BY CABLE—EXCLUSIVE DISPATCH]

BERLIN, Oct. 19.—Moses's grateful commemoration of his rescue from the bulrushes by the Egyptian Queen and simultaneously the alphabet of the oldest written language known to man—ancient Hebrew, as it was spoken fifteen centuries before Christ— have been discovered by Prof. Grimme, who holds the chair of Semitic philology at the University of Munster, according to announcement made by Dr. Grimme at a small gathering at the home of a friend here Saturday evening.

As a result of the discovery the German government may combine with the British government in sending a scientific expedition to Mt. Sinai where stone inscriptions deciphered by Prof. Grimme were excavated twenty years ago by an English archaeologist. The message of eternal gratitude, carved either by Moses himself or at his behest, on a thick stone slab, reads as follows, according to Dr. Grimme:

"I, Manasse, mountain chief and head priest of the temple, thank Pharaoh Miachepaut for having drawn me out of the Nile and helped me to attain high dignities."

FIRST ALPHABET

The writing which at first sight resembles Egyptian hieroglyphics, was found by Dr. Grimme to consist of alphabetically - formed words. He deciphered the alphabet and discovered that it contained twenty-two letters, much similar to the ancient Hebrew of the Old Testament. This alphabet, devised from Egyptian image writing, was the first used by man.

Manasse is a synonym for Moses in the Hebraic tongue of that epoch. Dr. Grimme's find also definitely answers that question as to which hill on Sinai peninsula was Mt. Sinai of the Bible.

The stone tablets on one of which Moses's tribute to his royal rescuers was inscribed, were dug up in a buried Egyptian temple, dating back to 1500 B.C., on the Serabit El Chadem plateau of Mt. Sinai by Flinders Petrie, an English explorer, in 1905. Unable to remove the stones because of their weight, Petrie photographed and made plaster casts of them and then reburied them in a place of which he alone knows the exact position.

RIDDLE SOLVED

The inscription on the tablets remained a riddle until 1916, when Alan Gardner, an eminent English Egyptologist, managed to establish certain Mosaic consonants. Dr. Grimme proceeded from this point until he had mastered the entire alphabet and could read all lines carved on one of the photographed slabs.

"My heart stood still as I read," the professor told his auditors.

It is estimated that the tablets were written in the year 1479 B.C., which accords with the dates of Moses's life fixed in the Bible.

Moreover, during the same period, Queen Hiachepaut died and her successor, Tutaos, oppressed her followers and destroyed her monuments. Possibly for this reason Moses caused the stone to be inscribed as a memorial to the dead queen.

EUROPE REVEALS TEXT OF SEVEN LOCARNO TREATIES

Main Security Pact Supported by Covenants of Nations Brings Hope of New Peace Era

[BY CABLE AND ASSOCIATED PRESS]

LONDON, Oct. 19.—The fruit of the Locarno Security Conference was put on display tonight for all the world to see, when seven treaties, which comprise Europe's newest and most promising preventive of war, were made public in the various capitals.

The first and foremost of the agreements is the security pact, or treaty of mutual guarantee, guaranteeing the inviolability of the frontiers between Germany and Belgium and Germany and France as fixed by the Treaty of Versailles. It will be signed at London December 1, and assuming that all the signatory governments ratify the pact, it will become effective when Germany joins the League of Nations.

By the treaty, Germany on her side, undertakes never to trespass upon the soil of France or Belgium, or make any warlike gestures in the demilitarized Rhineland area.

On their side, France and Belgium promise not to violate Germany's western frontier. Should either party violate the agreements set forth, the pact provides that Great Britain and Italy shall go to the aid of the aggrieved party, whether it be Germany, France or Belgium.

LEAGUE AS COURT

The powers parties to the pact agree to submit all their future disputes to judicial treatment, with the Council of the League acting as a court. The whole plan is to work under the aegis of the League; it is for this reason that the treaties do not become operative until Germany is a member of that organization.

Of the other six treaties that have come out of the Locarno conversations, Germany is signatory to four, one each with France, Belgium, Poland and Czecho-Slovakia; these four are identical; Germany agrees with each of her four neighbors to set up peaceful machinery to settle any disputes she may have with any of them that do not yield to ordinary diplomatic treatment.

These neighbors of Germany agree to submit any disputes they may have with Germany to an aribtral tribunal organized under The Hague conventions of 1907, or to the permanent Court of International Justice.

But, according to these treaties, before the parties resort to either of these two means of adjudging their differences, they may by agreement, submit their dispute to a permanent conciliation commission of five members, one from Germany, one from the other party to the treaty and three foreigners selected by the first two appointees. These commissioners will hold office for three years and will have six months in which to decide any dispute. If their decision is not accepted, the dispute will go before the League Council as the court of last resort.

FRANCE AND ALLIES

The other two treaties are between France and her eastern allies, Poland and Czecho-Slovakia.

They provide that if Germany fails to keep her word with France, Poland and Czecho-Slovakia and her failure is accompanied by an unprovoked recourse to arms, France and her two eastern Allies also agree to lend one another aid, no matter what country should make an unprovoked attack on one of them, which the League Council failed to prevent.

Neither the security pact, nor any of the other six treaties, will have the effect of outlawing war. In point of fact, it is made clear that there are circumstances in which war is legitimate; the treaties simply strive to define these circumstances, limit their number and do as much as is conceivably possible to prevent war-like conditions from arising.

One of these circumstances is self-defense. If Germany attacks France, France is entitled to fight back, and she would have the assistance of Belgium, Italy and Great Britain in defending herself, even if war must be made on Germany for the purpose. In the same way, if France attacks

OVERTURNS WAGE LAW

Supreme Court Gives Ruling

Arizona Minimum Pay for Women Declared to be Unconstitutional

Serious Effect on California Statute Foreseen by Atty.-Gen. Webb

[BY A. P. NIGHT WIRE]

WASHINGTON, Oct. 19.—The Arizona minimum wage law for women was held to be unconstitutional today by the Supreme Court.

The court's position was set forth by its action in affirming the decision of the lower courts on the issue. The attack upon the law was made by A. Sardell, owner of two stores at Nogales, who employed four women clerks and contended that if compelled to pay them each a minimum of $16 a week as required by the State statures, his business would be ruined.

Replying, the State held that he was not required to employ women and insisted that the law was a valid exercise of its police powers. The Federal District Court for Arizona held, however, that it was invalid and enjoined the State officers from enforcing it.

Chief Justice Taft declared the action of the court had been based upon its previous decision holding invalid and unconstitutional the minimum wage law of the District of Columbia. Justice Holmes gave his consent to the action solely on the grounds of the prior decision. Justice Brandeis dissented.

WEBB SEES SERIOUS EFFECT ON CALIFORNIA

State Atty.-Gen. Webb voiced the opinion to the Associated Press late yesterday that the United States Supreme Court decision against the Arizona minimum wage law for women will have a "very serious effect" on the California law governing women's wages.

Mr. Webb said that he does not care to make public a definite ruling until he had had the opportunity to read the decision rendered at Washington, but he expressed the belief quoted based on his recollection of the similarity of the Arizona and California statutes relating to women's wages.

LAW SPONSORED BY UNION INFLUENCES

[EXCLUSIVE DISPATCH]

PHOENIX, Oct. 19.—The Arizona woman's minimum wage law, declared unconstitutional today by the United States Supreme Court, was one passed in 1923 by the sixth State Legislature, the second of such measures here enacted. Both were sponsored by Mrs. Rosa McKay, Representative from Gila county, and were backed by union-labor influences. The first called for a wage of $12 a week and the second of $16. Mrs. McKay treasures a gold pen used by Gov. Hunt in signing the bill. The complainant was a Nogales confectioner. His position was sustained by the United States court in Arizona on the basis of a similar case decided in the District of Columbia.

RIVER WORK FOSTERED

Federal Report Asks 13 Dams

Interior Department's Plan Calls for Stupendous Colorado Program

Vast Power Supply, Safety of Imperial Valley and Aid for Farms Sought

[EXCLUSIVE DISPATCH]

WASHINGTON, Oct. 19.—A comprehensive scheme for the development of the Colorado River, providing for not one but thirteen dams and for a construction program covering many years, is recommended in a report made public today by the Department of the Interior.

The report, prepared by the Geological Survey and written by E. C. Larue, Pasadena (Cal.) engineer, sets out that under this program 3,420,000 continuous horsepower can be developed below the mouth of Green River; domestic water for a population of from 10,000,000 to 15,000,000 people provided; 6,000,000 acres of now arid land irrigated and Imperial Valley guaranteed safety in perpetuity from destructive floods through the creation of storage reservoirs for 42,000,000 acre feet of water.

In line with the government's policy of placing flood control above all other considerations in the matter of Colorado River work, the report lays its greatest stress upon the need for promptly and effectively eliminating the present menace to Imperial Valley from the annual high-water period of the river.

POINTS TO DANGER

It reviews the disaster of 1905 when the river ran wild across the valley to form the Salton Sea. The danger of a recurrence of this break is ever present, says the report, adding that the safety of great areas of highly productive lands and prosperous towns can be assured only by the storage of flood waters and the maintenance of a well designed system of levees and bank works.

From his extensive observations of the river, made during the past fifteen years and entailing boat trips aggregating some 2000 miles, along the river and its principal tributaries, Mr. Larue presents a highly detailed and technical picture of its difficulties and possibilities.

He describes all the available dam sites on nearly 1000 miles of the stream and discusses them in their relation to the problems of power development, water storage and silt elimination. Records of stream flow for many years are summarized and estimates of water supply at important points under a wide variety of conditions presented.

Mr. Larue includes in his study of the river a history of the development of irrigation from its flow and points out that, due to the fact that all its water is used for that purpose at times of minimum flow, but little increase in the river's usefulness in this regard can be effected until storage dams are built. The rapidly increasing demand for hydroelectric power in the Southwest, he adds, inevitably will force an early development of this phase of the Colorado's potentialities.

UPPER BASIN STATES READY TO BEGIN FIGHT

SHIP FIRE CHARGES HURLED

Thirty Survivors of Comanche Blaze Seek Federal Quiz; Assert Crew Panic and Faulty Equipment

[EXCLUSIVE DISPATCH]

NEW YORK, Oct. 19.—Sensational charges, on which a request for a Federal investigation is to be based, were made here today by thirty New York and New England survivors of the Clyde Line steamship Comanche, which burned to the water's edge off Mayport, Fla., Saturday night.

Brought up the coast in a special car attached to the Miami-New York Express, the survivors arrived at Pennsylvania station in clothing loaned to them after they landed at Mayport and told graphic stories of their rescue, of drunkenness and insubordination on the part of the Comanche's crew, of rottenfire hose, faulty davits, insufficient oarsmen and oars to man the lifeboats, and of blundering efforts of the would-be rescue ship, the tanker Reaper, in the dark and confusion, following the order to abandon the liner.

CREW PANIC RELATED

They related tales of panic among the undisciplined crew, of drunken negro stokers and seamen pushing women aside and beating off men passengers in their haste to be first into the lifeboats, of members of the crew disregarding orders of blaspheming their superiors, of davits that would not work properly, so that it required an hour and twenty minutes to get the first lifeboat into the water; of too few oars for those lifeboats lowered away and members of the crew unable to row the boats when given oarsmen's stations.

The group of survivors conducted a series of indignation meetings while in transit northward and elected James A. Moore of the Hotel Woodward, New York, and T. H. Fanning, chairman and secretary, respectively, of a committee to draw up and present their charges. A telegram was dispatched to the office of steamboat inspectors at Washington, asking for a thorough investigation.

"At the time the first fire whistle sounded Mr. Fanning and I were seated at the captain's table," said Moore, delegated to act as spokesman. "Ten minutes afterward we were ordered to put on our life preservers. Then a second alarm sounded and smoke came up fore and aft. We were told to go to

Ratification by Powers and Entry of Germany Into League Will Make Treaties Effective

[BY CABLE AND ASSOCIATED PRESS]

LONDON, Oct. 19.—Following is the unofficial translation issued by the British Foreign Office here of the treaty of mutual guarantee which is to annex to the Geneva protocol. It was initialed at Locarno the 16th inst.

The President of the German Reich, His Majesty, the King of the Belgians, the President of the Republic of France, His Majesty, the King of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the seas, Emperor of India and His Majesty, the King of Italy, anxious to satisfy the desire for security and protection which animates the peoples upon whom fell the scourge of the war of 1914-1918, taking note of the abrogation of the treaties for the neutralization of Belgium, and conscious of the necessity of insuring peace in the area which so frequently has been the scene of European conflicts, animated with the sincere desire of giving to all the signatory powers concerned supplementary guarantees within the framework of the covenant of the League of Nations and the treaties in force between them, have determined to conclude a treaty with these objects and have appointed as the plenipotentiaries (their titles are named here,) who, having communicated their full powers, in good and due form, have agreed as follows:

ARTICLE I

The high contracting parties collectively and severally guarantee in the manner provided in the following articles, the maintenance of the territorial status quo resulting from the frontiers between Germany and Belgium and between Germany and France and the inviolability of the said frontiers as fixed by or in pursuance of the treaty of peace signed at Versailles on June 28, 1919, and also the observance of the stipulations of Articles XLII or XLIII of the said treaty concerning the demilitarized zone.

ARTICLE II

Germany and Belgium, and also Germany and France, mutually undertake that they will in no case attack or invade each other or resort to war against each other. This stipulation shall not, however, apply in the case of:

(1.) The exercise of the right of legitimate defense, that is to say, resistance to a violation of the undertaking contained in the previous paragraph or to a flagrant breach of Articles XLII or XLIII of the said Treaty of Versailles. If such breach constitutes an unprovoked act of aggression and by reason of the assembly of armed forces in the demilitarized zone immediate action is necessary.

(2.) Action in pursuance of Article XVI of the covenant of the League of Nations.

(3.) Action as the result of a decision taken by the assembly or by the Council of the League of Nations or in pursuance of Article XV paragraph 7, of the covenant of the League of Nations, provided that in this last event the action is directed against a state which was the first to attack.

ARTICLE III

In view of the undertakings entered in Article II of the present treaty, Germany and Belgium and Germany and France undertake to settle by peaceful means and in the manner laid down herein all questions of every kind which may arise between them and which it may not be possible to settle by the normal methods of diplomacy; any question with regard to which the parties are in conflict as to their respective rights shall be submitted to judicial decision and the parties undertake to comply with such decision; all other questions shall be submitted to a conciliation commission. If the proposals of this commission are not accepted by the two parties the question shall be brought before the Council of the League of Nations, which will deal with it in accordance with Article XV of the covenant of the League. The detailed arrangements for effecting such peaceful settlement are the subject of special agreements signed this day.

ARTICLE IV

(1.) If one of the high contracting parties alleges that a violation of Article II of the present treaty or a breach of Articles XLII or XLIII of the Treaty of Versailles has been or is being committed, it shall bring the question at once before the Council of the League of Nations.

(2.) As soon as the Council of the League of Nations is satisfied that such violation or breach has been committed it will notify its finding without delay to the powers signatory of the present treaty, who severally agree that in such case, they will each of them come immediately to the assistance of the power against whom the act complained of is directed.

(3.) In case of a flagrant violation of Article II of the present treaty or a flagrant breach of Articles XLII or XLIII of the Treaty of Versailles by one of the high contracting parties, each of the other contracting parties hereby undertakes immediately to come to the help of the party against whom such a violation or breach has been directed as soon as the said power has been able to satisfy itself that this violation constitutes an unprovoked act of aggression and that by reason either of the crossing of the frontier or of the outbreak of hostilities or of the assembly of armed forces in the demilitarized zones immediate action is necessary. Nevertheless, the Council of the League of Nations which will be apprised of the question in accordance with the first paragraph of this article will issue its findings, and the high contracting parties undertake to act in accordance with the recommendations of the Council provided that they are concurred in by all the members other than the representatives of the parties which have engaged in hostilities.

ARTICLE V

The provisions of Article III of the present treaty are placed under the guarantee of the high contracting parties as provided by the following stipulations:

If one of the powers referred to in Article III refuses to submit a dispute to peaceful settlement or to comply with an arbitrator's judicial decision and commits a violation of Article II of the present treaty or a breach of Articles XLII and XLIII of the Treaty of Versailles, the provisions of Article IV shall apply. Where one of the powers referred to in Article III without committing a violation of Article II of the present treaty or a breach of Articles XLII or XLIII of the Treaty of Versailles refuses to submit a dispute to peaceful settlement or comply with an arbitrator's judicial decision the other party shall bring the matter before the Council of the League of Nations, and the Council shall propose what steps shall be taken; the high contracting parties shall comply with these proposals.

ARTICLE VI

The provisions of the present treaty do not affect the rights and obligations of the high contracting parties under the Treaty of Versailles or under arrangements supplementary thereto, including the agreements signed in London on August 30, 1924.

ARTICLE VII

The present treaty, which is designed to insure the maintenance of peace and is in conformity with the covenant of the League of Nations, shall not be interpreted as restricting the duty of the League to take whatever action may be deemed wise and effectual to safeguard the peace of the world.

GERMANY

Foreign Minister Stresemann

ARTICLE VIII

The present treaty shall be registered at the League of Nations in accordance with the Covenant of the league. It shall remain in force until the Council, acting on a request of one or the other high contracting parties notifies the other signatory powers three months in advance, and voting at least by a two-thirds' majority, decides that the League of Nations insures sufficient protection to the high contracting parties; the treaty shall cease to have effect on the expiration of a period of one year from such decision.

ARTICLE IX

The present treaty shall impose no obligations upon any of the British dominions, or upon India, unless the government of such dominion, or of India signifies its acceptance thereof.

ARTICLE X

The present treaty shall be ratified and the ratifications shall be deposited at Geneva in the archives of the League of Nations as soon as possible. It shall enter into force as soon as all the ratifications have been deposited and Germany has become a member of the League of Nations. The present treaty, done in a single copy, will be deposited in the archives of the League of Nations, and the Secretary-General will be requested to transmit certified copies to each of the high contracting parties.

In faith whereof the above-mentioned plenipotentiaries have signed the present treaty, done at Locarno the sixteenth of October, 1925:

GERMAN-SLOVAKIAN TREATY MADE PUBLIC

[BY CABLE AND ASSOCIATED PRESS]

LONDON, Oct. 19.—Following is the unofficial translation of the arbitration treaty between Germany and Czecho-Slovakia:

The President of the German Empire and the President of the Czecho-Slovakian Republic, equally resolved to maintain peace between Germany and Czecho-Slovakia by assuring the peaceful settlement of differences which might arise between the countries, declaring that respect for the rights established by treaty or resulting from the law of nations, is obligatory for international tribunals, agreeing to recognize that the rights of a state cannot be modified save with its consent, and considering that sincere observance of the methods of peaceful settlement of international disputes permits of resolving without recourse to force questions which may become the cause of division between states, have decided to embody in a treaty their common intentions in this respect and have named as their plenipotentiaries the following: (the plenipotentiaries are named here,) who have exchanged their full powers, found in good and due form, are agreed upon the following article.

PART I, ARTICLE I

All disputes of every kind between Germany and Czecho-Slovakia with regard to which the parties are in conflict as their respective rights, and which it may not be possible to settle amicably by the normal methods of diplomacy, shall be submitted for decision either to an arbitratory tribunal or to the permanent Court of International Justice, as laid down hereafter.

It is agreed that the disputes referred to above include in particular those mentioned in Article XIII of the Covenant of the League of Nations. This provision does not apply to disputes arising out of events prior to the present treaty and belonging to the past. Disputes for the settlement of which a special procedure is laid down in other conventions in force between the high contracting parties shall be settled with conformity of the provisions of those conventions.

ARTICLE II

Before any resort is made to arbitrate on procedure or to procedure before the permanent Court of International Justice, the dispute may, by agreement between the parties, be submitted with a view to amicable settlement, to a permanent international commission styled the permanent conciliation commission, constituted in accordance with the present treaty.

ARTICLE III

In the case of a dispute the occasion of which, according to the municipal law of one of the parties, falls within the competence of the national courts of such party, the matter in dispute shall not be submitted to the procedure laid down in the present treaty until a judgment with final effect has been pronounced, within a reasonable time, by the competent national judicial authority.

ARTICLE IV

The permanent conciliation commission mentioned in Article II shall be composed of five members, who shall be appointed as follows: That it is to say, the high contracting parties shall each nominate a commissioner chosen from among their respective nationals and shall appoint, by common agreement, the three other commissioners from among the nationals of third powers; those three commissioners must be of different nationalities and the high contracting parties shall appoint the president of the commission from among them. The commissioners are appointed for three years, and their mandate is renewable. Their appointment shall continue until their replacement, and in any case until the termination of the work in hand at the moment at the expiration of their mandate. Vacancies which may occur as a result of death, resignation or any other cause shall be filled within the shortest possible time in the manner fixed for the nominations.

ARTICLE V

The Permanent Conciliation Commission shall be constituted within three months from the entry into force of the present conventions. If the nominations of the commissioners to be appointed by common agreement should not have taken place within the said period, or in the case of filling of a vacancy, within three months from the time when the seat falls vacanat, the president of the Swiss confederation shall, in the absence of other agreement, be requested to make the necessary appointments.

ARTICLE VI

The Permanent Conciliation Commission shall be informed by means of a request addressed to the president by the two parties acting in agreement or, in the absence of such agreement, by one or other of the parties. The request, after having given a summary account of the subject of the dispute, shall contain the invitation to the commission to take all necessary measures with a view to arrive at an amicable settlement. If the request emanates from only one of the parties, notification thereof shall be made without delay to the other party.

ITALY

ARTICLE VII

Within fifteen days from the date when one of the high contracting parties shall have brought a dispute before the Permanent Conciliation Commission either party may, for the examination of the particular dispute, replace its commissioner by a person possessing especial competence in the matter. The party taking up this right shall immediately inform the other party; the latter shall in that case be entitled to take similar action within fifteen days from the date when the notification reaches it.

ARTICLE VIII

The task of the Permanent Conciliation Commission shall be to elucidate questions in dispute, to collect with that object all necessary informations by means of inquiry or otherwise, and to endeavor to bring the parties to an agreement. It may, after the case has been examined, inform the parties of the terms of settlement which seem suitable to it, and lay down a period within which they are to make their decision. At the close of its labors the commission shall draw up a report stating, as the case may be, either that the parties have come to an agreement and if need arises, terms of the agreement, or that it has been impossible to effect a settlement. The labors must, unless the parties otherwise agree, be terminated within six months from the date on which the committee shall have been notified of the dispute.

ARTICLE IX

Failing any special provision to the contrary, the Permanent Concilaition Commission shall lay down its own procedure, which in any case must provide for both parties being heard. In regard to inquiries the commission, unless it decides unanimously to the contrary, shall act in accordance with the provisions of Chapter 3, (International Commissions of Inquiry) of the Hague Convention of October 18, 1907, for the pacific settlement of international disputes.

ARTICLE X

The Permanent Conciliation Commission shall meet, in the absence of agreement by the parties to the contrary, at a place selected by its president.

ENGLAND

Foreign Minister Chamberlain

ARTICLE XI

The labors of the Permanent Conciliation Commission are not public except when a decision to that effect has been taken by the commission with the consent of the parties.

ARTICLE XII

The parties shall be represented before the Permanent Conciliation Commission by agents, whose duty it shall be to act as intermediary between them and the commission; they may moreover be assisted by counsel and experts appointed by them for that purpose and request that all persons whose evidence appears to them useful should be heard. The commission on its side shall be entitled to request oral explanations from the agents, counsel and experts of the two parties as well as from all persons it may think useful to summon with the consent of their government.

ARTICLE XIII

Unless otherwise provided in the present treaty the decisions of the Permanent Conciliation Commission shall be taken by a majority.

ARTICLE XIV

The high contracting parties undertake to facilitate the labors of the Permanent Conciliation Commission, and particularly to supply it to the greatest possible extent with all relevant documents and information, as well as to use the means at their disposal to allow it to proceed in their territory and in accordance with their law to the summoning and hearing of witnesses or experts and to visit the localities in question.

ARTICLE XV

During the labors of the permanent conciliation committee each commissioner shall receive a salary, the amount of which shall be fixed by agreement between the high contracting parties, each of which shall contribute an equal share.

ARTICLE XVI

In the event of no amicable agreement being reached before the permanent conciliation committee the dispute shall be submitted by means of a special agreement either to the permanent Court of International Justice under the condition and according to the procedure laid down by its statute or to an arbitral tribunal under the conditions and according to the procedure laid down by The Hague convention of October 18, 1907, for the pacific settlement of international disputes. If the parties cannot agree on the terms of the special agreement after a month's notice, one or other of them may bring the dispute before the permanent Court of International Justice by means of an application.

ARTICLE XVII

All questions on which the German and Czecho-Slovakian governments shall differ without being able to reach an amicable solution by means of the normal methods of diplomacy, the settlement of which cannot be attained by means of a judicial decision as provided in Article I of the present treaty, and for the settlement of which no procedure has been laid down by other conventions in force between the parties, shall be submitted to the permanent conciliation commission, whose duty it shall be to propose to the parties an acceptable solution and in any case to present a report. The procedure laid down in Articles VI-XV of the present treaty shall be applicable.

ARTICLE XVIII

If the two parties have not reached an agreement within a month from the termination of the labors of the permanent conciliation commission, the question shall, at the request of either party, be brought before the Council of the League of Nations, which shall deal with it in accordance with Article XV of the covenant of the League.

POLAND

Foreign Minister Skrzynski

ARTICLE XIX

In any case, and particularly if the question on which the parties differ arises out of acts already committed or on the point of commission, the conciliation commission, or, if the latter has not been notified thereof, the arbitral tribunal or the permanent Court of International Justice, acting in accordance with Article IXL of its statute, shall lay down within the shortest possible time the provisional measures to be adopted. It shall similarly be the duty of the Council of the League of Nations, if the question is brought before it to insure that suitable provisional measures are taken. The high contracting parties undertake respectively to accept such measures, to abstain from all measures likely to have a repercussion prejudicial to the execution of the decision or to the arrangements proposed by the conciliation commission or by the Council of the League of Nations, and in general to abstain from any sort of action whatsoever which may aggravate or extend the dispute.

ARTICLE XX

The present treaty continues applicable as between the high contracting parties even when other powers are also interested in the dispute.

ARTICLE XXI

The present treaty, which is in conformity with the covenant of the League of Nations, shall not in any way affect the rights and obligations of the high contracting parties as members of the League of Nations and shall not be interpreted as restricting the duty of the League to take whatever action may be deemed wise and effectual to safeguard the peace of the world.

ARTICLE XXII

The present treaty shall be ratified. Ratifications shall be deposited at Geneva with the League of Nations at the same time as the ratifications of the treaty concluded this day between Germany, Belgium, France, Great Britain and Italy. It shall enter into and remain in force under the same conditions as the said treaty. The present treaty, done in a single copy, shall be deposited in the archives of the League of Nations, the Secretary-General of which shall be requested to transmit certified copies to each of the high contracting parties.

POWERS SEND NOTE ON POLICY OF LEAGUE

[BY CABLE AND ASSOCIATED PRESS]

LONDON, Oct. 19.—Following is the unofficial translation of the draft of the collective note sent to Germany regarding Article XVI of the convenant of the League of Nations:

The German delegation has requested certain explanations in regard to Arctile XVI of the covenant of the League of Nations. We are not in a position to speak in the name of the League but in view of the discussions which already have taken place in the Assembly and in the commissions of the League of Nations, and after the explanations which have been exchanged between ourselves, we do not hesitate to inform you of the interpretation which, in so far as we are concerned, we place upon Article XVI.

In accordance with that interpretation the obligations resulting from the said article on the members of the League must be understood to mean that each state member of the League is bound to co-operate loyally and effectively in support of the covenant and in resistance to any act of aggression to an extent which is compatible with its military situation and takes its geographical position into account.

FRENCH SIGN GUARANTEES IN TREATIES

Locarno Pacts Pledge Aid to Two Nations in Case of German Aggression

[BY CABLE AND ASSOCIATED PRESS]

LONDON, Oct. 19.—The treaties which France signed at Locarno with Poland and Czecho-Slovakia, which are in effect France's guarantees of the German-Polish and German-Czecho-Slovakian treaties, are identical and provide that the signatory countries shall lend each other immediate aid in the event that Germany should fail to observe the treaties she signed with each of the three at Locarno, "if such failure is accompanied by an unprovoked recourse to arms."

These French-Polish and French-Czech treaties contain this provision: In the event of the Council of the League, when dealing with a question brought before it in accordance with the said undertaking (that is, Germany's arbitration treaties with these three countries) being unable to succeed in making its report accepted by all its members other than representatives of the parties to the dispute, and the event of Poland or France (or Czecho-Slovakia or France) being attacked without provocation, France or reciprocally Poland (or Czecho-Slovakia) acting in application of Article XV, Paragraph 7, of the covenant of the League, will immediately lend aid and assistance.

The other articles of France's treaties affecting the rights of the signatories as members of the League of Nations also provide for ratification and registration of the treaties.

EVACUATION OF ZONE AT COLOGNE HELD NEAR

[BY CABLE AND ASSOCIATED PRESS]

PARIS, Oct. 19.—Expectations that evacuation of the Cologne bridgehead will be one of the first tangible results of the security agreements reached at the Locarno conference were strengthened by declarations made by the British Foreign Secretary, Austen Chamberlain, this afternoon after an interview with Premier Painleve.

Mr. Chamberlain said he had talked with the French Premier about the "logical consequences of the Locarno security pact" and added that these logical consequences soon will become apparent.

Asked whether the Locarno agreement made President Coolidge's proposed disarmament conference opportune, the British Foreign Secretary replied:

"The work done at Locarno, because of the security it furnishes, brings disarmament nearer. The League of Nations has been working up schemes for the reduction of armaments. The security pact makes their realization easier."

Mr. Chamberlain avoided any expression as to the practicability of a conference at Washington.

Mr. Chamberlain stressed the fact that the initiative in the security negotiations was taken by the German government, declaring "it was an act of great courage and the highest wisdom." Chancellor Luther and Foreign Minister Stresemann deserve well of the public opinion of the world, he added.

KANSAS CITY IN UTILITIES CRISIS

City-Owned Light and Water Plants in Bad Way

Improvements Needed Will Cost $4,000,000

Private Ownership Seen as Problem Solution

[EXCLUSIVE DISPATCH]

KANSAS CITY (Kan.) Oct. 19.—Alarmed by a threatened failure of the functions of both the city-owned light and water plants, the Board of Commissioners of Kansas City, Kan., today appointed a citizens' committee of fifteen to advise with the Commissioner of Water and Light as to steps necessary to save the situation.

More than $4,000,000 in immediate improvements are necessary if the plants are to continue to operate, it was averred by engineers cognizant with the situation. And Kansas City has no funds with which to make the improvements, nor are they so situated that a bond issue is possible at this time.

Kansas City has owned and operated its water plant since 1909 and its light plant since 1911. The municipal administration consists of a Mayor and four Commissioners, one of whom is in charge of the water and light plants.

The investigation and report on the condition of the plants was made at the request of C. D. Darnall, Commissioner of the water and light department.

"Both the light and water departments," the report avers, "have come to the point with respect to operation, capacity and other details where radical steps must be taken. There has been in the past no set plan or policy of development. Succeeding administrations have adopted different methods with apparently no view toward building gradually a unified system designed to meet the needs of a growing city.

"The most serious defect in the past has been the failure to provide adequately for depreciation and sinking-fund requirements for the retirement of bonds. The figures in this instance approximating $1,500,000."

The report then points out that the city faces the necessity of spending about $4,000,000 for immediate improvements in the two departments and with no money on hand to finance the work. The city some time ago was enjoined by the courts from issuing further bonds.

The report recommends an immediate increase of 10 per cent in light and water rates. It points out that the only other alternative, that of selling bulk power, at low costs, has already met with disaster on the several occasions in which it has been tried.

Rates on power now sold by the municipal plant at Kansas City, Kan., are higher than those offered by the privately owned plants of Kansas City, Mo., with a result that the latter is selling a much greater volume of power than its municipally owned neighbor plant, after allowing for the difference in population.

Engineers believe that it is only a question of time until the municipal plants will be disposed of to private owners, as the Kansas City electric plant now purchases power from outside sources to pull it through the peak of its load.

FREE ZONE AT SALONIKI INSTITUTED

Balkan States Get Access to Aegean Sea Through Action of Greece

[BY CABLE AND ASSOCIATED PRESS]

SALONIKI (Greece) Oct. 19.—The "free zone" of Saloniki was inaugurated today with much ceremony in the presence of high government, ecclesiastical and military authorities.

The zone was instituted voluntarily by the Greek government in order to give the Balkan States and especially Bulgaria access to the Aegean Sea. Under the regulations Greece will allow any country to use the port for the shipment of goods, incoming or outgoing, without restriction as to duties, right of seizure or right of search.

The free zone provides the only access of many Balkan communities to the sea. The action of the Greek government is regarded as an astute political move to counteract agitation by some of the Balkan States before the League of Nations for a revision of territorial grants in the Balkans with a view to providing Aegean ports.

Famous Players Gives Details in New Agreement

[BY A. P. NIGHT WIRE]

CHICAGO, Oct. 19.—Additional details of the agreement recently entered into by Balaban & Katz and the Famous Players-Lasky Corporation have been mailed to stockholders of the former concern.

The statement says a ten-year agreement has been signed by which all of the Famous Players-Lasky theaters are to be separated from the parent corporation, the stock of the new company to be owned by the original company and the theaters to be operated and managed by Balaban & Katz, the latter concern to participate in the profits.

A second corporation also is formed, each concern owning one-half. The second company is to be the means of further expansion for the benefit of both owners.

RIVERBED BODY IDENTIFIED

Youth Found Shot to Death Near Maywood J. J. Hogan; Autopsy Disproves Suicide Theory

The body of a young man that was found Sunday in the brush of the Los Angeles River near Maywood with a bullet through the heart and head was identified last night as that of James J. Hogan, 23 years of age, who lived with his mother and brother at 311 East Fifty-seventh street, Maywood, according to a report made to the Sheriff's office late last night.

The identification was made by Miles Hogan, the 19-year-old brother, in the presence of Deputy Sheriff Stensland. The younger brother also identified rings and other personal effects of his brother and the gun found near the body as the property of his brother.

NO CLEW TO SLAYER

Deputy Sheriff Stensland, however, declared the younger brother could provide no clews as to whom the murderer might be. Miles told the deputy Sheriff that he did not know of any enemies his brother had or of any trouble in which he might have been. Neither could the brother supply a reason for suicide, a theory that has been practically discarded by the deputies after considering the paths taken by two bullets.

The dead youth was employed at a furniture factory in Maywood and left home last Wednesday morning, Miles Hogan told Stensland, presumable to go to work. He never arrived at the furniture factory. It is the theory of the investigators that the youth was killed probably Thursday night and they expect to check up on his movements from Wednesday until that time.

WILL QUIZ FRIENDS

It was also planned by Deputy Sheriffs Stensland and Blaisdel, who have been handling the case, to make a thorough examination of the youth's room at home and to question his most intimate friends in an attempt to solve the mystery or ascertain a motive for the murder, which so far is seemingly lacking.

An autopsy performed by Deputy County Autopsy Surgeon Webb at the Fox & Allerdyce undertaking establishment at Bell apparently disposed of the suicide theory. One bullet passed through the head horizontally from left to right, just behind the eyes. It did not touch the brain. Another bullet entered the back, tearing open the heart. Dr. Webb said the body wound would have caused death and the head wound, if not fatal, loss of consciousness. He believed the heart wound was inflicted first.

MELLON TELLS TAX-CUT PLANS

(Continued from First Page)

record as opposing repeal of some of the so-called nuisances taxes as had been suggested both in and out of Congress. Among these are the amusement and passenger automobile taxes.

Pointing out that the amusement tax applies only to admissions costing in excess of 50 cents, the Treasury Secretary said this tax did not seem to be particularly burdensome and that it ought to be retained in the interest of the $33,000,000 revenue which it produces.

The sales tax on passenger automobiles is estimated to produce $90,000,000 annually, and Mr. Mellon told the committee that as long as the Federal government contributed more than $90,000,000 a year to good roads, "on which these automobiles run, they certainly ought to be made to pay their way."

The dominant feature in the long prepared statement which the Treasury Secretary read was the argument for reduction of the surtaxes. He held the necessity for such a reduction paramount, and declared it would serve to remove some of the existing inequalities in the administration of the revenue law.

AID TO BUSINESS

"It has been the experience of the Treasury," he said, "that every time there has been a material reduction in surtaxes, it has stimulated business and brought about an increase in taxable income which has made up a great part, if not all, of the loss of revenue, from the higher incomes.

"A reduction of the lower brackets in itself means no increase in taxable income. A man with a $5000 salary does not carry funds in nonproductive investments and a reduction of his taxes does not, therefore, create additional taxable income.

"A reduction in the surtax, however, increases the amount of capital which is put into productive enterprises, stimulates business and makes more certain that there will be more $5000 jobs to go around. It seems to me quite clear that a man with a $3000 job, who, if married and without dependents, pays a tax of but $7.50 under the present law, or a man with a $5000 job, who, under the same conditions pays a tax of $37.50 is more interested in having a job than in having his taxes further reduced. What we mean by tax reform, is to make more of these jobs."

While questioning his theory that a reduction in surtaxes had been responsible for increases in revenue during the last few years of rising business prosperity, Chairman Green of the committee told the Secretary he is in accord with him on the principle of a surtax reduction.

REPEAL URGED

Urging repeal of the estate or inheritance tax, Mr. Mellon asserted that this is one belonging to the State and not to the Federal government. He added that the States need every source of revenue available and that in a majority of States the Federal tax directly decreases the property which the State can tax.

Replying to suggestions of some Democratic leaders in Congress that the public debt is being retired too rapidly, the Secretary said that, far from hurting the country, the present policy of debt retirement has been a great benefit to all those who needed capital.

"Money taken to pay the public debt is not lost," he said, "it is not paid outside the country. Payment means a return of cash to the security holders, who must immediately find other investments. The Treasury debt payment has turned back to the American people $5,000,000,000, and this sum has gone into land, farm loans and industrial and other investments.

"This country is exceedingly prosperous. It can afford to pay off its debts without undue burden upon its taxpayers. Its history has always been prompt extinguishment of its war debt. It is ready for the next emergency when it comes."

Mr. Mellon, during questioning by Democratic members of the committee, would not say that the public debt under the present policy would be retired within twenty-five years as they believed. He said it was not possible to determine accurately when the debt would be wiped out.

HITS PUBLICITY

In recommending repeal of the publicity section of the present law, he asserted that this publicity was utterly useless from a Treasury standpoint, and that the only excuse for the provision was "the gratification of idle curiosity and the filling of newspaper space at the time the information is released."

"All of the supervising internal revenue agents," he added, "report that no additional tax has been collected due to the publicity provision and all of them recommend its repeal. Of the sixty-five collectors of internal revenue, one of them stated that he has collected an additional tax of $420 and another an additional tax of $80. All of the collectors recommended repeal."

While reiterating a recommendation for enactment of a constitutional amendment to eliminate tax-exempt securities, Mr. Mellon declared the delay had been so long and the amount of securities now outstanding which would not be affected by the amendment had become so great, that the only practical way of reaching the present situation "seems to be by taking away the artificial advantage of these securities through the reduction of the surtax to a reasonable figure."

The total of such outstanding securities was placed at $14,000,000,000.

SMOKER TO SUPPLANT CO-ED'S TEA

University of New York Girls Hurdle Last Equal Rights Barrier

[EXCLUSIVE DISPATCH]

NEW YORK, Oct. 19.—Sophomore women at the Washington Square College branch of New York University have hurdled the last barrier of equal rights.

Not to be outdone by Massachusetts Institute of Technology, which recently allowed women to smoke in the dining-room, the sophomore girls of New York University are going to hold a bona fide smoker.

The smoker will replace the usual tea party or social, which is the annual class function. For several days the halls have been buzzing with cabalistic words, "S.G.S." Freshman girls have been adorned in straw hats, with green ribbons, and led through the streets while their tormentors whispered to one another "S.G.S."

The secret is now out. The mysterious initials stand for sophomore girls' smoker. Tea and cakes will be strictly taboo. In their place will be substituted cigarettes, and men's cigarettes at that. Staid professors could hardly believe their eyes when they read the announcement.

"The college will not allow the sophomore girls to give a smoker," Mrs. Dorothy M. Arnold, adviser to women, said today. "It is unfortunate for the college that this ever was planned."

Other members of the faculty, watchfully awaiting some official pronouncement from Chancellor Brown, were noncommittal. Perhaps there will be a sophomore girls' smoker, and perhaps there won't. Mrs. Arnold was firm.

WILL GIVES MILLION TO CHARITIES

James Deering Testament Placed on File in Florida Bequeaths Large Estate

[BY A. P. NIGHT WIRE]

MIAMI (Fla.) Oct. 19.—Providing for an outright donation of $1,000,000 to charitable institutions, the will of the late James Deering, who died September 21, was filed in the Dade county court today.

Provision is also made for the placing of $500,000 in trust, the income to be used for the maintenance of the Miami City Hospital.

Charles Deering, a brother, named as one executor, is given $175,000 outright. Villa Viscaya, the Deering estate to the south of Miami, which is included in the residuary property, is to be divided between Charles Deering and Richard F. Howe, a brother-in-law, named as the other executor.

Bequests to other relatives, friends and employees total approximately $855,000 with the sums ranging in size from $100,000 to $500,000. Charles W. C. Deering, a nephew, is given $500,000.

The Visiting Nurses' Association and the Children's Memorial Hospital, both of Chicago, are to receive $500,000 each.

Johns-Manville Head Succumbs to Heart Attack

[BY A. P. NIGHT WIRE]

NEW YORK, Oct. 19.—T. Frank Manville, head of the Johns-Manville Corporation, died tonight in his apartment at the Hotel Plaza. Heart disease was the immediate cause of death. Mr. Manville was 63 years of age.

RIVER PROGRAM OUTLINE GIVEN

(Continued from First Page)

States against granting of any water rights on the Colorado until the proposed pact between seven basin States—Utah, Wyoming, Colorado, New Mexico, Nevada, Arizona and California—has been ratified. All the States but Arizona have ratified the pact. That State is opposing the agreement.

Representatives of the upper basin States contend that granting of water rights on the river prior to ratification of the agreement—which would divide the Colorado's water among various States—would result in lower basin States obtaining prior rights, which, in later years, would prejudice the interests of the upper States. The latter assert they have considerable areas which can be made fertile by irrigation, but which cannot be developed now because of lack of money and unfavorable agricultural conditions. It is to protect this land for future development that the fight is being made.

ARIZONA PERMIT CANCELLATION EXPLAINED

[EXCLUSIVE DISPATCH]

PHOENIX, Oct. 19.—Frank P. Trott, Arizona State Water Commissioner, stated today that his order cancelling the Diamond Creek or Girand hydroelectric permit on the Colorado River was issued on the 13th inst., following receipt of an answer from the Attorney-General's office on questions concerning what actually constituted compliance with the State law demanding construction work within a year of such a grant. The order was made retroactive to December 26, 1923, on the ground that at that time the end of the year of grace, only preliminary work had been done on the project. Specifically, it is said that State investigation revealed only two drill holes, sunk to determine the character and depth of the foundation.

The last order is stated to have been issued at the request of Gov. Hunt, to clear the record in time for the hearing of the Girand matter tomorrow in Washington by the Federal Power Commission. It appears that the Governor suggested a similar order in 1923, but was advised by the Attorney-General the franchise had terminated automatically and that no order was needed. In the following March, Girand was enjoined in the Federal court from further prosecution of work, which then was being pushed actively, the legal action being taken at the request of Federal authorities. It had been understood here that the injunction maintained the life of the Girand State permit.

Atty.-Gen. Murphy has been joined in Washington by H. S. McCluskey, private secretary to the Governor, who is understood to be bearing a document in which it is suggested that the State of Arizona be considered as an applicant for hydroelectric dam sites on the Colorado.

GOVERNOR HITS GIRARD PERMIT

Announcement that he wired a protest to the Federal Power Commission against granting any power permits on the Colorado River and has designated Ralph Merrit to represent this State was made here yesterday by Gov. Richardson following a conference with State Engineer McClure.

The message read: "Representing the State of California, I desire to protest against the issuance of a power permit to James B. Girand or any other parties on the Colorado River until plans have been agreed upon protecting the interests of the seven States in the Colorado River Basin."

In a statement the Governor said: "The Colorado River problem is one of the most important matters before the people of California. The southern portion of the State needs the waters which can be conserved from this great river, and the power which can be developed. The conservation of water is a problem particularly vital to Imperial, Riverside, San Bernardino and Los Angeles counties.

"California has done its part to get the States together. The recent Legislature authorized the appointment of a committee to confer with the committees from Arizona and Nevada and to adjust the interests of the States. I arranged the conference as provided by the legislative resolution.

"Owing to the objections on the part of Arizona no agreement has as yet been reached. Recently representatives from Utah, Colorado and Wyoming called upon me and discussed this problem. Later they held conference with others interested. The great problem should be solved quickly and I hope an agreement between the States can be reached. California is anxious for a settlement."

BLAZE ON SHIP BRINGS CHARGES

(Continued from First Page)

the main deck. After fifteen minutes the smoke cleared and we were told to go back and finish our evening meal and everything was all right. Many of us did, but the fright sent many others to their staterooms.

CONFUSION TOLD

"Fifteen minutes after the assurance was given, smoke clouds were to be seen on all sides of the ship and we grabbed life preservers. Swearing at the top of their voices and throwing men and women aside, the negro crew ran panic-stricken about the ship. Lines were soon brought on deck and as soon as the water was forced through them several burst.

"Someone gave an order to lower the boats. The negroes tried and sent some of them head-first into the water. Many of the davits refused to work and when the boats were finally launched successfully the negroes were the first to enter them. In several instances fist fights occurred in the boats as they were lowered and negroes and whites were thrown into the water.

"Women were treated shamefully. In several cases clothing was torn from their backs."

President Harry H. Raymond of the Clyde Steamship Company tonight at his home here made a blanket denial of the charges against the crew and the liner itself.

"The Comanche had been out only a few weeks and was kept up to the highest standard," he said. "Rigid government inspection made this imperative and the fact that all passengers were saved would seem to testify to this fact."

KRIM FEARLESS DURING BATTLE

Strides About Front Under Fire Always Grinning

Looked on as Napoleon and Mohammed by Men

Predicts France Will Lose All of North Africa

BY VINCENT SHEEAN

[BY CABLE—EXCLUSIVE DISPATCH]

[Copyright, 1925, by North American Newspaper Alliance]

ADJIR, Sept. 24. (By Courier to Tangier, Oct. 19.)—I arrived at the headquarters of Abd-el-Krim yesterday, in the midst of the siege of the Riff capital by the combined Spanish and French forces. The Riff forces had already foreseen the capture of the city, and had withdrawn everybody from the capital except a force of eleven defenders whose activities I described in the first dispatch of this series.

Abd-el-Krim's headquarters was a stone house standing on a hill outside the city.

When I arrived at the door of this hastily contrived office building, Abd-el-Krim was simultaneously arriving from the other direction—a hill just in front, where the Riffian lines faced the Spanish infantry.

He received me with his usual merry grin and actually seemed to be in excellent spirits.

With his unfailing sense of humor and his absolute disregard for danger, he makes an ideal companion under fire, as I was to discover later in the afternoon and evening.

Danger and difficulty enhanced Abd-el-Krim's effectiveness as a dramatic figure. Previously I had thought him an intelligent little Moorish lawyer advanced by accident into a position of world importance. Yesterday, moving among his men amid that hellish noise, while bombs and enemy shells threatened his life at every moment, his plump little figure and cool merry-eyed visage assumed a new aspect.

Unconscious alike of danger overhead and the adoration which surrounds him, he seemed yesterday all his people believe him to be—their Mohammed and their Napoleon in one.

RIFFS MAKE REPLY

"If France does not make peace with us now, she will lose all of North Africa," he said to me.

This was Abd-el-Krim's reply to the Franco-Spanish offensive now in full swing on all fronts.

In our interview, which lasted off and on for about eight hours, the Riffian Sultan discussed the general problem of war and peace in Morocco. During most of that time we were under fire, and artillery shells and air bombs supplied emphasis to every declaration Abd-el-Krim made.

His colossal disdain for all engines of destruction remains the principal impression of the day. Whether he was walking coolly in the front line trenches with grimy soldiers kissing the hem of his robe or standing on a hilltop watching the defiant fire of his men at enemy bombing planes, he was always a heroic figure, with a powerful appeal to the dramatic sense.

COOL UNDER FIRE

Sometimes during the afternoon that cool courage of his worked hypnotic effects on his followers—as during the final air raid just before dark, when he was walking toward a sheltering excavation in the hillside. Characteristically, Abd-el-Krim walked with firm measured tread, although two planes were already upon us and bombs were falling just beyond a near-by house. The hillside was covered with figures flying for shelter—old men, boys, civilians, workmen, French and Spanish prisoners. The appearance of Abd-el-Krim walking calmly down the hillside worked a curious change. Almost all the flying figures stopped and come toward us. Old men and children crowded around to kiss the hem of "Our Lord Mohammed."

Their "Lord Mohammed" smiled at them all, but walked on to the cave. There, where all the staff officers had preceded him, he seized a rifle and stood outside the cave firing at the planes overhead. Squatting in the entrance to the cave, I watched him throughout that raid, which lasted about fifteen minutes, during which we had both bombs and machine-gun fire directed on us. He was actually smiling all the time, his curiously separated front teeth showing in a grin of pleasure as he fired again and again. The staff officers inside kept anxiously calling, "Lord Mohammed—Lord Mohammed," but he only answered by firing again.

FLYER'S OPPORTUNITY

I wondered what some French aviator up there would give to know that one well-directed bomb from him would go far toward winning this war for France. But "Lord Mohammed" goes through this every day and has never yet been touched by enemy bullet, shell or bomb. His people have some reason to believe that he is under the special protection of Allah.

At night, when he toured the trenches, where rifle fire and hand grenades menaced life at every moment, he exhibited the same good-humored courage. There he deposited me in a dugout toward the left end of the Riffian two-mile front facing the Spanish lines on Cape Moro Nueva. The distance between the Riffian and Spanish trenches was not more than 200 feet and firing continued all night long.

"This is far enough for a newspaper man to go tonight," said Abd-el-Krim with his wise little grin. "We are very indulgent to the press, but see no reason why we should let its men be killed—especially the American press. The American and English papers are the only ones which don't tell lies about us." He took a flat loaf of Arab bread out of the hood of his djeelaba, gave it to me and disappeared with two officers toward some trenches to the right.

OPTIMISTIC GENERAL

Half an hour later he reappeared, good-humored as ever. The whole line was in good condition, he said, and heavy losses had been inflicted on the Spaniards.

When I left field headquarters about 10 p.m. to return to Adjir, he was busy dictating dispatches to his brother Mohammed at Tatghzuit. He looked up to say "Adios," and added, "come back tomorrow night and I will let you go along the whole line with me. We may capture this entire Spanish army tomorrow night! We've done it before."

The talk which ended on this optimistic note began about noon yesterday when I arrived at Abd-el-Krim's field headquarters. We talked for a few minutes in a room of a house, then an air raid forced us to adjourn to one of the dugouts. Most of the afternoon we spent in front of this cave, returning to the house now and then when planes were not bothering us.

The interview continued in the evening over many cups of Arab tea and afterward in a short walk over the next hilltop to the front line.

SMITH AGAIN TELLS PLAN TO RETIRE

New York Governor Says He Will Quit Politics as Soon as Term Ends

[BY A. P. NIGHT WIRE]

ALBANY (N. Y.) Oct. 19.—Gov. Smith reiterated today that he will retire to private life at the end of his present term as chief executive of New York State.

"A man can't go on indefinitely in this job," he said.

Reminded that he had been quoted once as saying that any man would be a fool who did not accept the Presidential nomination if it was tendered to him, he said: "That is true. But there is a great difference between accepting the nomination and going after it. The only chance I would have to get the Presidential nomination would be when all the leaders were convinced that I was the only man who could win. Any one would be foolish to go about the country talking with an eye on the nomination more than two years before the nomination is made."

Insurance Held Basis for Boy's Killing Father

[BY A. P. NIGHT WIRE]

ALLISON (Iowa) Oct. 19.—An attempt to prove that Warren Vandervoort, 17-year-old high school boy of Parkersburg, killed his father, Rev. R. J. Vandervoort, and sought also to kill his mother as a means of getting possession of $11,000 in life insurance carried by his father, is to be made by the State in the hearing on a charge of first-degree murder against the boy that opened here today.

County Attorney B. H. Brauer declared in the opening statement of the prosecution that the slaying of the Parkersburg minister was premeditated by the youth and followed closely upon the heels of a family discussion of insurance matters in which the mother had facetiously told the Rev. Vandervoort that he was worth more dead than alive.

Expels Nineteen From Florence Fascisti Group

[BY CABLE AND ASSOCIATED PRESS]

FLORENCE (Italy) Oct. 19.—Dr. Italo Balbo, who was sent here as extraordinary commissioner following the recent clashes between Fascisti and Free Masons, has announced the expulsion from the Florentine Fascist organization of a "first list" containing nineteen names, the assumption being that further expulsions will follow.

Dr. Balbo's action is automatically ratified by the directorate of the Fascist party. It is also approved by the newspapers, which point out that the expelled members, while individually unimportant, had obtained ascendancy over the factions within the party favoring extremist measures.

INFRINGEMENT SUIT ORDERED RETRIED

[BY A. P. NIGHT WIRE]

SAN FRANCISCO, Oct. 19.—The United States Circuit Court today reversed in part the decree of the Los Angeles District in A. G. Willard and W. W. Wilson versus the Union Tool Company in a patent infringement suit. The Circuit Court ordered the case back for retrial. The Los Angeles court's order denying the plaintiff's motion for a supplemental decree to extend an injunction issued in an equity suit was affirmed by the Circuit Court.

FAMOUS NAMES OF NO AVAIL

Mary Pickford and Babe Ruth Hardly Signers of Hiram's Petition

NEW YORK, Oct. 19.—When some one notified Hiram Rose that his nomination as Supervisor of the town of Stony Point was short of the required 500, he first told them that it contained 503 and then went to see what was the matter.

Shown the petition Rose counted the names again and they totaled 503—three more than required.

But then the clerk showed him four would hardly pass as citizens of Stony Point for they were:

Mary Pickford, Babe Ruth, Douglas Fairbanks and Bucky Harris.

So Hiram Rose won't run for Supervisor.

STATE SEEN AS TEXTILE CENTER

California May Obtain World Supremacy

Lack of Water Power Hits Eastern States

Advantages Here Pointed to by Cotton Men

[EXCLUSIVE DISPATCH]

SAN FRANCISCO, Oct. 19.—California is the logical textile manufacturing center of the world, and is destined rapidly to assume this position. Leading cotton industrialists of the State, after attending a series of regional conferences under the auspices of the California Development Association, have reached the conclusion that with very little more educational work, financial and commercial California will come to realize the vast opportunity lying dormant in this field. Crystallization of this thought will be sought at the third regional meeting on cotton at the Hotel Senator, Sacramento, tomorrow. A State conference will be conducted in Los Angeles on December 4.

Analysis of the economic phases of cotton growing throughout the United States has brought to light illuminating facts relative to the westward trend of this industry. With the lack of sufficient hydroelectric power and inadequate and inefficient labor supply in the New England States, which district has been identified with the industry since its inception, the mills gradually have been moving to the Southeast, and are working over to the southwest, Texas now leading the States in the installation of new textile plants.

NEED WATER POWER

The Southeast was able to develop the textile business only to a limited extent, due to the same lack of hydroelectric power which governed the decline of the industry in the New England States. Labor also has been another problem unsolved in this district. At the present time Texas is enjoying lower manufacturing costs of cotton textiles, due to both cheaper power and better labor conditions.

California, however, it is pointed out, enjoys an overwhelming advantage over every other State in the Union from a standpoint of cheap power, due to her unequaled hydroelectric development. Mexican women, who are particularly adapted to textile mill work, having become, from centries of training, unusually skillful in the use of their hands, are available for California textile mills.

Markets, raw material and transportation also show a healthy condition in comparing California with other States of the Union bidding for the textile industry.

A thorough discussion of every phase of the cotton industry will take place at tomorrow's meeting.

Headed by a delegation of twenty-five from the Oakland Chamber of Commerce, more than 100 leading cotton industrialists will attend.

MEAT NEED OF NATION INCREASES

Per Capita Consumption Estimated at 160 Pounds This Year

[BY A. P. NIGHT WIRE]

CHICAGO, Oct. 19. — Stocks of meat in storage and process of cure would fill the needs of the United States for only twelve days, if immediately available, according to government bureau figures, Oscar Mayer, president of the Institute of American Meat Packers, told his organization today at the twentieth annual convention. He estimated American meat production in 1925 will be 20,000,000,000 pounds, with a per capita aliment of nearly 160 pounds; exports will be about 1,500,000,000 pounds.

Continued growth of population in the United States at an estimated annual increase of 1,500,000 persons, will require additional supplies of meat in this proportion: 200,000 cattle, 200,000 sheep and lambs, and 1,000,000 hogs.

The shortage of hog receipts has increased Chicago prices 6 per cent in the past year, according to Mr. Mayer, but the dearth of porkers will be slightly modified by a slight increase in beef, veal and mutton production.

REOPENING OF PATENT SUIT ASKED

Smelting Company Says New Evidence Discovered in Case Involving Millions

[BY A. P. NIGHT WIRE]

SAN FRANCISCO, Oct. 19.—The American Smelting and Refining Company, against which judgment recently was sustained on appeal to the United States Supreme Court in a smelting patent infringement suit pressed by George Campbell Carson, San Francisco mining man, today applied to the United States Circuit Court of Appeals for permission to petition the United States District Court at Seattle for leave to file a petition for reopening the Carson case. The petitioner states that it desires a rehearing and leave to amend its answer on the plea of newly discovered evidence.

Carson's claim against the company has been variously estimated at from $2,000,000 to $20,000,000. Argument on the application was set for next Monday in Circuit Court here.

The Seattle District Court on January 16, 1924, dismissed Carson's suit as without merit. On February 16, 1925, the Circuit Court reversed the Seattle Court, and in April denied the defendant company's petition for a rehearing. The case subsequently was appealed to the United States Supreme Court, which upheld Carson's claim.

Carson, an elderly man of moderate means, says that the American Smelting and Refining Company for years has used a smelting process and machinery patented by him.

HAS GLORIA GOT TITLE? OH, MAYBE

Matter of Sous Might be Only Reason Husband Not Registered as Nobleman

[BY CABLE AND ASSOCIATED PRESS]

PARIS, Oct. 19.—Gloria Swanson's husband, the Marquis de la Falaise, by no means is the only French Marquis whose title does not—and legally cannot—appear on his birth, marriage or death certificate.

To insure that a title may be so used the holder is required to register in the chancery at the Ministry of Justice. He must produce documentary proof that the title has been regularly conferred by a previous government, and that he is the eldest in line of the last family which held it.

Needless to say, a person registering must pay a fee. Only 240 titles of Marquis have been legally registered, but there are many hundreds of persons using the title, some of them socially prominent and some married to American women.

An authority on the subject of titles asserts that it is impossible to verify the authenticity of those of many widely known families and that their use, although tolerated socially, remains formally forbidden in public documents.

Club Labeled as Gambling Den by University Daily

[BY A. P. NIGHT WIRE]

BERKELEY, Oct. 19.—Charges in the Daily Californian, student newspaper at the University of California, that men students are spending most of their time gambling for money in the Stephens' Union, student clubhouse on the university campus, are being investigated by President W. W. Campbell and the Associated Student Body.

Dr. Campbell issued the following statement today:

"The subject of gambling in Stephens' Union comes to the president's attention for the first time in the editorial as published this morning by the Daily Californian. The president immediately will launch an investigation to ascertain the facts, and if such an abuse exists in Stephens' Union the president expects to see that action is taken with speedy promptitude."

WIDOW OF RING IDOL PENNILESS

Former Mrs. Fitzsimmons Incurably Ill

Once Donated Lavishly to Hospital Funds

Erected Home for Babies in Los Angeles

[EXCLUSIVE DISPATCH]

CHICAGO, Oct. 19.—After spending thousands of dollars in charitable work, Mrs. Philip Reiner, widow of Bob Fitzsimmons, now finds herself incurably ill of heart disease and penniless, in the Presbyterian Hospital. For the last three years she has been cared for wholly without compensation by this hospital.

During her flush days, when she was giving money right and left, she donated liberally to other hospitals and to hundreds of individuals. Now that she is helpless, a majority of them appear to have forgotten her.

MET IN PARIS

"What this hospital, my doctors and nurses have done for me, I could never repay in money, even if I had any," she said today, "but I hope my children, when they get older, will take care of the money end of my obligation. All I can give is gratitude."

The champion prize fighter met the now invalid widow in Paris and married her in 1903. At that time Fitzsimmons could speak no French and his wife could speak no English.

Before her marriage to Mr. Reiner, from whom she is estranged, the champion's widow had been heard many times, professionally, in Chicago. She appeared at three or four of the leading theaters as a singer of ability. Since her second marriage she has become the mother of two children, Marvin, 5, and Avalon, 4. The baby girl is a graceful dancer and has already won a championship.

PRAISE FOR BOB

Mrs. Reiner is still known to most of her friends as Mrs. Fitzsimmons. In her prosperous days she built a home for babies in Los Angeles at a cost of $80,000. She has been all over the country engaged in singing and as a social worker. Of her former husband, she has only the highest praise.

"Bob was the idol of the world," she said. "He was a good fighter and he was a good husband and congenial companion. He will always be a hero in my eyes," and she sighed and turned her tear-stained face to the wall as she recalled his death after fourteen years' of married life.

Everywhere Hudson is known as the World's Greatest Buy

That is not alone because of its selling price. The value is in performance, endurance and low operating cost. Such qualities are outstanding long after the price is forgotten.

Hudson prices are lowest because tremendous volume has made possible economical methods of manufacture. The world's largest production of Sixes—Hudson and Essex—opens economies that are not possible in a smaller production.

Through increase of quality, greater sales result, and volume economies that permit lower prices. There you have the reason for Hudson's leadership in value, in price, in sales.

It explains why Hudson with the patented Super Six principle has distinctive smoothness, long life, wide performance range, and why every Hudson owner is so enthusiastic.

There can be no better proof that Hudson is the World's Greatest Value than what owners say for it and that its sales leadership continues as it has now for years, the outstanding success of motordom. It is the

WIVES REVOLT AT MONOTONY

Desire for Luxuries Shown in Club's Survey

Relief from Daily Grind Held Need of Women

Hard Work Not Minded if Given Radio or Car

[BY A. P. NIGHT WIRE]

NEW YORK, Oct. 19.—Escape from the monotony rather than the drudgery of the housewife's lot has caused her to choose luxuries instead of conveniences, concludes the General Federation of Women's Clubs after a canvass on "What women want in their homes."

The average American housewife prefers an automobile and a telephone rather than to have modern plumbing arrangements in her home, because "these offer relief from a monotony that has driven many of her predecessors into insane asylums."

The federation's findings were written by Mrs. Mary Sherman, national president.

DISH-WASHING BLUES

"The housewife does not mind washing stacks of dishes under the glow of an electric globe, but the task doubles or trebles if she must do it by the smoky dim light from a kerosene lamp," said Mrs. Sherman. "She does not mind sweeping the lower floor of the house if she knows that at the end of her task she can sit down and chat via the telephone with a neighbor five miles away, and she will beat rugs for an hour—if the evening brings the relaxation of an automobile drive."

While 65 per cent of a large number of homes investigated were found to have inside sanitary arrangements and 59 per cent of them had bathtubs, 70 per cent of these families had automobiles and 68 per cent of them were equipped with telephones.

The research made by the federation covered 445,987 homes scattered through 237 communities. In 40 per cent of the homes it was found that there were no stationary washbowls, and water had to be carried in and out, and 25 per cent of them were not even equipped with kitchen sinks. But 87 per cent had electric light, and 73 per cent were equipped with electric irons.

RADIO POPULAR

Radios were found in 17.6 per cent of the homes, pianos in 46 per cent, phonographs in 50 per cent.

In discussing the high percentage of homes equipped with automobiles and telephone but not with plumbing, Mrs. Sherman declared:

"Sentimentalists will say that the fault lies with the men. But we club women who study conditions from the inside of the home understand the situation better. Women no longer undervalue their services in the home. They run their homes on the budget plan and have personal allowances to spend as they like.

"Then why do they choose luxuries instead of conveniences? Why does the automobile take precedence over the stationary tub, the telephone over the vacuum cleaner and the radio over the power-run sewing machine.

"Because the housewife for generations has sought escape from the monotony rather than the drudgery of her lot. She can and does endure toil, actual physical labor, patiently and cheerfully; but she breaks physically and nervously under monotony. The automobile, the telephone and the talking machine or radio offer the modern home-maker the escape from that monotony which drove many of her predecessors into insane asylums."

AIDS EX-WIFE IN HER THIRD NUPTIAL TRIP

Twice-Divorced Husband Drives Dancer and Rival to Clergyman

[EXCLUSIVE DISPATCH]

BALTIMORE (Md.) Oct. 19.—Both of his marital trials with Sheila Nicolai having resulted in failure, Laurence C. Nicolai, twice divorced from the little Russian dancer of the musical revue, "Artists and Models," helped her embark upon her third matrimonial venture, it became known yesterday. Nicolai drove the automobile in which Sheila and Charles Collins Taylor, Jr., nephew of Asa D. Candler, the Coca-Cola king, went to Rockville, Md., where the couple were married by Rev. P. Roland Wagner, Methodist minister.

While the ceremony was being performed Nicolai remained in the automobile and, it is said, sobbed, seemingly heartbroken over his failure to once more win the hand of Sheila. He then drove the couple back to Washington and wished them good luck.

Romantic to the extreme was the setting for the marriage. Sheila had gone to Washington with the Shubert production and there met Nicolai once more. On the opening night of the run there Taylor was in the front row. Several years had elapsed since he had seen the Russian dancer. Once before he had wooed her, while he was a midshipman on the Pacific Coast. After the show Nicolai, Taylor and Sheila found themselves together at supper. Taylor talked marriage, Sheila consented and Nicolai, the discarded husband, agreed to help.

HUNT RENEWED FOR SLAIN GIRL

Eureka Official Calls for Volunteer Posse

Carmen Wagner Declared to Have Been Murdered

Believed Victim of Man Who Killed Henry Sweet

[EXCLUSIVE DISPATCH]

EUREKA, Oct. 19.—Carmen Wagner, the flaming-haired beauty specialist who accompanied Henry Sweet on the hunting trip that resulted in the discovery of his body a week ago yesterday, was slain by the murderer of Sweet.

Such is the conviction of Dist.-Atty. Arthur W. Hill of Humboldt county, who caused to be posted today in public places here an appeal for volunteers to "search for the body of Carmen Wagner."

In explanation of the appeal Hill said that certain evidence in his possession had convinced him of the girl's murder, and that as the Sheriff's posse is exhausted from its futile search of the wilderness around Showers Pass, where the girl was reported as a prisoner of a demented homesteader, he issued the call for volunteers.

WOODSMEN WANTED

Men are presenting themselves in response to the appeal but only those who have expert knowledge of woodcraft are being accepted. It is expected that two or three Indians will be included in the volunteer posse.

Dist.-Atty. Hill's conviction that the girl is dead was voiced shortly after it had been established that Sweet had been killed by a bullet from Miss Wagner's rifle, which was found in a clump of brush not far from Coyote Flat where the body of Sweet was found. There were five cartridges in the magazine and none in the barrel, but behind a shack close to the big boulder from which Sweet is supposed to have been shot, was found an empty shell, corroded by age, as are those found in the rifle magazine.

ARRESTS EXPECTED

While Hill has not so stated, there is a belief in official circles that one and possibly two arrests will be made in the case before many hours have passed.

The announcement of belief that the girl was slain did not contradict the theory advanced yesterday that the slayer of Sweet was a jealous friend of Miss Wagner.

Unique Airplane Lands Easily in Tests in England

[BY CABLE—EXCLUSIVE DISPATCH]

LONDON, Oct. 19.—Flying a novel airplane, called an Autogiro, invented by a Spaniard, Senor Delacierva, Capt. F. T. Courtnay, "fell" 400 feet at Farnborough today, landing without crashing. Held aloft by horizontal vanes revolving in windmill style, the machine descended vertically, simply bumping slightly on the ground.

Air Minister Sir Samuel Hoare and other airmen attended the test which is declared to have advanced materially the solution of the problem of vertical flying. The machine is neither a helicopter nor an airplane, but resembles the former.

SAN FRANCISCO, Oct. 19.—Capt. Stanford E. Moses, who, as commander of the aircraft squadron of the Battle Fleet, was in charge of the flight of the PN-9 No. 1 to Hawaii, has been assigned to the naval examining board of the Navy Department, it was announced today.

He was relieved of the aircraft squadron command a week ago by Capt. John M. Reeves.

STATESMAN IS PRINTER

President of German Reichstag Sticks Type in Chicago

[BY A. P. NIGHT WIRE]

CHICAGO, Oct. 19.—Back among the type cases, breathing with keen relish the odor of printer's ink and handling the "stick" with the dexterity of a master typesetter, Herr Paul Loebe, President of the German Reichstag, renewed his acquaintance with the printers' trade in the composing rooms of a local newspaper.

Herr Loebe, who was a delegate to the interparliamentary meeting at Washington, is in Chicago with other members of the German delegation as a guest of prominent business men of German extraction.

He is a printer by trade and addressed the employees of the print shop "colleagues," shaking hands with each.

EXPLAINS HIGHWAY USE

Traffic Lines Must be Followed Says State Engineer

[BY A. P. NIGHT WIRE]

SACRAMENTO, Oct. 19.—Efforts of the State Highway Commission to induce traffic to move in four lanes on wide highways such as the forty-foot Peninsula Highway in San Mateo county, were explained by R. M. Morton, State Highway Engineer, in a statement issued here today. Morton said:

"There is no advantage in building forty-foot pavements unless traffic can be induced to make the fullest use of the entire width of the roadway. Traffic lanes have been painted on sections of the Peninsula Highway for the following reasons:

"Slow traffic is expected to move in the two outer lanes on the heavy concrete shoulders. The faster traffic is to be confined to the two center lanes."

HUGE CREDIT GIVEN BANK OF BELGIUM

J. P. Morgan and Guaranty Trust Aid Scheme for Gold Standard Return

[BY A. P. NIGHT WIRE]

NEW YORK, Oct. 19.—Participation in credits arranged in several foreign countries by Gov. Hautain of the National Bank of Belgium to stabilize the Belgian franc, was announced tonight by J. P. Morgan & Co., and the Guaranty Trust Company.

The amount of credit extended by American banks was not revealed. Wall street understood, however, that the aid which had been obtained consisted of temporary advances to be replaced later by a large loan, estimated at $100,000,000 or $150,000,000, for which the sanction of the Belgian Parliament will be sought next month.

Negotiations for the credits were carried on in London by Gov. Hautain and Finance Minister Jansen of Belgium. In addition to the American advances, credits also were obtained from London, Amsterdam and Swiss bankers.

Cable dispatches from Brussels last week announced Belgium's impending return to the gold standard and said that a law soon would be promulgated to fix the rate of exchange of the franc for the dollar and pound sterling.

Caustic Remark Averred to Have Impaired Health

[EXCLUSIVE DISPATCH]

STOCKTON, Oct. 19.—A jury in Merced must decide whether the spoken word can materially damage a person's health. Mr. and Mrs. Albert Knauber have filed suit for $10,025 damages against I. N. Rosekrans, a rancher, asserting that while Knauber was manager of Rosekrans's ranch, the latter took occasion to administer a caustic remark concerning the management of the ranch.

This took place within Mrs. Knauber's hearing, says the complaint, and the gruff remark affected her permanently, impairing her normal strength.

WOMAN HEROINE IN BLAZE AT LATHROP

[EXCLUSIVE DISPATCH]

STOCKTON, Oct. 19.—When fire of unknown origin destroyed the L. F. Percival blacksmith shop in Lathrop, Mrs. Percival became a heroine and incidentally saved her home, located next door, from destruction. Unaided she rolled a large tank filled with gasoline from the shop to prevent its explosion. She was uninjured.

LAID AT REST IN TUCSON

[EXCLUSIVE DISPATCH]

TUCSON (Ariz.) Oct. 19.—Interment in the family cemetery plat here has been made of the remains of Miss Bertha Herring, who died in Los Angeles on the 13th inst. Services were conducted in Grace Episcopal Church. Miss Herring was the daughter of the late Col. William Herring and for many years was a local resident.

LE TRAIN SPECIAL PARTIRA à 6h

The Railroad Service of the Sea

The French Line.... as dependable as a Railroad Express

WOULD you like a train that has a deck to promenade? A salon in which to dance? A clear space where invigorating games can be played each day? But is there such a train? you ask. No . . . . for these are the luxuries of a French Liner! And in little more time than it takes to flash across the continent—The Paris or The France will carry you to a new continent centuries old.

Sail direct to Plymouth, England. Then to Havre . . . . the Port of Paris . . . . and down the gangplank to a special train waiting. Three hours and . . . . Paris. Fortunately, distances in France are short. Overnight . . . . and you are on the Riviera. And just twenty-six hours across that sparkling Mediterranean . . . . North Africa.

Write for sailing schedule of the de Luxe French Liners. Then up "the longest gangplank in the world" for the rest and pleasure that lie beyond it.

INTELLECTUAL BANDITS TAKEN

Supercrime Gang Nabbed by New York Police

Shakespeare and Boswell Read by Gangsters

Famous Band Rounded Up in Drive on Criminals

[BY A. P. NIGHT WIRE]

NEW YORK, Oct. 19.—Intellectual criminals who read Shakespeare, studied higher mathematics, used silencers on their pistols and depended on a rabbit's foot for luck, have been revealed with the capture of twelve or thirteen members of the "Cowboy" Tessler gang.

The last pair of a dozen under arrest for twenty-eight hold-ups were taken last night in their luxurious East Side apartment, within a block of one of New York's most fashionable sections. Editions of Shakespeare, Boswell's Life of Johnson and treatises on higher mathematics were found on the library table. Ropes for tying their victims were on a bed. A rabbit's foot was on the floor. A similar library was found in the Bronx apartment of "Cowboy" Tessler, their leader.

WOMAN ARMORER

A woman member of the gang, Helen Hamilton, was the armorer. She kept pistols in good condition, issuing them when needed. This task was delegated to her because she could conceal weapons more easily than a man.

Police say that members of "Cowboy's" gang have been identified as having participated in twenty-eight recent hold-ups.

Another gang of seven men under arrest is regarded as responsible for various other hold-ups. This gang consists of Herman Rothenberg and six companions, who were arrested in Rothenberg's richly furnished West Side apartment last night.

Hiram Percy Maxim, inventor of the silencer for rifles, has expressed his opinion that it would be impossible to make an effective silencer for as short a weapon as a pistol, but Arthur Leslie or Rothermal, one of the Tessler gang, has told the police he has shot thirteen times at a motorcycle officer, firing ten times with a muffled pistol. The officer thought he had been shot at only three times.

BANDITS BUSY IN NEW YORK CITY

[BY A. P. NIGHT WIRE]

NEW YORK, Oct. 19.—A band of five robbers, one of them wearing a policeman's uniform, committed a series of hold-ups in Brooklyn early today while in Manhattan two gunmen shot and probably fatally wounded the proprietor of a lower East Side restaurant, in which there were eighteen patrons, including five women.

The boldest robbery by the Brooklyn band was the hold-up of Mr. and Mrs. Samuel Golman and their chauffeur as their car was passing along Eastern Parkway. After they had crowded the Goldman automobile to the curb, the five robbers took $5000 in jewelry and $250 in cash from their victims.

SAFE BLOWERS GET CASH IN BANK THEFT

[BY A. P. NIGHT WIRE]

URBANA (O.) Oct. 19.—A band of robbers held citizens of North Lewisburg at bay early today and blew the safe of the Bank of North Lewisburg and escaped with approximately $3500 in cash. Telephone wires were cut by the bandits.

RICH HAUL MADE IN GOTHAM THEFT

[BY A. P. NIGHT WIRE]

NEW YORK, Oct. 19.—Burglars blew open the safe in the jewelry store of Jacob Sakow, in Upper Lexington avenue, last night, and stole Liberty bonds, cash and jewelry totaling $50,000, it was learned today. They dropped some of the loot in their flight.

'GIN AN' GENESIS' PLEA RESULTS IN ARREST

NEGRO JAIL CUSTODIAN UP IN COURT AS RESULT OF "SERMON"

[EXCLUSIVE DISPATCH]

DENVER, Oct. 19.—Preaching a stirring, ringing sermon on "Gin an' Genesis," in which he urged his audience to work hard and support "de various clurgymens," Happy "Waymund" Thomas, summer custodian of the County Jail lawn, passed the hat among the crowd he had gathered at Twenty-first and Lawrence streets, taking in 85 cents, and just then—

"Preachin' is profitable, jedge, dat's de onliest reason I was deliverin' 'at sermon," explained Waymund in Police Court. "Yo' all be surprised to know how many gentlemens are willin' to trow in a dime or a nickel in mah hat after I gets through preachin'. I came by it natural 'nuf, jedge, seein' mah father was a trustee in de church an' I has been a trusty in de jailhouse. Ah preaches dat gin an' de Bible ain't brethern, an' dat preachers must be supported—."

"Twenty and costs!" droned Judge Walter White.

But later, when it looked like the aged negro comedian was heading for jail in default of fine, Attorney Ben Laska told the court he would pay "Waymund's" costs if the court remitted the fine, and that was done. It costs Laska $2, but "Waymund" is free again.

BAD CHECK SUSPECT LIKES LOCAL POLICE

[EXCLUSIVE DISPATCH]

TUCSON (Ariz.) Oct. 19.—Patrick Acuna says he likes Los Angeles policemen, with several of whom, he tells, he attended a theater, unrecognized, after his description had been posted at headquarters. He was arrested at Nogales and has been sent back to San Diego, where he is charged with the issuance of about fifty checks, on which he is said to have realized $6500.

DUCK SLAUGHTER CHARGED

Hunters Say Airplane Nets Used in Unsportsmanlike Slaying of Wild Game Near Sacramento

[BY A. P. NIGHT WIRE]

SACRAMENTO, Oct. 19.—Commercial airplanes operating in Sutter county and elsewhere, for transportation of passengers and pleasure trips, are reported to be responsible for the wholesale killing of ducks. This was brought to light for the first time today when several protests were received by George Neale, executive secretary of th State Fish and Game Commission.

Huge nets are spread beneath the wings of a plane, it is asserted, and with a driving force, the flyer pierces the midst of a flock of ducks, capturing in the net as many as two dozen at one time. The excessive speed prevents the birds from escaping, and as the plane lowers, the net closes in.

Not less than a dozen lovers of clean game hunting made personal protests, the most unusual on record, to Neale this morning.

During the past week-end hunters in the rice fields of Sutter county, reported a number of such occurrences, according to Neale.

Such methods are an infraction of Federal regulations and State game laws, Neale said, in addition to being the most unsportsmanlike tactics in the killing of ducks.

"It is unfair to the birds and it's unfair to legitimate hunters," Neale asserted.

Steps will be taken at once to curb the activities of flyers, who, it is estimated, have brought down hundreds of ducks by their unfair methods.

The matter will be taken up tomorrow morning with the Federal authorities, Neale declared.

ACTION ON MITCHELL DUE

Secretary of War Davis Probably Will Order Colonel Court-Martialed After Report Today

[EXCLUSIVE DISPATCH]

WASHINGTON, Oct. 19.—Official announcement that Secretary of War Davis has decided to order Col. William Mitchell tried by court-martial for insubordination as the result of his charges of incompetency against the War Department, probably will be made tomorrow.

At the War Department it was stated today that the investigation of Mitchell's conduct has been completed and will be placed in the hands of Secretary Davis within the next twenty-four hours. Although the Secretary has made no announcement, it was intimated he will not be long in coming to a decision.

Secretary Davis has been fully informed of the progress of the investigation from the beginning and it is said he has already made up his mind that Col. Mitchell must be disciplined. All that remains now is for him to act on the recommendations of the Chief of Staff.

Every effort to give Col. Mitchell a fair trial will be made by the War Department, it was stated. Should a court be ordered, all officers whose opinions might in any way have been prejudiced by the flying officer's attacks on the general staff and other high officials will be eliminated as members of the court.

No members of the Army General Staff will be allowed to sit.

Friends of Secretary Davis say he looks upon the disciplining of Mitchell as a purely business proposition.

It is his opinion that if an executive made charges against his employer, similar to those made by Col. Mitchell against the War Department, he would be discharged immediately.

BRITON PRAISES LIQUOR LAW

Former English Premier Declares Prohibition Act in America an Experiment Worth Investigating

[BY CABLE AND ASSOCIATED PRESS]

LONDON, Oct. 19.—David Lloyd George, former Prime Minister, had some favorable words to say tonight of the prohibition law in the United States. He spoke at the City Temple on "The responsibilities of free churchmen." Alluding to the church's responsibilities on the drink question, he said:

"Do not let us try to cure eternal problems with an external plaster of words. Prohibition is an experiment we ought to investigate."

Despite unemployment and adverse trade balance, he asserted that England last year spent £316,000,000 on alcoholic liquors. Then referring to the United States, he continued:

UPHOLDS PROPOSITION

"It is no use indulging in slapdash condemnation of America Not only have Americans carried prohibition, but no political party in America now dare propose abolition of prohibition. As politicians the Americans beat us at every turn."

It has been suggested that prohibition in America is the craze of cranks, but when he went to America, he found this entirely untrue; he never met a man who will vote for the re-establishment of the saloon. So far as public opinion in America is concerned, the beer house is a thing of the past, Lloyd George declared during his address.

Detailing various advantages which he attributed to America's becoming dry, Mr. Lloyd George repeated:

"It is an experiment we ought to investigate. Do not condemn haphazardly. One hundred and ten million of people do not continue to make fools of themselves for long. They are the most prosperous people under the sun, not because they have the gold, but because they have not the drink.'

POINTS TO CANADA

The former Premier pointed to Canada, where, he remarked, it was suggested, prohibition has been less successful and concluded by recalling Lincoln's looking forward to the time when there would be no slavery and no drink.

"He got rid of slavery," exclaimed Mr. Lloyd George, "and sixty years later the people are on the high road to accomplish the second of his ideals."

MEXICO HAS AFTER FIFTY GOLF DEATH

Wealthy American Victim of Heart Failure While on Links

[BY CABLE—EXCLUSIVE DISPATCH]

MEXICO CITY, Oct. 19.—Mexico has experienced its first "after fifty" golf death. Henry Putnam, wealthy American, 63 years of age, who has been playing the game for the past twelve years fell dead on the links of the Chapultepec Heights Country Club just after he had completed a drive. Doctors pronounced the cause of death as heart failure.

If the question of whether a man over 50 should engage in violent exercise—even golf—is engaging the attention of the American public, it is of more interest to the Mexico City baseball, tennis and golf players, for here the altitude is near the 8000 foot mark. Mr. Putnam's death has resulted in much argument in foreign golfing circles, where adherents in behalf of the over fifty theory are inclined to make much of the altitude argument, while those who see no reason why any man whether 20 years of age or 90 should not play golf merely contend that Mr. Putman may have died sitting in his chair reading a book and that the fact that he was playing golf had nothing at all to do with it.

The fact that Mr. Putman's death is the first of its sort to take place at this altitude has caused much comment and general interest is being displayed by all of Mexico City's 1500 golfers.

TEXAS OFFICER GETS LIST OF CLAIMANTS

[EXCLUSIVE DISPATCH]

AUSTIN (Tex.) Oct. 19.—Atty. Gen. Dan Moody has received from the agency of the General and Special Claims Commission of the United States and Mexico, Washington, D. C., a list of additional Texas claimants, in whose favor, or in the favor of whose estates, or their next of kin, memoranda of claims have been filed by the agency in respect of depredations committed upon their persons or property during raids in Texas. The list contains 125 names.

DECREE FOR INA CLAIRE INDICATED

Chicago Judge Intimates Comedienne to Get Divorce on Cruelty Charges

[EXCLUSIVE DISPATCH]

CHICAGO, Oct. 19.—Ina Claire, comedienne, now living at the Virginia Hotel here, will receive a divorce from James Whittaker, music critic and former Chicago newspaper man. Judge John R. Caverly indicated today after hearing Miss Claire's story of cruelty and desertion, which was corroborated by Ashton Stevens, drama critic. Miss Claire testified that she and Mr. Whittaker were married July 9, 1919, at Wheaton, and lived together until July 14, 1923, when, she said, her husband threw her out of their New York apartment.

She told of three acts of cruelty. One occurred, she said, at their cottage at Tomahawk Lake, Wis.

On that occasion, Miss Claire testified, Whittaker came to the sleeping porch while she was asleep and struck her.

Ashton Stevens told of hearing the blow struck.

The second act of cruelty occurred shortly before the separation. Miss Claire said, when her husband boarded a train on which she was bound for New York and abused her. Upon arriving in New York, she said, they went to their apartment at the Lafayette Hotel and she found that the furniture had been smashed with a stove poker.

"If you had been here you would have got this instead of the furniture," Miss Claire testified her husband said.

She asked no alimony.

AUTO THEFT "QUEEN" IN JAIL AT PHOENIX

[EXCLUSIVE DISPATCH]

PHOENIX, Oct. 19.—Velma Tippet, self-styled "Queen of Auto Thieves," has been fined $1000 in the Federal Court and imprisoned pending payment. She was arrested in Los Angeles, but the scope of her operations was in Denver and eastward. It is told that her husband was at the head of a gang of experts that changed numbers and paint and wheels and thus operated in relative safety.

LIFTING OF IMMIGRANT BAN SOUGHT

El Paso Business Men Ask Government to Admit Some Mexican Laborers

[BY CABLE—EXCLUSIVE DISPATCH]

MEXICO CITY, Oct. 19.—Business men of El Paso, through Charles W. Davis, president of the El Paso American-Mexican Chamber of Commerce, have asked the American government to lift the present bars against Mexican immigration. The Mexican government has been carrying on during the last few months an active and strong campaign against the immigration of Mexican workers north of the Rio Grande.

A petition has also been filed at Washington by the business men of El Paso, asking the United States to abolish in so far as Mexicans are concerned the $10 passport vise fee now charged against Mexicans desiring to enter the United States. The petition further adds, it is reported here, the abolishment of the $8 head tax against Mexicans.

The request is based on the statement that, just at present, there is need in the United States, and especially in Texas, of 5000 Mexican workers and that these men have not been able to go to the United States on account of the immigration restrictions.

The hope is expressed here that the Washington government will grant the requests as it is believed that such action would lead to a rapid increase of further business between the two countries.

VEGEX
The Delicious Yeast Food

VEGEX
RICHEST KNOWN FOOD IN VITAMIN B
Indispensable to Normal Nutrition at all Ages

Physical well being is in a large measure dependent upon normal nutrition. Science proves that Vitamin B is indispensable to normal nutrition at all ages.

Dietitians and food experts show us that altogether too many modern foods have been robbed of Vitamin B and valuable food salts in the milling, processing and refining of raw foods.

VEGEX supplies Vitamin B, iron, iodine and other food salts in rich measure. Thinking people everywhere are adding VEGEX to the daily diet, realizing that what benefits normal nutrition, benefits the system as a whole.

Serve VEGEX to your family in the form of bouillon, with hot milk, in salads, stews, vegetable soups or mixed with butter or cheese as a sandwich filler.

A most economical food, as a little goes a long way. Buy it at leading stores, or write us.

HEAD POUNDING!

A LUNATIC who made a daily practice of pounding his head with a rock was asked by his guards the reason therefore. "Oh," said he, "you don't know the kick I get out of it when I stop the pounding." Some philosophy in his madness!

Well, although not LUNATICS that's about our case! The sacrificing of our profits during this big sale of ours is a head-pounding to us now. But oh, the kick we'll get out of it when we are known as the largest Quality Two-Trousers Suit house on the coast.

HERE'S ONE HEAD POUNDING!

All of our one-trousers suits must go at sacrifice prices to make room for immense shipments of two-trousers suits now en route. You have thousands to select from. They are mostly this Fall's brand-new styles and fabrics. Your average saving on every suit is over ten dollars. Can you afford to pass up this sale?

$35 Suits	$40 Suits	$45, $50 Suits	$55, $60, $65 Suits
$24.75	$28.75	$36.65	$48.50

HERE'S ANOTHER HEAD POUNDING!

Every Overcoat and Raincoat in the house at the same price reductions as our Suits. This is a head-pounding because we don't have to sacrifice on Overcoats. For, with the early wet season Overcoats are going to be at a premium. But this stroke is a trade-winner. That's the kick we get out of it.

$35 Overcoats $24.75
$40 Overcoats $28.75
$45 and $50 Overcoats $36.65
$55, $60, $65 Overcoats $48.50

STAGE CRUSHES WOMAN DRIVER

Santa Barbaran Killed in Head-on Collision

Arm and Leg Reported Severed in Crash

Passengers Detained as Inquest Witnesses

[EXCLUSIVE DISPATCH]

OXNARD, Oct. 19.—In one of the most spectacular automobile accidents seen on the State highway in this county, Mrs. G. G. Holland, prominent Carpinteria woman, was almost instantly killed when her machine collided headon with a Pickwick Stage Company parlor car about three miles west of Ventura this morning.

The woman overtook a truck and trailer, but when opposite the truck found she could not get by in time to avoid crashing into the approaching stage. The stage driver turned out to allow the woman to squeeze between the stage and the truck, but apparently she lost her head and drove into the stage.

The heavy car crashed over the coach Mrs. Holland was driving, demolishing the auto. Mrs. Holland, alone in the front seat, was crushed beneat the wreckage. As the front wheel of the stage ran over her, one hand and a leg were rported to have been severed. When picked up there was hardly a bone in her body that had not been broken, it was reported here.

The body of the woman was taken to Ventura, where Coroner Reardon took charge of it. The stage was towed to Ventura, where all the passengers were detained. It was expected they would be asked to testify at an inquest as will the driver of the truck.

Mrs. Holland was the wife of G. G. Holland, an employee of the J. T. Parker Construction Company of Santa Barbara.

THREE ANGELENOS HURT AT ONTARIO

[LOCAL CORRESPONDENCE]

ONTARIO, Oct. 19.—Three persons were injured, two seriously, when a touring car in which they were driving early today on East A street turned turtle after getting into some sand at the side the pavement.

Ben Smith, 23 years of age, of College street, Los Angeles, received a fractured skull and body abrasions; Frederick Corrizosa, 20, of 2116 West Thirtieth street, Los Angeles, suffered a broken right arm and lacerations, and Mac Torres, 24, of 822 North Broadway, Los Angeles, who was driving, escaped with shock and bruises.

The injured men were taken by ambulance to the San Antonio Community Hospital, where they were attended by Dr. John B. Craig. Corrizosa's parents, Mr. and Mrs. Thomas Corrizosa, arrived at the hospital shortly before noon and took their son home. Smith was removed by ambulance to the French Hospital, Los Angeles.

Plan to Widen Three Streets at Lankershim

[LOCAL CORRESPONDENCE]

LANKERSHIM, Oct. 19.—Following the report that the Planning Commission intends to zone Vineland avenue south from the railway tracks to Magnolia avenue as business property, property owners on Weddington avenue are busy circulating petitions for the widening of Weddington avenue to eighty feet from Lankershim Boulevard to Vineland.

The street at present is only fifty feet in width. Property owners on Third street, also are preparing petitions for the widening of that street to eighty feet, between Tujunga avenue and Lankershim Boulevard. It is reported that deeds are being obtained for the widening of Magnolia Boulevard to eighty feet

All these steps are preliminary to the proposed paving of these thoroughfares. All improvements are to include curbing, sidewalks, etc., in order to obtain the free city mail delivery system that has been proposed for the townsite, but which is hanging fire because of the lack of sidewalks, which are required under a national postoffice ruling.

THIRTY ABANDONED BICYCLES AT BEACH

By a "Times" Staff Correspondent

VENICE, Oct. 19.—Although it is a day and age of the automobile, there are still some who get a kick out of a bicycle. Such is evidenced by a report of local police this afternoon, who state that during the past month more than thirty abandoned bicycles have been brought to police headquarters. The bicycles have been found in every corner of Venice. Police believe that in most instances the wheels were taken by youths who wished a ride, rather than for the purpose of claiming them as their own. Police are urging that all youngsters who have reported stolen bicycles report at headquarters and identify the property.

CHICKEN DINNER FOR PLACENTIA BOOSTERS

[EXCLUSIVE DISPATCH]

PLACENTIA, Oct. 19.—The first general membership meeting of the fall season will be held by the Placentia Chamber of Commerce here at the round table clubhouse Tuesday evening, the 27th inst., it was announced today by Thomas E. Pickerill, secretary, who has extended an invitation to representatives of other chambers of commerce in Orange county. The committee in charge of the first meeting, headed by George W. Cowan, has made arrangements to accommodate more than 100 guests. The Placentia citizens will donate the fowls for a chicken dinner.

YEGGMEN'S LABOR WASTED

Oxnard Burglars Smash Three Safe Locks, Enter One; Small Sum Rewards Night's Work

[EXCLUSIVE DISPATCH]

OXNARD, Oct. 19.—Yeggmen entered three local establishments early this morning, smashed the combinations off three safes, entered one, but got no loot from any, it was reported to local police today.

At the office of the W. H. Lathrop Company the bandits used a sledge hammer to smash off the combination on the outer and inner doors. After opening the outer door of the heavy safe they were confronted by a spring steel strong box within. After smashing the combination and mutilating the door the yeggs gave up the task, failing to get any cash or checks in the inner compartment.

Matches and lighted papers used to see what they were doing, were left burning on the floor, nearly setting the warehouse on fire. The front door of the establishment was smashed with the sledge hammer and the men crawled through.

At the office of the Southern Pacific Milling Company warehouse the yeggs worked on a large safe for some time but left after breaking off the combination.

A large sign on the safe said, "This safe is not locked. Turn combination to No. 10 and door will open." It is believed that the men read this after they had smashed the combination, making it impossible to open the door then.

At A. J. Dingeman's garage the same trick was done. But the yeggs failed to open the outer door of the safe. A small amount of money in a cash register in the stock room was taken.

ANNEXATION FIGHT BASED ON ROAD JOB

Fear Adding Strip to Huntington Park Will Kill Widening Project

[LOCAL CORRESPONDENCE]

WALNUT PARK, Oct. 19.—Great interest is being centered around a special election for annexation, which will be held in a small strip of territory here tomorrow to decide whether this strip will annex to Huntington Park. The strip in question is along Florence avenue, between Mountainview avenue and Seville street. Some time ago the county took up the widening proceedings for Florence avenue and in this election this question becomes involved as to whether annexation to Huntington Park would break down these proceedings.

Attorney DeCoster, representing the County Council's office, is of the opinion that annexation would immediately cause the condemnation proceedings along Florence avenue for widening to be done away with, thus interfering with the widening, as far as the county is concerned.

City Attorney Trippel of Huntington Park is of an opposite opinion—that the proceedings will not be broken down. He bases his argument on the statute which states that an action in court does not abate just on account of a change of interest. It is his belief that the court has now obtained jurisdiction in the matter and that, should the county move to drop the suit, one or more of the defendants in the case could force it to be carried through.

There are a dozen voters in the territory who will decide the annexation.

SICK MAN COMMITS SUICIDE WITH RAZOR

[EXCLUSIVE DISPATCH]

BAKERSFIELD, Oct. 19.—William B. Stone, 46 years of age, an employee of the Associated Oil Company near Fellows, was found dead at his home today. He had committed suicide by cutting his throat with a razor, according to reports from West Side. His body, discovered by his wife, was lying stretched across a bed in his room where he had fallen after slashing his throat. Mrs. Stone said her husband had been ill for some time, but was feeling as well as usual and was preparing to shave. A few minutes later she went into his room and found his lifeless body. A physician was called immediately but called the man dead. Stone leaves his widow, four small children and three brothers, Fred, Oscar and Curt Stone, all of Fellows.

OPTIMISTS TO HEAR SPEECH ON FLORIDA

By a "Times" Staff Correspondent

SANTA MONICA, Oct. 19.—Members of the Santa Monica Optimists' Club will hear Motley Flint, vice-president of the Pacific Southwest Trust and Securities Company, at a noonday luncheon next Wednesday in the Miramar Hotel. Flint will speak on "Florida." The speaker recently returned from the Southern State after making a survey of conditions there. His talk will be the first since his return to the city. Dr. Byron Palmer, president of the organization, has asked civic officials and members of service clubs to be present. The meeting will be in charge of Harry Middleton.

SUES FOR DAMAGES IN AUTO COLLISION

[EXCLUSIVE DISPATCH]

SANTA ANA, Oct. 19.—John H. Evans was plaintiff today in a damage suit filed in Superior Court against the firm of J. L. Updike & Sons, in which he seeks judgment for $5996.43. The suit is based on an automobile collision on Chapman avenue, between Fullerton and Placentia, on November 6, 1924. Attorney Fausett of Los Angeles represents Evans.

SHERIFF HALTED BY SPEED COP

Official Chased in Anaheim by New Man on Force for Speeding

[EXCLUSIVE DISPATCH]

ANAHEIM, Oct. 19. — A siren shrieked its tale of woe, a big car drew up to the side of the street in Anaheim and waited for the motor "cop," who lost no time in pouncing on his prey.

"Well, what's the matter?" the driver asked.

"You were going thirty-two miles an hour in a twenty-mile zone. What's your name?" the motor "cop" asked.

"Sam Jernigan. Sheriff," came from the driver.

"Sheriff?" the "cop" asked, as he looked up dubiously. "Sheriff of what county?".

Then the "cop" admitted that he hadn't been on the force long, at least not long enough to know the Sheriff of his own county.

Car Shortage Threatens Loss of Grape Crop

[EXCLUSIVE DISPATCH]

HANFORD, Oct. 19.—A continued and damaging shortage of cars for shipping the remainder of the Muscat raisin crop of this county caused the Kings County Chamber of Commerce and the farm bureau to enter a vigorous protest with the Pacific Fruit Express, which makes the car allotments for the Southern Pacific Company in this district. The exchange promised to make a quick investigation. J. B. Thatcher, assistant superintendent, was here Saturday and again today. He said today that the shortage would be less tomorrow and materially less by the end of the week. There are still 1100 cars needed to ship the Kings country grape crop and there must be good weather and that number of cars available in the next two weeks if the grapes are to be saved. Over 2000 cars already have been shipped. The Santa Fe system also is short on cars, but not so short as the Southern Pacific.

VALLEY-TO-SEA ROAD IS TOPIC AT MEETING

[LOCAL CORRESPONDENCE]

MISSION ACRES, Oct. 19.—Sepulveda Boulevard, to connect San Fernando with the beach through a tunnel in the Santa Monica Hills, was discussed tonight at the Community House by J. T. Smith, secretary of the Sawtelle Chamber of Commerce. The proposed Sepulveda Boulevard now known as Saugus avenue in San Fernando Valley, is planned to run under Mulholland Drive and thence to Fawtelle. The highway is planned to be 100 feet wide and will run through Mission Acres on its way to San Fernando. The project when completed will give this valley a direct access to Los Angeles Harbor, without having to go via Hollywood or Los Angeles. All chambers of commerce in this section are behind the present plans.

COMMERCE CHAMBER FORMED AT RESEDA

[LOCAL CORRESPONDENCE]

RESEDA, Oct. 19. — Another chamber of commerce has been added to San Fernando Valley in the formation of the Reseda-Runnymede Chamber of Commerce. A drive for a large membership is to begin at once. For the time being, officers will not be elected, the affairs of the organization for the present being in the hands of a committee composed of D. E. Jeffrey, Dr. Claude Damon, E. W. Few, A. B. Prior, E. S. Engeset and W. J. Sandlin. The new chamber will be host to the Associated Chambers of Commerce of the valley some time in December.

FIELD GLASSES TORN FROM PIER BY YOUTH

By a "Times" Staff Correspondent

OCEAN PARK, Oct. 19.—R. E. Bors, Los Angeles visitor to the beach, did not obtain a clear view through field glasses attached to the Lick pier, so he became peeved, broke the glasses from their stand and threw them into the sand below the pier. The youth was arrested by Special Officer Wood, made to place the glasses back upon their resting place and compelled to pay $50 to assure his appearance in Police Court before Judge Walter Rennie.

NEW JOB FOR BOY SCOUTS

[LOCAL CORRESPONDENCE]

SAN FERNANDO, Oct. 19.—Along with all their other services and activities, a new job has been picked out for local Boy Scouts here and those of the San Fernando Valley council, numbering several hundred. During November, the boys are to turn themselves into "home missionaries," with instructions to make mother and father go to church every Sunday during the month. The boys already have started on the preliminaries of the campaign, and many have "signed up" their parents for the entire churchgoing period. S. G. Chamberlin, president of the valley council of the Scouts, is behind the drive.

PLANNING FIGHT ON JACK FROST

Riverside Orange Growers Prepare for Winter

Oil Circulation System in Early Readiness

More Than 200,000 Heaters Have Been Bought

[EXCLUSIVE DISPATCH]

RIVERSIDE, Oct. 19. — With the advent of crisp evenings giving indications of a cold winter, orange growers in the vicinity of Riverside are making preparations to repel the onslaughts of Jack Frost, whose visits are expected to start within the next month or two.

The Arlington Heights' Protective Association, an organization composed of about fifty-five growers, owning between 700 and 800 acres or oranges has acquired the oil circulation system of the defunct Riverside Orange Company and has made improvements which will make it possible to give each grove owner in the district protection. Included in the system is a huge storage tank, capable of holding 500,000 gallons of oil. Eight miles of pipe lines and twenty distributing centers will make the maximum distance necessary for obtaining il by any grower less than one mile.

Demand for orchard heaters is reported by W. Stewart Button, superintendent of the Riverside Sheet Metal Works, who said this morning that his shop had been working day and night during the summer and had not been able to keep up with the demand.

Mr. Button indicated that orders for more than 200,000 heaters had already been filled, shipments having been made to all parts of the State and that before the close of the season he expects to have manufactured and sold more than 300,000. More than 40,000 of these have been bought by Riverside growers to date, he said.

LANKERSHIM MAN TO JUDGE AT DOG SHOW

[LOCAL CORRESPONDENCE]

LANKERSHIM, Oct. 19.—Much interest is being manifested here in the fourth annual dog show that is to be conducted at Hollywood on Friday and Saturday, under the auspices of the Hollywood Kennel Club, of which G. G. Greenwood is president. Joseph L. Frothingham of Lankershim will be one of the judges, with virtually every dog fancier here having from one to six entries. More than 950 dogs will be in the show, to compete for 460 prizes. Almost every breed of dog, from the toy pet canine to great Danes will be in the exhibit. Fred Cyriack's champion police dog, which recently won international honors, will be among the entries.

VOTE EXPECTED TO ENLARGE GLENDALE

[LOCAL CORRESPONDENCE]

GLENDALE, Oct. 19.—Residents of the Sycamore Canyon district tomorrow will vote on the annexation of their territory to the city of Glendale. This is the second election that will have been held to decide this issue. The first time, about two months ago, the majority voted against annexation, but a careful study of the various issues involved has shown them, it is claimed, that it will be to their advantage to join with Glendale, and the vote tomorrow is expected to show a large majority favoring annexation.

ASCOT PARK RODEO PASSED AS HUMANE

Commenting on the Mexican rodeo at Ascot Park last Sunday, Hugh J. Baldwin, chief field inspector of the State Humane Association, yesterday stated that the performance was in distinct accord with the edicts prescribed by the State association as well as the local humane organizations. Elimination of the bull-dogging contest and the flank-girthing strap to make horses buck was lauded by him.

LEGAL FIGHT ON IN ESTATE

Right to Safety Deposit Box, Rented Jointly With Dead Man, Basis for Suit

[EXCLUSIVE DISPATCH]

SANTA ANA, Oct. 19.—What are the contents of a safety deposit box, locked away in the vaults of a Garden Grove bank, over which a court struggle now impends?

A woman is about to wage a legal warfare with the heirs of a dead man to gain control of the box and its possessions. What these are is not known. An intriguing bit of mystery today hung about the safety box as its claimants prepared for the battle in court. Its contents are the basis of a contest in Superior Court between Susie Marshall and the heirs of the late J. L. Dietrich.

According to a complaint filed by the former against the First National Bank of Garden Grove, and Leota Taylor, executrix of the Dietrich estate, the safety deposit box was rented jointly by Susie Marshall and Dietrich last April, with an agreement for right of supervisorship to the box and its contents. As the survivor, Susie Marshall attempted, after the death of Dietrich, to assert her right to the box, but its possession was refused by the bank and the executrix, who claims the contents of the box on behalf of the estate.

Susie Marshall then went to the courts, her complaint being filed through Attorney P. C. Renfro of Los Angeles. Papers in the case throw no light on what the contents of the box may be.

Railroad Plan to Fence Land Will be Fought

[EXCLUSIVE DISPATCH]

HUNTINGTON BEACH, Oct. 19. An injunction to prevent the Pacific Electric Railroad from erecting a fence about the company right of way through this city will be sought by the city of Huntington Beach. City Attorney L. W. Blodgett has been instructed to obtain the injunction.

The railroad company has threatened to fence off a portion of land adjoining the electric tracks, which is now in use as parking space by the public. The city contends that the land in question has been in use for a number of years by the public and that the public has gathered certain rights to the property through its use.

The railroad company on the other hand, contends that the land is a part of its original grant from the Huntington Beach company, and that it does not belong to the public. The railroad company has asked the city to lease the property.

CALEXICO AREA SHIPS COTTON

Gins in Imperial Valley Now Busy With Harvest

Early Season Figures Show Crop Heavy One

Railroad Officials Declare Peak Not Reached

[EXCLUSIVE DISPATCH]

CALEXICO, Oct. 19.—With the season not yet at its peak the Calexico district of the Imperial Valley has produced 16,580 bales of cotton to date for the season. Gins in the north end of the Imperial Valley have turned out more than 2500 bales during the season.

The past week's record in the Calexico district was 4177 bales. That the season has not yet reached its peak was indicated by E. G. Burdick of the Inter-California Railroad who said that up to Friday night his road had hauled 717 carloads of raw cotton from the fields in the Mexican Imperial Valley into the Mexicali gins. His road, Burdick said is preparing to handle increasing freight from the cotton belt during the next few weeks.

In the north end of the valley the Holtville gin of the Goree-Hartman Company has ginned 1002 bales to date. The W. B. Coberly gins at Calipatria is next with 692 bales. The Goree-Hartman gins at Calipatria have turned out 466 biles. The same company's gin at Imperial has baled 130 bales, at Brawley 184 bales and at Munyon Siding, 71.

According to reports from the Yuma district the baling record for the season stands at 10,019 with the weekly record of 1676 bales.

Ginning reports for the Calexico district for the week ending last night are:

Gin.	Week.	Season.

Council of City Clubs Planned by Santa Anan

[EXCLUSIVE DISPATCH]

SANTA ANA, Oct. 19.—For the purpose of organizing an Inter-Club Council, composed of heads of civic organizations in Santa Ana, Stanley Clem, president of the Santa Ana Junior Chamber, of Commerce, has called a meeting for the evening of the 27th inst., at which time the initial steps will be taken.

Presidents of the following organizations have been asked to attend or send representatives: Lions, Knights of the Round Table, Ministerial Association, City P.-T. A., Auto Trades Association, Ebell Club, Business and Professional Women's Club, Santa Ana Chamber of Commerce, Santa Ana Advertising Club, Santa Ana Board of Realtors, Santa Ana Junior Chamber of Commerce, Women's Relief Corps, Santa Ana Post No. 131, American Legion; Daughters of the American Revolution, Santa Ana Bar Association, Santa Ana Board of Education.

A program for the civic development of Santa Ana, especially as regards parks and playgrounds, will be undertaken by the new organization, according to Clem.

DEAF LACK TEACHER

San Diego School Without Instructor and Unable to Obtain One

[EXCLUSIVE DISPATCH]

SAN DIEGO, Oct. 19.—San Diego's school for the deaf is without the services of an instructor and unable to obtain one, according to Supt. H. C. Johnson. The State requirement that all instructors have a certificate testifying to a knowledge of California history is the chief stumbling block. No school for deaf teachers is maintained in the State and outsiders have but little opportunity to conform with the provisions on short notice. The former instructor resigned at the start of the current term.

TWO HELD IN ROAD CRASH

Pasadena Youths Accused of Running Away After Accident on Valley Boulevard

By a "Times" Staff Correspondent

PASADENA, Oct. 19.—Two of a trio of motorists who fled late last night after smashing into an automobile, overturning it and seriously injuring occupants, were arrested this afternoon by Detective Sergeant William Beal of the Pasadena vice squad, after an all-day seach. The men gave their names as A. Finke and C. Morris, both 22 years of age.

The accident occurred last night on Valley Boulevard, Alhambra, when three men, driving a coupe rented from J. P. Lynch of Pasadena, attempted to pass a truck, and in so doing crashed into the machine driven by Peter Bimona, 1415 North Columbus street, Glendale. The machine turned over three times and the unhurt drivers of the rented car vanished in the darkness on foot. Bimona was taken to the Alhambra Hospital.

According to the Alhambra police, to whom the captured men were turned over following their arrest by Beal, assert that the coupe was traveling at a high rate of speed when it struck Bimona's car.

Both Finke and Morris are said to have prison records. Because of the fact that Morris has a five-year probation record over him, Finke has expressed the desire to plead guilty to the charge of failing to stop after an accident, thus saving his companion. Finke rented the car, but Morris was driving at the time of the crash, police say. Both men are employed as roofers in Pasadena.

IDENTITY OF RAIL VICTIM IS LEARNED

Youth Killed in Fall from Train in Glendale Found Anaheim Resident

[LOCAL CORRESPONDENCE]

GLENDALE, Oct. 19.—Identification of the young man who was killed beneath the wheels of a Southern Pacific freight train at the Glendale station last Saturday was made today when the Anaheim police notified the Glendale police department that the deceased was Roy Holmes, 1118 Center street, Anaheim.

The identification was confirmed today when the parents of the young man, Mr. and Mrs. George E. Holmes, appeared at the Glendale mortuary and viewed the body. The Chief of Police at Anaheim learned of the identity of the dead man when the two companions of Holmes, who fled from the scene of the accident when he fell to his death under the wheels of the train, appeared at the police station there and notified him of Holmes's death.

The Glendale police have not learned the names of the two young men but the Anaheim police have assured Lieut. W. J. Royle that they will be on hand for the inquest Tuesday morning. Holmes is believed by his parents to have been on his way to San Francisco when he was killed.

Berne Savant Seeks Mexican Radium Mines

[EXCLUSIVE DISPATCH]

SAN DIEGO, Oct. 19.—On his way to the interior of Mexico on a scientific quest for radium, Dr. H. Hirschi, professor at the University of Berne, Switzerland, is in San Diego.

Mexico is rich in granites and pegmatites which indicate the presence of radium, Dr. Hirschi declares. Every section of the republic will be visited in the quest for the rare metal by Dr. Hirschi and his assistant, F. H. Klopton of the Colorado School of Mines.

Radium ore is found in large quantities in Utah and Colorado, Dr. Hirschi declares, but the uranium content, from which radium is derived, is only about 5 per cent, while ores in the Belgian Congo run as high as 70 per cent.

The Swiss chemist intends to return to San Diego in several months and then leave for a similar trek through Canada.

Visalia People Are Overcoming Habit of Dying

[EXCLUSIVE DISPATCH]

VISALIA, Oct. 19. — Visalia's healthy climate is causing something of a problem to the two local undertaking parlors. Neither a funeral nor a death has been recorded here for almost two weeks, except for an accidental death outside the city limits September 28. Of the two funerals held since the last of September both were over remains shipped from other points for interment. R. R. Sparks, cemetery superintendent, declares that the larger Visalia grows the greater the health standards increase. Records show more funerals thirty years ago, when Visalia was hardly one-half its present population.

RICHES KICKED ABOUT

Paper Box Left on Counter Contains $4400 in Gems and Notes

[LOCAL CORRESPONDENCE]

MONROVIA, Oct. 19.—It was just a little box wrapped in ordinary store paper. It looked as if it might contain a hair curler. It was left on a counter at the Emporium, a woman's ready-to-wear store here, this afternoon. Customers moved it around and several times knocked it off onto the floor for two or three hours before George Swift, the proprietor, took it in charge, expecting some one to to call for it before closing time. She did. A much-excited woman rushed through the front door late this afternoon and frantically scanned the counter as she headed toward the manager's office. Her sigh of relief was heard throughout the store. The box was opened and revealed $2000 worth of diamonds and $2400 in negotiable securities.

ZELZAH HAS BUMPER BANANA SQUASH CROP

[LOCAL CORRESPONDENCE]

ZELZAH, Oct. 19.—Zelzah is bidding for a new place in the limelight from a standpoint of crop diversification, watermelons and cantaloupes not being the only products from which this section is gradually gaining fame. The yield of banana squash in the Zelzah zone this season has been about ten tons to the acre, netting the growers between $40 and $80 a ton. Many of these squashes, which are used largely in local markets, and shipped to the Middle West and East in carlots, weigh from fifteen to twenty-five pounds apiece.

Pasadenans Call Police to Quell Noisy Worship

By a "Times" Staff Correspondent

PASADENA, Oct. 19.—Prolonged and vociferous worship at the Nazarene Church, which lasted until after midnight this morning, so disturbed residents of the neighborhood that they appealed for police aid to quell the noisy congregation. Officers Rartnung and Graham went to the church but found everything quiet by the time they arrived, and made no arrests.

It was the fourth time in recent months that the police have been called to preserve order at the church meetings. During a recent Nazarene convention held in a tent on Washington street police officers made three trips to the convention to arrest leaders for disturbing the peace. Each time the meeting dispersed and the officers were unable to catch the fleeing worshipers.

PHYSICIAN SUCCUMBS

Dr. W. W. Crane, Brother of Noted Writer, Expires at Alhambra

[LOCAL CORRESPONDENCE]

ALHAMBRA, Oct. 19.—William Walter Crane, 74 years of age, a retired physician and brother of Dr. Frank Crane, noted writer, died this afternoon at a sanatorium on Las Tunas Drive, San Gabriel, where he had been staying since Saturday. He had been in failing health for some time. He was a widower.

Mr. Crane had resided at 206 South Third street Alhambra for the past year and a half He was born in Ohio and practiced medicine for many years at St. Clair, Ill., and Springfield, Ill. Besides his brother, Dr. Frank Crane of New York, he leaves three daughters, Mrs. William Troxell, Miss Mary Crane and Miss Catherine Crane, all of Chicago, and three sons, William W., Jr., of Alhambra and Charles W. and Richard C., both of San Francisco. Funeral arrangements have not yet been made.

SECRETARY RESIGNS POST AT EL MONTE

[LOCAL CORRESPONDENCE]

EL MONTE, Oct. 19.—Officials of the El Monte Chamber of Commerce are today discussing the resignation of Frank M. Colville, secretary of the chamber since December, 1923, which was tendered that body at its meeting late last week. Mr. Colville explained that this action was due to business affairs which would require his attention. Mr. Colville came to El Monte as successor to Earl W. Porter, who resigned to become secretary of the chamber at Inglewood. "I feel that two years is long enough to serve in my capacity and that a new secretary may bring new impetus and ideas to the chamber," said Mr. Colville. "I have enjoyed my work here and hate to leave, but feel it is for my own as well as the chamber's best interests."

LEADERLESS TROOPS GET SCOUTMASTERS

[EXCLUSIVE DISPATCH]

HUNTINGTON BEACH, Oct. 19. Three scoutmasters have been appointed to direct the destinies of three Scout troops here which have been leaderless for the past year. The scoutmasters are Emmitt Robinson, R. C. Reynolds and Dr. L. A. Olmstead. The three men are members of the local American Legion post. The scoutmasters were appointed at a meeting between Boy Scouts and Legionnaires at the Boy Scout cabin recently. Dana Lamb, Orange county Scout executive member, was present and assisted the Legion members to select the scoutmasters. The local Scout troops are fostered by the Lions' Club. The Scouts have had no leader since the resignation of C. E. Morris, who is now superintendent of boys' work in a large San Francisco boys' school.

SAVES NEIGHBOR'S HOME

[EXCLUSIVE DISPATCH]

HANFORD, Oct. 19.—A neighbor risked her life to save the home of Frank Arata and his family in this city. The occupants of the house were away. The neighbor saw flames in the house and sent in an alarm, but before the firemen arrived a woman residing next door had run into the house, picked up an oil stove which had caused the conflagration and threw it into the yard.

RACE AT SALEM HALTED BY RAIN

[EXCLUSIVE DISPATCH]

SALEM (N. H.) Oct. 20.—New England auto race fans were disappointed again today when the great auto race classic scheduled for the openin gof the gigantic new Salem bowl was called off on account of wet track. The race was originally set for last Saturday, but was called off on account of rain. The 31st inst. has been set as the day for the New England sweepstakes to be run off. Rames will be held at Laurel, Md., next Saturday.

KAER LEADS CONFERENCE IN SCORING

Trojan Quarterback is First With 54 Points; Elliott Second

[BY A. P. NIGHT WIRE]

SAN FRANCISCO, Oct. 19.—Morton Kaer, backfield man of the University of Southern California, stands first among the point scorers of Pacific Coast Conference football teams this season with nine touchdowns for 54 points, to his credit.

The high scores run up by U.S.C. against smaller opponents in its early season games let Howard Elliott of the same team claim second place with 49 points, eight touchdowns and a single point by conversion by kicking goal.

George Wilson, University of Washington, halfback, in three college games which Washington has played, has rolled up seven touchdowns for the same total as credited to Igrain of Gonzaga.

Fifth on the list is Earl Jabs of California, with five touchdowns against Nevada. Schulmerich of Oregon Agricultural College has scored 27 points for his team, with three touchdowns and nine points by conversion kicks. Shidler of the University of Washington is credited with 26 points, with four touchdowns and two points by conversion.

Four touchdowns each have been scored by Nevers of Stanford and Edwards of O.A.C., while three touchdowns each are credited to Denman of O.A.C., Morris Badgro of U.S.C. and Beckett of the University of Washington.

LONDOS VICTOR OVER GARDINI

Grecian Mat Wonder Downs Italian Grappler

Renato Wins First Fall But Drops Other Two

Reverse Head-Lock Cops Bout at Olympic Show

After each had secured a fall in their match, Jim Londos threw Renato Gardini for the third fall and the match in the main event of Lou Daro's wrestling show at the Olympic Auditorium last night. Londos secured the third fall by means of another reverse headlock in 41m. 30s.

Renato Gardini

Gardini took the first fall in 13m. 5s., throwing Londos by means of a crotch and half Nelson. Londos threw himself open to the crotch hold when he tried to apply a series of headlocks to Gardini and the Italian was not slow in taking his opportunity to apply the crotch hold with which he flattened Londos.

Londos took the second fall in 16m. He applied a series of six reverse headlocks to Gardini to secure the fall. Gardini opened the siesta with a toehold and Londos reversed it by applying the same to Gardini. Both were clowning. Both of the wrestlers were rough and were booed by the fans for their rough tactics and hippodroming.

In the semi-wind-up Jim Browning thoroughly defeated Fonsa Kozak, substituting for Dan Koloff. Browning applied a series of headlocks and finished Kozak with a body scissors in 11 m. 10 s. He was so thoroughly finished that he had to be carried from the auditorium after the doctors failed to bring him to in the building.

Wladek Zbyszko defeated Milo Steinborn in 13 m. 10 s. after fastening a series of flying headlocks on Steinborn, who was very strong but very inexperienced. The headlocks were followed by a crotch and half-Nelson hold which put him on the mat for the decision. The match was scheduled for a half-hour.

In the opener Reginald Siki had the edge but failed to put Abe Kaplan's shoulders to the mat so the half-hour match went to a draw. Siki, a dusky wrestler in his first Los Angeles appearance, proved to be very fast and too clever for Kaplan. He had Abe looking rather tired after the match and would undoubtedly have won the battle had it gone on for another few minutes.

FIRPO PLANNING TO FIGHT AGAIN—BLUNK

[EXCLUSIVE DISPATCH]

NEW YORK, Oct. 19.—The boxing bee is buzzing around Luis Angel Firpo again, or so it seems from an announcement made today by Frank Blunk, South American newspaper correspondent. The Wild Bull, after his life of ease following the bout in Newark against Charlie Weinert, is yearning again for ring action. Luis has cabled Blunk to start negotiation for a match for the giant South American in Buenos Aires. Blunk today said he was considering engaging Floyd Johnson to battle Firpo in the event the "Iowa Bulldog" survives his bout with Harry Wills in Newark on Monday night. The contest in South America will serve as a test for Firpo, according to present plans, and will determine whether the Wild Bull will make another journey to this country for ring conquests.

JIM MOORE FIGHTS CULLEN AT FRESNO

[BY A. P. NIGHT WIRE]

FRESNO, Oct. 19.—Fred Cullen, Los Angeles middleweight, and Jimmy Moore, negro battler from Cincinnati, completed training today for their ten-round scrap here tomorrow night in the feature of the Sun-Maid Club's offering. Moose Taussig of San Francisco, came here last week to supervise Cullen's work and will be in his corner tomorrow.

PIGS NOT PIGS; PIGS IS COWS

[BY A. P. NIGHT WIRE]

CHICAGO, Oct. 19.—It is all wrong to call a football a "pigskin." Instead, it's a calfskin. The misnomer has stuck since the ancient days when a hog's bladder was kicked around the English village green. Later it was given a coat of pig hide to make it last longer. Footballs now are made from cowhide, the best double-grained quality, and have been for years.

COLUMBUS MISSED HIM

He is Solly Mishkin, one of Coach Sid Nichols's football stars at Occidental College. But just because old Chris didn't discover him doesn't mean that the Tiger coach has not discovered that he is a capable ball carrier. He may become a halfback.

MISHKIN AT HALF FOR OXY

Work Against Redlands Proves Former Quarter to be Great Ball Carrier

The center of the Occidental line proved to be weak against Redlands last Friday. Solly Mishkin proved to be a whale of a halfback. These two facts, uncovered when the Tigers narrowly missed losing to the Bulldogs, may be responsible for important changes in the Tiger line-up for the game with Southern Branch Saturday at Patterson Field.

Put in at halfback last Friday Mishkin proved to be the deciding factor in the winning of the game. His long gains, made in a series of plunges down the field, resulted in the first touchdown. His pass to Teachout late in the game brought the second seven points to the Tigers.

SHIFT BROBST

His performance makes it look quite likely that he may be used at half. That would leave Gregory as the only remaining quarter of those two Nichols has been using. However, Rats Brobst, quarter of the Franklin High team that won the city title four seasons ago, is on the varsity, and fully recovered from his shoulder injury that has kept him out of the line-up for some time. He can be used with Gregory at quarter as he was last week.

To strengthen the center trio Renius will again be in condition to play a full game. Nash, who was a bulwark of the defense in the line last week, will play on one side of the captain, and on the other Harris Hitch seems the likely choice, though he is used at tackle as well. Conde and Stevens, both of whom partook of the epedimic of injured shoulders that prevailed at Oxy for a time, are in great conditiop again. Teachout and Godette need not be mentioned as the ends. They are just as sure to play those positions for Oxy as Grange is to play on the Illinois varsity

Bill Anderson seemed quite cheerful yesterday when he was able to say that all the injured are in shape and that he would be able to give Nichols the en-

World Series Gate is More Than Million

[EXCLUSIVE DISPATCH]

WASHINGTON, Oct. 19.—The government's figures show that $1,182,854 was collected in admissions at the world series games, and of this amount the government received in taxes 10 per cent, $118,285.40.

The tax collections at each game follow:

At Pittsburgh: October 7, $18,077.50; October 8, $18,569.80; October 13, $18,703.60; October 15, $18,417.50.

At Washington: October 10, $14,609.30; October 11, $15,340.20; October 12, $14,567.50.

Additional amounts will be received from the sales of tickets by brokers, returns of which are not due until November 30. The government will receive also an income tax on amounts received by players, managers, owners and all who profited by the series.

BRITISH BANTAM KING RETAINS HIS CROWN

[BY CABLE AND ASSOCIATED PRESS]

LONDON, Oct. 19.—Johnny Brown retained his title of bantamweight champion of Great Britain, when he defeated Mick Hill of Tooting, by a knockout at the National Sporting Club. The knockout came in the twelfth round of what was to have been a twenty-round bout.

PREXY WILLIAMS ON ROAD

Harry Williams, president of the Pacific Coast League, left last night for San Francisco to attend a meeting of American Association officials to lay plans for the little world series. The meeting will be held Thursday morning. T. Hickey, president of the American Association; Bert Ellison and Joe McCaffey, managers of the San Francisco and Louisville clubs, will be present. T. Casey and R. Chill, umpires, will complete the gathering.

The little world series to be held between the triumphant San Francisco club and the Louisville club of the American Association will get under way November 9 at San Francisco.

LEFEBVRE GETS FULLBACK JOB

Stocky Frenchman Replaces Lee in Practice

To Remain at Berth as Long as He Makes Good

Charley Boren Fixture at Right Halfback

BY BRAVEN DYER

Due to the manner in which he punched holes in Stanford's line last Saturday, Henry LeFebvre has been installed in the fullback position of the U.S.C. eleven by Coach Howard Jones. The stocky Frenchman replaces Bob Lee, who seemed to lack the driving ability to penetrate the Cardinal line. The change took place at last night's practice, the first since Saturday's battle.

HENRY LEFEBVRE

How long LeFebvre will remain as the regular fullback depends entirely upon his own actions. If he continues to make good there is no reason why he shouldn't hang on to the job as long as he is able to hobble about. On the other hand, a poor or mediocre showing against Arizona this week will undoubtedly result in his being replaced.

WHERE HE LEFT OFF

LeFebvre now finds himself in a position to begin where he left off last year. If our memory serves us correctly it was Henry who carried the brunt of the Trojan attack in that game with Missouri last season. It was Henry who dashed and smashed his way through the Tiger line. It was Henry who ran the visiting ends goofy with his dynamic bursts of speed inside and outside of the wing positions. It was Henry who dazzled the Bengals with his running back of kickoffs. In short, it was Henry all the way through until he was injured and removed in the second half.

At U.S.C. they say that it takes LeFebvre just a little bit longer than his mates to adjust himself to the task at hand. Elmer Henderson didn't use him much until the end of the season and Henry showed by that time that he knew full well what everything was about. This year he has been held back or held himself back, but with a month of practice gone by, plus spring workouts, Henry is undoubtedly quite familiar with the hang of the new system and may be the man to put the punch in the Trojan backfield—a force totally lacking in Saturday's struggle, except for a few brief minutes in the second half when LeFebvre himself shoved his stocky frame through the Cardinal forwards. However, Henry wasn't in there when needed most—during that first-quarter drive, which fell short of a touchdown by mere inches.

BOREN IS REGULAR

Trojan students may be a bit surprised at the following statement, but it is made in all fairness to the two men concerned. Charley Boren replaced Honey Earle at right half Saturday because Jones felt that Boren was the best man of the two. Reports, originating somewhere other than at U.S.C., that Earle was sick, were unfounded. Boren has been coming along rapidly and during the two weeks of secret practice showed Jones that he was better suited for the position. As is the case with LeFebvre, he'll remain there as long as he continues to make good.

Jones evidently believes that the old maxim about games being won or lost in the line might well apply to Saturday's encounter—although he is making no alibis for the defeat of his eleven. The Trojan mentor had his forward wall working overtime last night and unless they show more charge in the Arizona game there will certainly be some changes before the team meets Idaho the following Saturday. At present the shifting of LeFebvre into Lee's place is the only switch. Elliott remains at quarter.

POOR JUDGMENT

Without attempting to detract from Mike Murphy's wonderful 53-yard run to a touchdown in the second quarter it might be stated that the Trojans used poor judgment when they punted out to Murphy as they did. The ball was kicked to the middle of the field frome close to the side lines, which naturally gave Murphy a splendid start as he dashed back on a straight line while the Trojans were

NEW YORK, Oct. 19.—Hanging on a wall in the Metropolitan Museum of Art today is a picture depicting the episode in Jack Dempsey's pugilistic career of which he probably is least proud—the dramatic moment on the night of September 14, 1923, when Luis Angel Firpo knocked him from the ring.

TENNIS PLAYERS OFF FOR MEXICO

With Mr. and Mrs. Harvey Snodgrass and Mr. and Mrs. Walter Wesbrook leading the contingent, a number of Los Angeles tennis players left yesterday afternoon for the annual tennis tournament to be held at Mexico City for a week beginning the 24th inst. The Los Angeles players were accompanied by ten players invited from San Francisco. Mr. and Mrs. William Johnston are accompanying the northern net stars.

RABBIT PUNCHES

BY PAUL LOWRY

WE HAVE noted with increasing annoyance the continual reference to Stanford's victory over U.S.C. Saturday as the Cards' first since the two universities began playing American football. We read it in the program prepared by the boys of the local campus for Saturday's thrilling game, and we have since observed it in the public print several times.

The fact of the matter is that Saturday's triumph was the Cards' first over U.S.C. since the rugby days, which went out with the World War.

* * *

But back in 1905, the year before California and Stanford kicked the good old game overboard and tried a diet of the near-beer game, rugby, a good Stanford team licked the best U.S.C team that had ever been put out at the local foundry of learning up to that time.

The score was something like 17 to 0, and the game was played at Palo Alto, the result being a terrible surprise to the Trojans, who had rounded up a fine assortment of stars and banked heavily on winning the State title.

* * *

The Trojans that year had Juan Ochoa, a Mexican fullback, the Haigler brothers from Arizona, Carl Elliott, Jack White, Westover, Gene Shute and other notables. With Ochoa in the back field was "Pop" Haigler, who was later converted into a tackle; Best, quarterback and Elliott. Harvey Holmes of Wisconsin was the coach.

The following Saturday Holmes's star aggregation was further humiliated, Coach Ed

OLYMPIC SCENE OF GREAT BOUT

Joe Levy, New Matchmaker, Signs Scrappers

Fistic Treat November 9 at Auditorium

Oakland Lad in First Go Since Win Over Villa

One of the best "naturals" of the year was consummated yesterday with the signing up of Jimmy McLarnin, the Belfast Spider, and Jackie Fields, the 1924 Olympic Games featherweight champion, to battle ten rounds the night of November 9 in the Olympic Auditorium.

Jimmy McLarnin

Joe Levy, new matchmaker of the Olympic organization, announced the boys had been matched last night. It is the first big fight he has signed.

The weight will be 127 pounds at 2 o'clock the afternoon of the bout, which enables Fields, who is growing rapidly, to come in at one pound over the featherweight limit.

However, McLarnin, who has not fought since his unexpected victory over the late Pancho Villa in the Oakland ball park last June, has been steadily putting on avoirdupois, and he will probably weigh about the same as his rival.

When he last fought in Los Angeles, his opponent being Bud Taylor, Jimmy weighed 122 pounds.

McLarnin's suspension at the hands of the Boxing Commission for exaggerating his age has just been lifted, and the Olympic people got busy as soon as they received notification of the reinstatement of the popular little boxer.

For months the McLarnin-Fields match has been talked of as one of the outstanding fights on the calendar, but "Pop" Foster, McLarnin's manager, always turned a deaf ear to the matchmakers whenever the name of Gig Rooney's clever Hebrew boy was mentioned.

As Armistice Day falls on Wednesday, the regular fight night of the Olympic Club, the date of the McLarnin-Fields fight has been set for Monday, November 9, at the instigation of the Boxing Commission, it is understood.

Southern Branch Team to Play Occidental at Patterson Field in Decisive G

TIGER ELEVEN MEETS BRANCH

Pomona Tackles Redlands in Second Game

Occidental Favored to Beat Grizzly Eleven

Whittier and Caltech Lay Off This Week

Coach William Spaulding will band his Branch football team together next Saturday afternoon and travel over to Patterson Field for a game with the Occidental Tiger in his own back yard. It will be the crucial game for Occidental and should decide the Southern California Conference champion. The Pomona Sagehens, who came within a touchdown of defeating Caltech with a last-minute passing attack in last Saturday's game, will tackle the Redlands Bulldog at Redlands. Whittier and Caltech will play teams outside of the conference this week.

Two weeks ago, the Southern Branch was headed for the conference championship with no other opposition than the Tigers, when Leo Calland brought up his fighting Poets from Whittier and punched the Grizzly hopes full of holes by a 7-to-0 score. Calland's eleven proved to the 13,000 spectators on hand that the Grizzly backfield demons, Loren Peake and Cy Walton, could be stopped.

Coach Sid Nichols has developed a squad at Occidental this year that rates as one of the best. It walked over La Verne in the first game of the year and gave the great Stanford team a good fight at Palo Alto. Redlands proved to be a much stronger team than the Tigers had looked for when they met last Friday afternoon. At that Redlands received the small end of a 14-to-6 score. The Occidental offensive was weak on account of a patched-up backfield that worked the greater part of the game. Nichols has two first-string backs on the sick list and the second-string subs are also out of the game because of injuries or sickness.

The Tigers should have their full strength back for the game on Saturday and are picked to defeat the Grizzlies. Coach Spaulding's charges are practicing this week with a vengeance. The Whittier win came as a bolt out of a clear sky and has taken all the self-confidence out of the squad. The men are out on the field with a grim determination to stop Oxy this Saturday, and with Oxy in the same frame of mind one of the best games of the year should develop.

Pomona battles Redlands in the third conference start for the Sagehens. Pomona got off to a poor start this year, but has shown decided improvement in every game. Merritt and Manildi are a constant passing threat and should furnish the Bulldogs plenty of competition. Redlands will put a strong team on the field, but Saturday's game may mark the first conference win for the Sagehens.

coming at him from an angle. Most teams have two or more punt signals, directing the course of the ball and giving the lineman knowledge of where the pigskin is to go. Undoubtedly the Trojans have the signals also. Maybe the right one wasn't called or perhaps Drury was rushed in his kick. At any rate Murphy gets all the credit there is as he cut back and came down the field to the identical spot where the ball had been kicked from.

Hobbs Adams was the only regular not in a suit last night, his injured leg preventing his practicing. All the other men are in good shape.

Jones attempted no alibi yesterday. He stated that his team did not take advantage of the breaks as his athletes lost a tough one when they should have. He also said that the blocked punt was turned into a safety by Hill. Nine times out of ten it would have been a touchdown and the Trojans were unlucky in having it be the tenth time. Incidentally, Jeff Cravath, and not Starke or Taylor, blocked the punt.

Twenty years is a long time, and the chap who prepared the program for last Saturday's game can be excused for not knowing Stanford had licked U.S.C. at American football in the bygone years. He was probably wearing the kind of panties you button up with safety pin. It was a swell team Stanford had that year, and it beat California, 12 to 5, which, incidentally, was a big surprise, for the Bears were rather big favorites. They had beaten the Sherman Indians, captained by a brilliant quarterback Neafus, 23 to 0, and the Indians had won from Stanford.

Irish Women's Hockey Squad Here for Play

[EXCLUSIVE DISPATCH]

NEW YORK, Oct. 19.—The first women's field hockey team from Ireland to tour the United States arrived today on board the White Star liner Baltic. The Irish team's schedule includes matches with Wellesley, Bryn Mawr and Vassar and with teams in Philadelphia, Chicago, Boston, Richmond and Baltimore.

OBSERVATIONS

BY THE INNOCENT BYSTANDER:
BILL HENRY

WELL, well, well. Never in our observant career have we ever heard so much excitement as the aftermath of a football game. Everybody in town seems to be explaining to everybody else just how it happened. There are just about as many reasons given as there are football fans—and that's plenty. As a matter of fact there's no use trying to explain what happened. It was just part of the great game of football and that's why football is the true national game. There's no use trying to predict what's going to happen beforehand and there's very little use trying to explain why it happened afterward. That's why it's a great game.

* * *

The Trojans are now finding themselves in exactly the same boat that the Stanford boys were in on January 2, 1925, when they had made enough yards against Notre Dame to win half a dozen football games and still were beaten by a score that will look twenty years from now as though the Rockne team had just naturally outplayed them from start to finish. The Trojan margin of yardage over Stanford wasn't nearly as great as Stanford's edge over Notre Dame, so now the U.S.C. rooters can begin to sympathize just a little bit with the guys they were laughing at last January.

* * *

Anyhow, that game's over and from the spectators' point of view it was one of the greatest football battles ever waged in Southern California. All the arguing in the world won't change the result. If you grab up a copy of the yardage figures and wave them under the nose of a Stanford rooter he gives you the merry guffaw and tells you to look back at the last two times the Trojans have beaten Stanford by means of blocked punts after the Cardinals had shoved the U.S.C. team all over the field. It would be better policy to prepare to beat Idaho, Iowa and some of the other teams yet to be played.

* * *

All of which brings us around to this week's menu. The U.S.C. - Arizona game doesn't sound so very promising. Utah, which was beaten 28 to 2 by the Trojans, beat Arizona last Friday, 9 to 0. The best looking game, from the standpoint of competition, ought to be that between Coach Spaulding's batch of Grizzlies and Sid Nichols's aggregation of Tigers. The Grizzlies will be fighting to get back in the running and the Tigers will be battling to assert their right to the first football championship they've threatened to win in a decade. It ought to be considerable of a fracas and will draw a big crowd.

* * *

The other schools might keep an eye on Redlands. Hoge Workman has a football team down there that isn't any Notre Dame, but it isn't rotten by any means. He is just beginning to get it rounded into form and it played good football against Occidental. It may not win a lot of games this year, but it won't be any doormat for most of the conference elevens as a lot of folks seem to think.

BALLERINO EXPECTS TO CUT HUDKINS DOWN TO HIS SIZE

Ace Hudkins is considerably taller than Mike Ballerino, whom he meets in a ten-round battle at the Olympic Auditorium tomorrow night. For this reason, Trainer Whitey Eckert has been having the world's junior lightweight champion throw many overhand punches in his daily workouts.

That's something that comes hard to the Bayonne Bomber, a natural body puncher—one of the best in the game. Manager Frank Churchill says that the New Jersey Italian's body attack is much more severe than that of Pete Sarmiento, his stable mate. If that is true, those who saw the Filipino punch the stomachs of Georgie Marks and Patsy Flannigan, realize the title-holder gets in "downstairs."

Ballerino has been protesting to Trainer Eckert for the past week. He hasn't liked the idea of switching from his natural style.

"I'm crazy about those tall guys," he told Eckert yesterday. "They have plenty of room from there to there," and the Bomber placed his index finger on "Whitey's" chest and belt buckle. "I'll cut Hudkins down to my size."

Ballerino was a ringside spectator the night Hudkins and Mushy Callahan fought their memorable draw, and says he can lick them both.

Tomorrow night's engagement figures to be the hardest fought battle staged here this year. Neither Ballerino nor Hudkins knows anything too much about the finer points of the manly art of self-defense. But they do understand how to do a lot of damage.

Tomorrow will be Navy night at the Grand-avenue mansion of maul. Manager Jack Root using a fighting gob in each of the four preliminaries. Sailor Ashmore goes six rounds with Jack Spar in the semi-wind-up. They are coming in at 138 pounds.

Sailor Arrabe of the U.S.S. West Virginia, and Frankie Britt, Tacoma junior lightweight, have it out in the six-round special. Sailor Mozier and Young Terry, welterweights, and Sailor Bobby Near and Steve Zittie, 154-pounders, clash in four-round matches.

HUNTING AND FISHING NOTES

More good hunting and fishing news has been received at the B. H. Dyas Company. Pete Peterson, the company's outdoor expert, now on his vacation, sent in word that he got the limit of ducks last Sunday in Imperial Valley.

Mitt Drown, guide at Bear Lake, declares that redheads and canvasbacks have been coming in during the last week and that duck hunting is good, generally speaking.

Halibut are bing caught in good numbers off Santa Monica. A few yellowtail are landed. Last Saturday and Sunday found an exceptionally large crowd at the Rainbow Angling Club.

WANER BATS OVER .400 TO TOP COAST LEAGUE HITTERS

Paul Waner, youthful San Francisco player, finished the 1925 season of the Pacific Coast League with a batting mark of .401. Only once before has a player in this league hit above .400 for a season, Duffy Lewis batted .403 in 1921. Waner's mark, however, is perhaps more remarkable as he played in about seventy more games than Lewis played in 1921.

Waner was also the leading two-base hitter of the league with seventy-five to his credit. This is a new Pacific Coast League record.

The former Pacific Coast League home-run record of forty-three was surpassed by Tony Lazzere, Salt Lake shortstop. Tony gathered his sixtieth home run on the final day of the season.

Following are Leo Moriarty's unofficial figures for the 1925 season.

WOMEN'S PLAY ON IN NORTH

Mrs. Van Antwerp Medalist in Title Tourney

Shoots Two Over Own Course Record at Ingleside

Mrs. Frank Sheedy Runner-up in Qualifying Round

[EXCLUSIVE DISPATCH]

SAN FRANCISCO, Oct. 19.—Mrs. W. C. Van Antwerp of the home course won medal honors in the Northern California women's golf championship today at the San Francisco club. The former State titleholder took 90 strokes, two more than her own record for the Ingleside course.

Mrs. Frank Sheedy, San Francisco city titleholder, was runner-up in the qualifying round, with 92. In tomorrow's feature match, Mrs. Sheedy faces Mrs. Robert Roos, defending champion. Mrs. Roos qualified with 97 today. This is no criterion of her match play, however, which is notable for its steadiness.

VERSATILE PLAYER

Mrs. Van Antwerp demonstrated remarkable versatility today. She is chairman of the tournament committee, but she filled that position and yet managed to turn in the only 90 of the day. Her first nine was 46 and second 44. Mrs. Roos's real ability was well shown on the second nine when she took 43, after a shaky 54 going out. Mrs. Charles F. Ford of San Francisco and Mrs. W. C. Gilmour of the Olympic Club also returned in 43. These two tied with Mrs. Milton Bernard of Sequoia with 94, second best gross. For Mrs. Gilmour, this is a genuine achievement. It marks another recent upswing in the career of the diminutive Lakeside player.

OVER THE TEA-CUP

While the winners were picked over tea this afternoon, the ladies unanimously granted Mrs. Van Antwerp the advantage of the easier half of the draw.

ASCOT NOW READY FOR ROUND-UP

McCarty Brings His String of Bucking Wyoming Horses for Big Fiesta

With the arrival Sunday of the Eddie McCarty string of bucking horses from Wyoming, Ascot Speedway took on the appearance of a big ranch outfit.

McCarty, himself, winner of innumerable riding contests, has a well-defined "yen" for the "pizen" brutes and every time he sees a real outlaw in horseflesh he doesn't rest until title to the man-killer is in his name. In this manner he has assembled one of the greatest strings of vicious horses in the country and the success of any contest is assured when the McCarty remuda is on the ground.

For real, honest-to-goodness buckers and pitchers, McCarty's string is one of the three best in the country. Included among the outlaws are Headlight, Sundown and Rawlins Gray. This trio have been ridden at various times, but they have never yet learned to fear the lion-hearted punchers who mount them. They are real outlaws and are plumb full of wickedness from the time they leave the corral gate until they are herded back into the inclosure.

Headlight is known as a simon-pure killer and every time he is mounted, several riders are sent along to prevent his flying feet from killing the unfortunate victim of his spine-jolting bucks and pitches. Two riders are known to have been killed by this animal after being thrown from his back.

Rawlins Gray is not a killer, but apparently enjoys the attempts to ride him. His specialty is falling over backward after a series of tremendous stiff-legged bucks and it takes a wary rider to unload from the saddle to prevent being impaled as the big horse somersaults.

Sundown is a sedate-appearing animal with little interest in his surroundings until the rider is mounted. He then becomes a cross between a Roman candle and a pin wheel. He is seldom outfought.

A Series of Articles on How Modern Football Should Be Played

No. 14—ELEMENTS OF TACKLE PLAY

I have discovered in football that the man who stars on defense does not necessarily excel on offense. The man who plays tackle on defense is selected because of his superior defensive abilities. The man chosen to play guard is probably picked because he is a less experienced football player than the tackle and, to some extent, less gifted by nature for the more strategic position of tackle.

It often happens that a star defensive player is of only mediocre value on attack and the ordinary guard may show more football value on attack than the star tackle.

The offense should always be built up so the best blockers will play adjacent to one another. This results in co-operative action. If the linemen are so grouped on offense that the same men will always find themselves shoulder to shoulder, the result will be a better organized and more polished attack. Repeated co-operation so obtained will acquaint these men with each other's peculiarities, making them better able to readjust themselves for effective action.

Against a balanced formation the tackles must keep the opposing line between themselves. The tackles line up just off the shoulders of the opposing ends. Against an unbalanced line attack, the tackle on the strong side of the line takes up a position just outside the opposing end. The tackle on the weak side of the line stands directly in front or just inside. Should a back of the offense line up outside his own end, the defensive tackle should line up in front of this end and back.

The tackle does not have to play so low nor in so cramped a position as the guard, but he should assume a position that will allow him freedom of action. There is more action demanded of the tackle than of the guard.

EYE ON THE BALL

The tackle should keep his eye on the ball and dive his hand or hands into the end with the snap of the ball. He charges forward, neither in nor out, but so he has complete control of his balance and can shift to the left or right as may be necessary to place himself in front of the play. Then he must fight his way into the play, knocking aside the interference and exposing the runner for himself or the secondary defense.

As the tackle charges forward, he is likely to lose his balance and miss the back who is driving past on either side. To avoid this he should learn to adapt his muscular action to the speed of the runner. He should charge forward in somewhat of a crouched position because a low center of gravity assists in retaining balance, and consequently enhances tackling efficiency when changing directions quickly. The tackle should be a man who is not afraid to stretch himself and who can recover instantly after a false move.

If a forward pass develops, the tackle should first check the end and throw him off his balance and then be careful to protect the flank of his own end who, with the snap of the ball, has gone in to rush the passer.

THE STUTTERING CHARGE

Since the tackle has no one in front of him, a quick start with the snap of the ball is not so necessary and thus he can watch the sideswiper and be prepared to use his hands to ward off or break the charge. The tackle should struggle to remain on his feet and fight to keep in front of the play. Determination not to lose his balance will help considerably. He may baffle the sideswiper by employing different methods of attack, either to charge across the scrimmage line with all his speed or to make a false movement forward, suddenly stopping and charging again, this making the so-called "stuttering charge."

Should the tackle notice that the opponent's end, who has been attempting to sideswipe, has gone out an extreme distance, he should follow him out part way to make sure of the end's intention and then hurriedly change his position and line up nearer the core of formation.

These are the most important of the fundamental facts of tackle play.

PRACTICAL FOOTBALL

The Eighteen Best Plays
Selected for Use by High School and College Teams

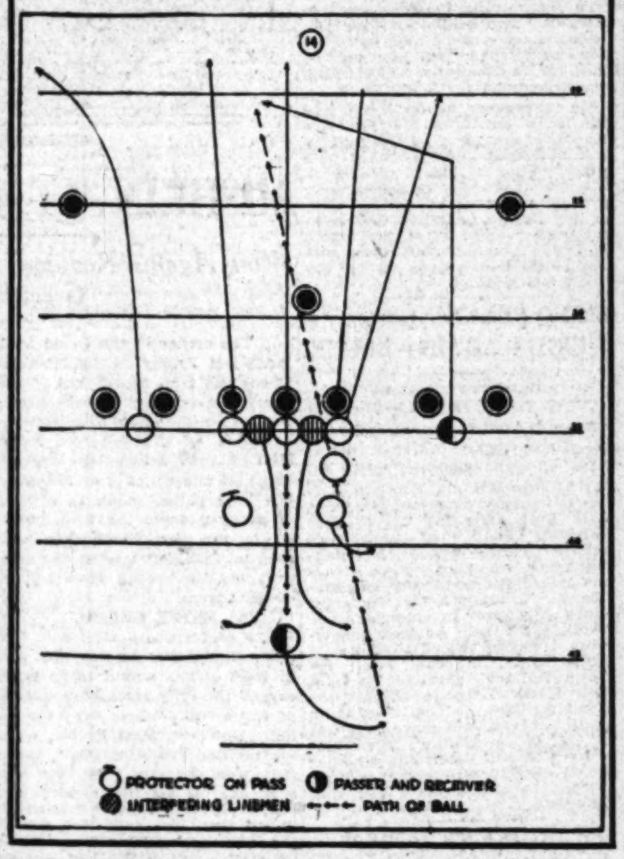
No. 14. Long Screen Pass

This type of screen pass is difficult to stop because four, and sometimes five, receivers go down the field behind a screen of players. Some of the receivers cut in, some angle out, some delay, decoys clutter up the field, all of which adds to the troubles of the defense.

The diagram shows a long screen pass to the right end in deep center. There are three teammates in front to block off the safety as soon as the catch is made. An eligible man has gone deep and wide to either side to draw away the defensive halfbacks, and another possible receiver, after blocking momentarily, goes out shallow to the left. The passer runs deep to give his receivers time to reach their allotted positions.



SENCIO, RILEY TOP CARD

Main events for the next three Friday nights have been signed by Tom Gallery, Hollywood matchmaker. This week Clever Sencio and Roy Riley head the bill. One week later Ace Hudkins and Johnny O'Donnell are the feature attractions and the following Friday night Doc Snell and Stewart McLean grab the top spot.

Hudkins and O'Donnell have had one battle. Johnny met Ace before the Nebraska Wildcat came to California. O'Donnell has been waiting for a return match for many months. Finally Hudkins has agreed to the bout.

Doc Snell wants to vindicate himself in the eyes of the Hollywood fight fans for the showing he made with Chuck Hellman. Snell didn't offer any alibis but he believes that he has regained the form that made him a card in Los Angeles.

There is a possibility of Fidel La Barba returning to the Legion stadium for one more shot before the Christmas holidays.

PLAN SENIOR SQUASH PLAY

With Tom Gallery crowned champion of the A.A.U. junior national squash tournament, the senior A.A.U meet will get under way at the Hollywood Athletic Club for three days beginning the 22nd inst.

Several invading stars will participate in the senior play. J. W. Wilkins of the Multnomah Athletic Club and B. Snurts of the Boston Athletic Club are the most formidable of the visitors according to the club authorities. Of the local stars Tom Gallery and George L. Eastman, champion of the Hollywood Athletic Club are conceded the best chance to cop the title.

Bill Tilden, who came very close to defeating Tom Gallery in the final round of the junior play is considered one of the most dangerous contenders. Tilden is registered with the Philadelphia Athletic Club.

NIXON GIVES ENTIRE LINE BENCH JOBS

Shoves in All New Men on Pomona Team for Redlands Game

[EXCLUSIVE DISPATCH]

POMONA COLLEGE, Oct. 19.—Eugene White Nixon has been head football coach at Pomona College for a good many years, but he made a change in his varsity line-up this afternoon that rivals anything he has done since he took over the reins here back in 1917.

Endeavoring to discover a team that will defeat Redlands Saturday and give California a worth-while battle in Los Angeles next week, the Blue and White mentor placed his former varsity team on the bench and started to build up a new team. His backfield remained practically the same as the one that fought Caltech to a standstill the last half of Saturday's game, but the line was entirely new. On the ends the veteran coach placed Dick Bell and Willard Rew. Both are sophomores and have been second stringers to date. Bell has been given chances in the backfield, but Nixon now has new plans for the young player. Rew and Bell played a fighting brand of football when they were sent into the Tech game and Nixon believes that they will prove valuable varsity material.

Carl Munson and Dick Badham were assigned the tackle positions. Munson has been a varsity substitute to date, while Badham has done most of his playing with the third team. However, he was given a chance against the Engineers when the regulars fell down and came through in great shape. George Rodecker and Link Hall played the two guard positions with Ferris Scott, another former second-team man, at center. The backfield was composed of Manildi, quarterback; McCully, fullback, and Merritt and Neher, halfs. These players have started nearly every game and have been varsity men all season.

NEUMAN FACES ROPER TONIGHT

(Continued from Ninth Page)

man to crack on the chin for the count. Nobody is stopping Neuman. Not even Gene Tunney could do it when they fought in Pennsylvania some time ago.

Dick Hoppe meets Frankie Fink in the six-spot four. Both were stars in the four-round days.

Johnny Green boxes Don Levy in another four. Green came to Los Angeles with Charley Phil Rosenberg, bantam champion. His credentials are good.

Benny Touchstone is paired with Pat Freeman in another heavyweight set-to.

Dick Dundee and Tommy Carr are middleweights.

The other pair of fours feature Billy Black vs. Toby Montoya, and Jimmy Black vs. Sally Martinez. They are 126-pounders.

Action galore is the program tonight—seven bouts, all battles.

Golf Calendar Complete With Women's Event

With more than 200 local golfers vitally interested in the annual invitational at Hollywood this week, local feminine golfers will also get under way with a golfing schedule just as complete as that drawn for "Uncle Eddie" Tufts, Southern California Golf Association members.

Midwick, winner of the auxiliary interclub team championship last year, will not start this year's league as scheduled today, but will be given until November 10 to organize for the annual competition. The Los Angeles team, all set to meet Midwick in the first Class A clash, will be idle and Flintridge has also drawn a later starting date.

Mrs. John Clark and her golfing San Gabrielans will travel to Hollywood for the only Class A clash today. In Class B, Rancho will play at Brentwood and Hillcrest at California. Leaders in both divisions will meet at the end of the present season for the auxiliary trophy and the individual point winner will also be awarded a suitable trophy, at the end of the playing season.

WOMEN'S TOURNEYS

Members of the auxiliary have been invited to participate in the special two-class, match play against par tourney at Westward Ho Thursday, and a record field is also expected to play in the Annandale invitation ball sweepstakes event, arranged by Mrs. Frank Zak, tourney chairman, for Friday. Entrants in the Annandale tourney will qualify in three classes scratch to 9, 10 to 19 and 20 to 30, for three of Jack Malley's championship drivers that have been offered as net trophies. Beautiful cups will be awarded in the Westward Ho event.

OWENS WINS AT MOUNTAIN MEADOWS

Vic Owens of San Pedro finished one stroke under Tom Stevens with a 72 for low gross prize in the feature amateur-professional tourney at Mountain Meadows, Sunday. Ed Gayer, formerly of Hillcrest, now mentor of Twin Orchards, in Chicago, was third with 75.

EARL FORESMAN

Earl Foresman, Mountain Meadows pro, was host to more than a score of local big guns and their fast traveling amateur partners in the event. Vic Owens and Lester Coleman won low net with 68 and again Tom Stevens, playing with another golfing youngster from his California club, finished in the money, tying with L. Gleason and P. Schumaker, who finished with 69.

O'MALLEY HEADS GRASS VALLEY CLUB

The new Grass Valley Golf Club at its recent meeting elected Howard M. O'Malley of [illegible] as its president and Juanita D. Carr of Los Angeles, as secretary-treasurer. The organization is a member of the Southern California Golf Association and holds invitational tournaments each month.

The new nine-hole golf course has grass greens and fairways and is located at Lake Arrowhead with Willie Hoare as professional. At an altitude of a mile in the San Bernardino Mountains and with a new type of underground watering system the Grass Valley links become one of California's most unique courses.

MUSICAL WARINGS STILL GOLFING

The two fastest golfers of Waring's Pennsylvanians, Fred Buck and Jimmy Gilliland, defending champion, will play the finals of the Waring's tournament at California Club today. A beautiful cup will be awarded the winner by Southern California Music Company.

Yesterday, Buck defeated Nelson Kellar in a nineteen-hole match, one up, in the semifinals.

BEVERLY DRAWS $10,000 EVENT

Midwinter Classic Set for Los Angeles Club

Pros Limit Field to Insure Feature Tourney

Amateur-Pro Tilt Ushers in Golf Week January 6

BY THE GOLFER

Regular members of the Southern California Professional Golfers' Association, sponsoring the event, last night voted to hold the $10,000 Los Angeles open tourney, including the feature amateur-pro classic, over the north course of the Los Angeles Country Club, January 6 to 9, inclusive.

Willie Hunter, professional of the Brentwood club, who came forth with the first offer of $2000 that made the event possible when first announced, several months ago, was the first of the members voting to congratulate Joe Norwood, Los Angeles pro. Joe Norwood would have been the first to congratulate Hunter, if the spirited voting had awarded the tournament to Brentwood.

No handicap list was set upon amateurs playing in the medley tournament, January 6, but entrants in the open classic will only include players whose rating does not exceed four strokes.

Entrants in the open event will play an 18-hole medal round January 7 and 8, and the sixty-four low scores, including all ties, will play 36 holes medal for prizes based on aggregate scores, Saturday, January 9.

RANCHO SWEEPSTAKES

Harry Pressler of Hacienda and Dick Linares of Long Beach tied with 71s for low gross in the pro-sweepstakes tourney at Rancho yesterday. Cliff Castle, Fred Barber and Jack Jacobs finished in the order named in the blind bogey event.

MARTIN JOINS HOLE-IN-ONE CLUB

The Hole-in-One Club has a new member. James H. Martin made it on the eighteenth at the Harding Memorial course Saturday morning during the foursome with Jack Cronshaw, Charles Green and Forrest Ray, all members of the Leighton Arcade Orchestra. The hole is 193 yards, with a par 3.

PUTTING CONTEST AT ASCOT SATURDAY

Lowest gross score over the past week-end at the Ascot Public Golf course was as follows: J. F. Lynch, 76; Ed Miller, 79; R. N. Evans, 81, while Walker, pro, made up the foursome, the latter's card read 69 for the eighteen holes, with an eagle on the first hole par four and an eagle on the difficult thirteenth hole, par 4.

A special putting contest is offered for next Saturday afternoon, the 24th inst., at 3 p.m. with suitable prizes. Registrations must be made at the Golf Shop and receive number before starting.

DUCATS FOR ARIZONA ARE PUT ON SALE

B. H. Dyas Company Handling Tickets for Two Games

Tickets for the Arizona-U.S.C. football game and the Santa Clara-Trojan game were placed on sale yesterday at the university's ticket office in the B. H. Dyas Company. The Arizona game is scheduled for Saturday and the Santa Clara game on November 7.

It was announced yesterday by U.S.C. officials that 65,000 tickets for the Iowa-U.S.C. game, billed for the Coliseum November 21, have just been received from the printers and are being systematized and sorted out. These tickets will not go on sale until November 2.

The Trojan officials also announce that those people who have signed priority reservation applications will not be able to get their tickets until after November 2. Tickets for the Arizona and Santa Clara games are $1, while the Iowa game ducats will be $2.50.

A neat football schedule for the 1925 season in booklet form has been published by the B. H. Dyas Company, and is free for the asking.

POLICE CHIEF OF CHINA CITY HERE

Head of International Force on World Tour

Directs Work of 3500 Men in Policing Shanghai

Tourist With Florida Tales Also on Liner

Charles Dewing, superintendent of the international police of Shanghai, China, on a tour around the world, arrived on the Dollar globe-girdling liner President Monroe yesterday morning. The steamer came in with a capacity list of 102 passengers and a heavy cargo and will depart from here this afternoon at 2 o'clock with increased tonnage and thirty-nine Orient-bound and 'round-the-world tourists.

MISS LILLA M. HARSHMAN.

Shanghai, once the crime center of the Orient, has been cleaned up in remarkable fashion, according to Superintendent Dewing. Crime among whites and depredations against whites practically have ceased and the natives of the land now are the chief offenders, confining their acts to their own race.

The common or garden variety of hold-up is still the popular form of crime among the natives. The proverbial long-and-short pair are the popular perpetrators of hold-ups and the weapons employed are similar to those described in the American police reports, "a heavy blunt instrument" or an automatic revolver.

Weapons being difficult to obtain in Shanghai, the natives have the unique trick of joining the Chinese army and once properly equipped with weapons of warfare provided by the government, they desert and go into the hold-up business in the oriental quarter. The policing of Shanghai, a district comprising approximately 1,250,000 souls, is handled by the International Police, of which Mr. Dewing is a superintendent, a force of more than 3500 men, mostly natives, directed by European superintendents.

FLORIDA BREEZES

The hectic real estate boom in Florida will in no wise retard the annual winter influx of tourists to Southern California, according to Lilla M. Harshman of Long Beach, who returned on the President Monroe after a circle tour via rail to Florida and New York and homeward by sea.

"Really," said Miss Harshman, "real estate traffic in Florida is degenerating into a joke, for the operators are selling anything which emerges from a swamp long enough to look like land. Miami, Palm Beach and the inhabited sections have been sold and resold to the limit and prices have soared to ridiculous figures. Rent-goughing is the popular sport in Miami, despite the vigorous protests of the Chamber of Commerce. During the time I was in Miami, Ed Howe, the noted Atchison (Kan.) writer, was vigorously and publicly protesting his rent being raised more than $125 per month above a figure he had contracted to pay for an apartment this winter.

"Florida is not the place for persons in moderate or comfortable circumstances. The population consists principally of real estate agents, this tribe being so numerous that it is almost imperative that they wear a distinguishing badge to keep from attempting to sell land to each other."

SNAPPY SHOW STAGED

Possibly no globe-girdling liner ever enjoyed a snappier show than did the Dollar round-the-world steamer President Monroe a few nights out from Los Angeles Harbor, bound here from New York, when Joseph Klaw, son of Marc Klaw, internationally known producer, staged an amateur production participated in by the passenger list, which had all the earmarks of a Broadway presentation, according to some of the enthusiastic cast. Mrs. Klaw, once a well-known stage star, acted as stage manager for her producer-husband. Mr. and Mrs. Klaw are on a pleasure jaunt to Hawaii and after spending a few days in Los Angeles will rejoin the President Monroe at San Francisco for next Saturday's sailing. While in Los Angeles Klaw will make a survey of the theatrical situation in regard to legitimate productions, and the possibility of success of road shows which may come to this coast this season.

This is the first visit of Mr. Klaw to this coast.

The passenger furthest from home aboard the President Monroe was Dr. P. D. Bhiwandiwalla, from Colombo, Ceylon, on tour of the world, who will not arrive at his home port until December 9, next. Among others on the list were: Mrs. Sidney G. Duffy, prominent society matron of Larchmont, N. Y., who, with her husband and family, will make her home in Los Angeles; Mrs. Tillie R. Spear, wife of Port Manager Charles H. Spear, returning from a tour around the world; Capt. Ivan C. Wettengel, who will become commander at Mare Island Navy Yard, and Gen. George B. Rodney, retired, who will pass the winter in Pasadena.

CANNERS JUBILANT OVER FISH FREIGHT CUT

Southern California fish cannery men were jubilant yesterday over word that railroad freight rates on canned fish eastward had been reduced to a point where it means the margin between profit and loss, particularly on sardine shipments, according to one cannery official, who asked that his name not be published.

The rate becomes effective December 15 and applies to "fish, canned, in glass, earthenware or metal cans, boxed," being 99 cents per 100 pounds, with a minimum weight of 70,000 pounds, approximately a carload. The present rate is $1.05 with a 60,000 minimum. The change applies between California ports and points between Denver and Chicago.

While the rates come too late to benefit the tuna output, they are heralded as the biggest boon to the sardine industry in years and packers are preparing to can 1,250,000 cases on the strength of the new rates, practically half again as much as ever canned in a previous season, according to an official of one of the leading canneries.

The sardines are beginning to run in waters south of here and with their expected appearance daily off port, will afford a lucrative business for many hundreds of boats, a dozen canneries and several thousand employees until May next year.

A side line developed from the sardine-canning industry in recent years, is the reduction of these fish into oil, which finds a ready market in plants throughout the country for use in soap, paints and the like. A few years ago the oil was little thought of by canners, and the product was bought from them for a song.

Today they have compiled estimates on their oil output this season as 255 carloads of 8000 gallons to the car and enriching their coffers perhaps $4000 a carload. The Union Pacific Railway has diverted a large number of its small water cars, used in the desert, as their size is said to be particularly convenient to this trade.

All the fascination of Christmas Eve lurks in the dock where the German steamer Alda is discharging freight, for the Alda incidentally is dropping about 500 tons of Christmas trees, Christmas toys and all the adjuncts of Santa Claus. While the toys are all in big boxes and hidden to the eye, there are plenty of encouraging dock workers to whet the youngsters' imagination about the wonders at hand.

Ernest Barleben, an importer and exporter, who, with his wife, came over from Bremen on the Alda, said the shipment includes some remarkable "movable" toys, which walk, talk, do somersaults and a lot of crazy antics.

There are a lot of Christmas trees, too, with near-radium stuff on them, which throws back light and even makes the trees shine in darkness, making an unusual scintillating effect, probably done by phosphorus, according to Barleben.

Barleben pictured in pitiful plight the little war-depleted families of Saxony, where the toys are made mostly in homes. The American tariff of 70 per cent on toys, imposed since 1922, has wrought disaster to thousands of families at Nuremburg, where they now are eking out a mere pittance, he said. The industry has tried to get a loan from the German government to tide the families over until after Christmas, said Barleben, adding, "but you can imagine what chance there is of getting money from there under present conditions." He said there is a movement on to seek a reduction in the American tariff, and pointed to the increase such a move would mean in increasing cargoes for ships sailing there from America.

The East Basin fill is scheduled to be completed tomorrow, marking the conclusion of what is said to be the largest reclamation project in the harbor. Begun eleven months ago by the Western Dredging Company, it comprises the reclamation, at a cost of $347,000, of fifty-five square blocks in the heart of Wilmington, thereby increasing the value of property reclaimed by $4,000,000 to $5,000,000, according to realtors' estimates. The new tract is deemed ideal for industrial purposes.

The fill raised the height of the tract from eight to fifteen feet and represented the movement of 1,400,000 yards of earth, which had been piped across land from West Basin, where the same company is dredging a perimeter thirty to thirty-five feet deep, to make way for ten more berths for the harbor department.

Work of establishing preliminary grades for streets on the new tract is under way, and on completion in a few weeks, the city will start paving and curbing the tract. The area is bounded by Broad avenue on the west, B street on the south, Southern Pacific tracks on the east and Anaheim Boulevard on the north.

With the Coast Guard cutter Tamaroa laid up at San Diego for repairs, the little cutter Vaughn is scheduled to put to sea from Los Angeles Harbor this morning in search of rum runners. She is the only craft in southern waters now engaged in that work, and is said to have a speed now of only seven and one-half knots an hour. Two large rum carriers were tired out by the two cutters last week and went south, but reports have it two more, each with 10,000 to 20,000 cases aboard, have cleared British Columbia and may be in Los Angeles waters now. Both have a greater speed than the Vaughn, while the shore boats operating off Southern California to rum ships can make from sixteen to forty-five knots, according to Federal officers who have boarded them in port.

ITALIAN FORCES TAKE TERRITORY

Northern Somaliland Comes Under Sway of Rome

Occupation Follows Strife Among Native Rulers

Populace Welcomes Column and Gives Up Arms

[BY CABLE—EXCLUSIVE DISPATCH]

ROME, Oct. 19.—Italian colonial troops occupied the northern portion of Italian Somaliland, which, though technically a portion of Italian possessions, has in actual fact hitherto been almost totally independent under its own native chiefs. The territories occupied are the sultantes of Obbia and Mijerthain, which came under Italian protectorate in 1889.

Two columns of white and one column of native troops marched 400 miles from Southern Somaliland to Obbia at the same time that Alula Rafun in the sultanate of Mijerthain was occupied by the landing parties from the Italian naval squadron. These two sets of operations were carried out without bloodshed, no resistance being offered by the native populations, which, according to an official statement, "welcomed the Italians with benevolence and sympathy," and surrendered some 2000 rifles and large quantities of ammunition. From these points the occupation will be extended inland.

When Italy assumed the protectorate over Somaliland in 1889, it was then a young nation unprepared for colonial adventures, and it was thought best to limit the occupation to the southern portion of this territory, leaving the north in the hands of the local Aulians under the nominal protectorate of Italy. This arrangement worked well for Italy as long as a common danger kept the local chiefs' minds off the'r personal quarrels. Thus, when Mad Mullah, retreating before British troops, invaded the valley of Wadynogal, the sultans of Obbia and Mijerthain combined to fight him, but when he was killed by the British in 1920 they set to fighting among themselves over the possession of the fertile, rich Wadynogal, and gave the Italian authorities great trouble.

The Fascist governor of Somaliland, Devecchi, as soon as he arrived at Mogadisho, decided the only hope of peace in that region was to occupy the whole of the territory under the Italian protectorate. He began a long process not only of military, but also of moral and political preparation in order to insure the effecting of the Italian occupation without arousing the hostility of the natives. During a recent visit to Rome, he made the last arrangements with Mussolini. He began operations immediately upon his return to his post at Mogadisho.

Miami Utility Lease Before Arizona Body

[EXCLUSIVE DISPATCH]

PHOENIX, Oct. 19.—On November 2, next, the Arizona Corporation Commission will conduct a final hearing on the lease and purchase agreement between the Council of the city of Miami and the Van Dyke interests involving the Miami public utilities. The Council agreed to take over the electric light and water plants for about $70,000 a year rental to the Van Dyke Corporation, or to pay $500,000 in the first year or $288,500 in the tenth. The city is to bear all costs of improvements and extensions and is to turn such additions over to the company if the option be not taken up.

Protest has come from 400 Miami residents, who aver that the price is excessive, the plants are inadequate and the agreement to have been made without proper notice to the public.

COLLEGE TO HEAR OF SURGERY DISCOVERIES

EUROPEAN PHYSICIANS WILL ADDRESS CONFERENCE AT PHILADELPHIA

[EXCLUSIVE DISPATCH]

PHILADELPHIA, Oct. 19.—The discussion and demonstration of the newest "finds" in surgery will be the feature of the fifteenth annual conference of the American College of Surgeons, which meets in this city the 26th inst.

Dr. Charles H. Mayo of Rochester, Minn., is president of the college. He will preside and will induct into office his successor, Dr. Rudolph Matas of New Orleans.

Lord Dawson, personal physician to King George of England, will attend the meeting on special invitation. Other noted figures in the surgical field in Europe who will attend are: Sir William Arbuthnot Lane, London, who will deliver the Murphy oration in surgery, an annual function of the college session; and Prof. Vittorio Putti of Bologna, Italy, who has attracted much attention throughout the world by his work in orthopedic surgery.

HOOVER FAVORS AIDING AVIATION

Says Lighted Airway Subsidy Should be Given

Question of Bureau Termed Problem for Congress

Secretary Predicts Leasing of All Mail Routes

[BY A. P. NIGHT WIRE]

ST. LOUIS, Oct. 19.—Creation of a bureau of aviation and improvement of inland waterways are the two large problems for the coming session of Congress, Secretary Hoover of the Department of Commerce said here en route to Kansas City, to address a Missouri navigation conference.

The United States would have a complete air transportation system within a year, if the government provided lighted airways, landing fields and aviation regulations, Hoover declared.

"In effect, this would be subsidizing aviation," he continued, "as it is done in Europe, where the governments pay out large sums to the companies operating air lines. In return, the Federal government would gain important military advantages. A skilled army of pilots would be available always in time of war and to some extent the commercial planes would be valuable. Most of all, a subsidized airplane industry would create a manufacturing capacity which in time of war would be invaluable."

Hoover predicted that the transcontinental air-mail system will be taken out of the hands of the Postoffice Department within a year, and that the routes will be leased to private corporations.

"This already is being done with the feeder lines to the transcontinental routes," the Secretary said, "and there are four very strong organizations, backed by wealthy men, ready at any time to take over the contracts for the transcontinental mail system."

4 out of 5

is grim pyorrhea's count

DENTAL STATISTICS tell this grim story: four people out of every five are destined, through neglect, to contract pyorrhea after they pass the age of forty. Thousands younger also suffer.

Pyorrhea is the dread disease of the gums which is responsible often for loss of teeth, rheumatism, neuritis and other dangerous disorders.

It starts with tender bleeding gums. Pockets form below the teeth and poisons spread relentlessly through the body.

If you have pyorrhea or any of its symptoms see your dentist at once and start brushing your teeth with Forhan's for the Gums.

To safeguard yourself against pyorrhea make Forhan's your regular dentifrice. It is the formula of R. J. Forhan, D.D.S., and contains his pyorrhea liquid which has been used by dentists for the last 15 years in the treatment of pyorrhea.

If used regularly and used in time it will prevent pyorrhea or check its course. Don't give this insidious disease a chance to start. Start using Forhan's this very day. All druggists, 35c and 60c in tubes.

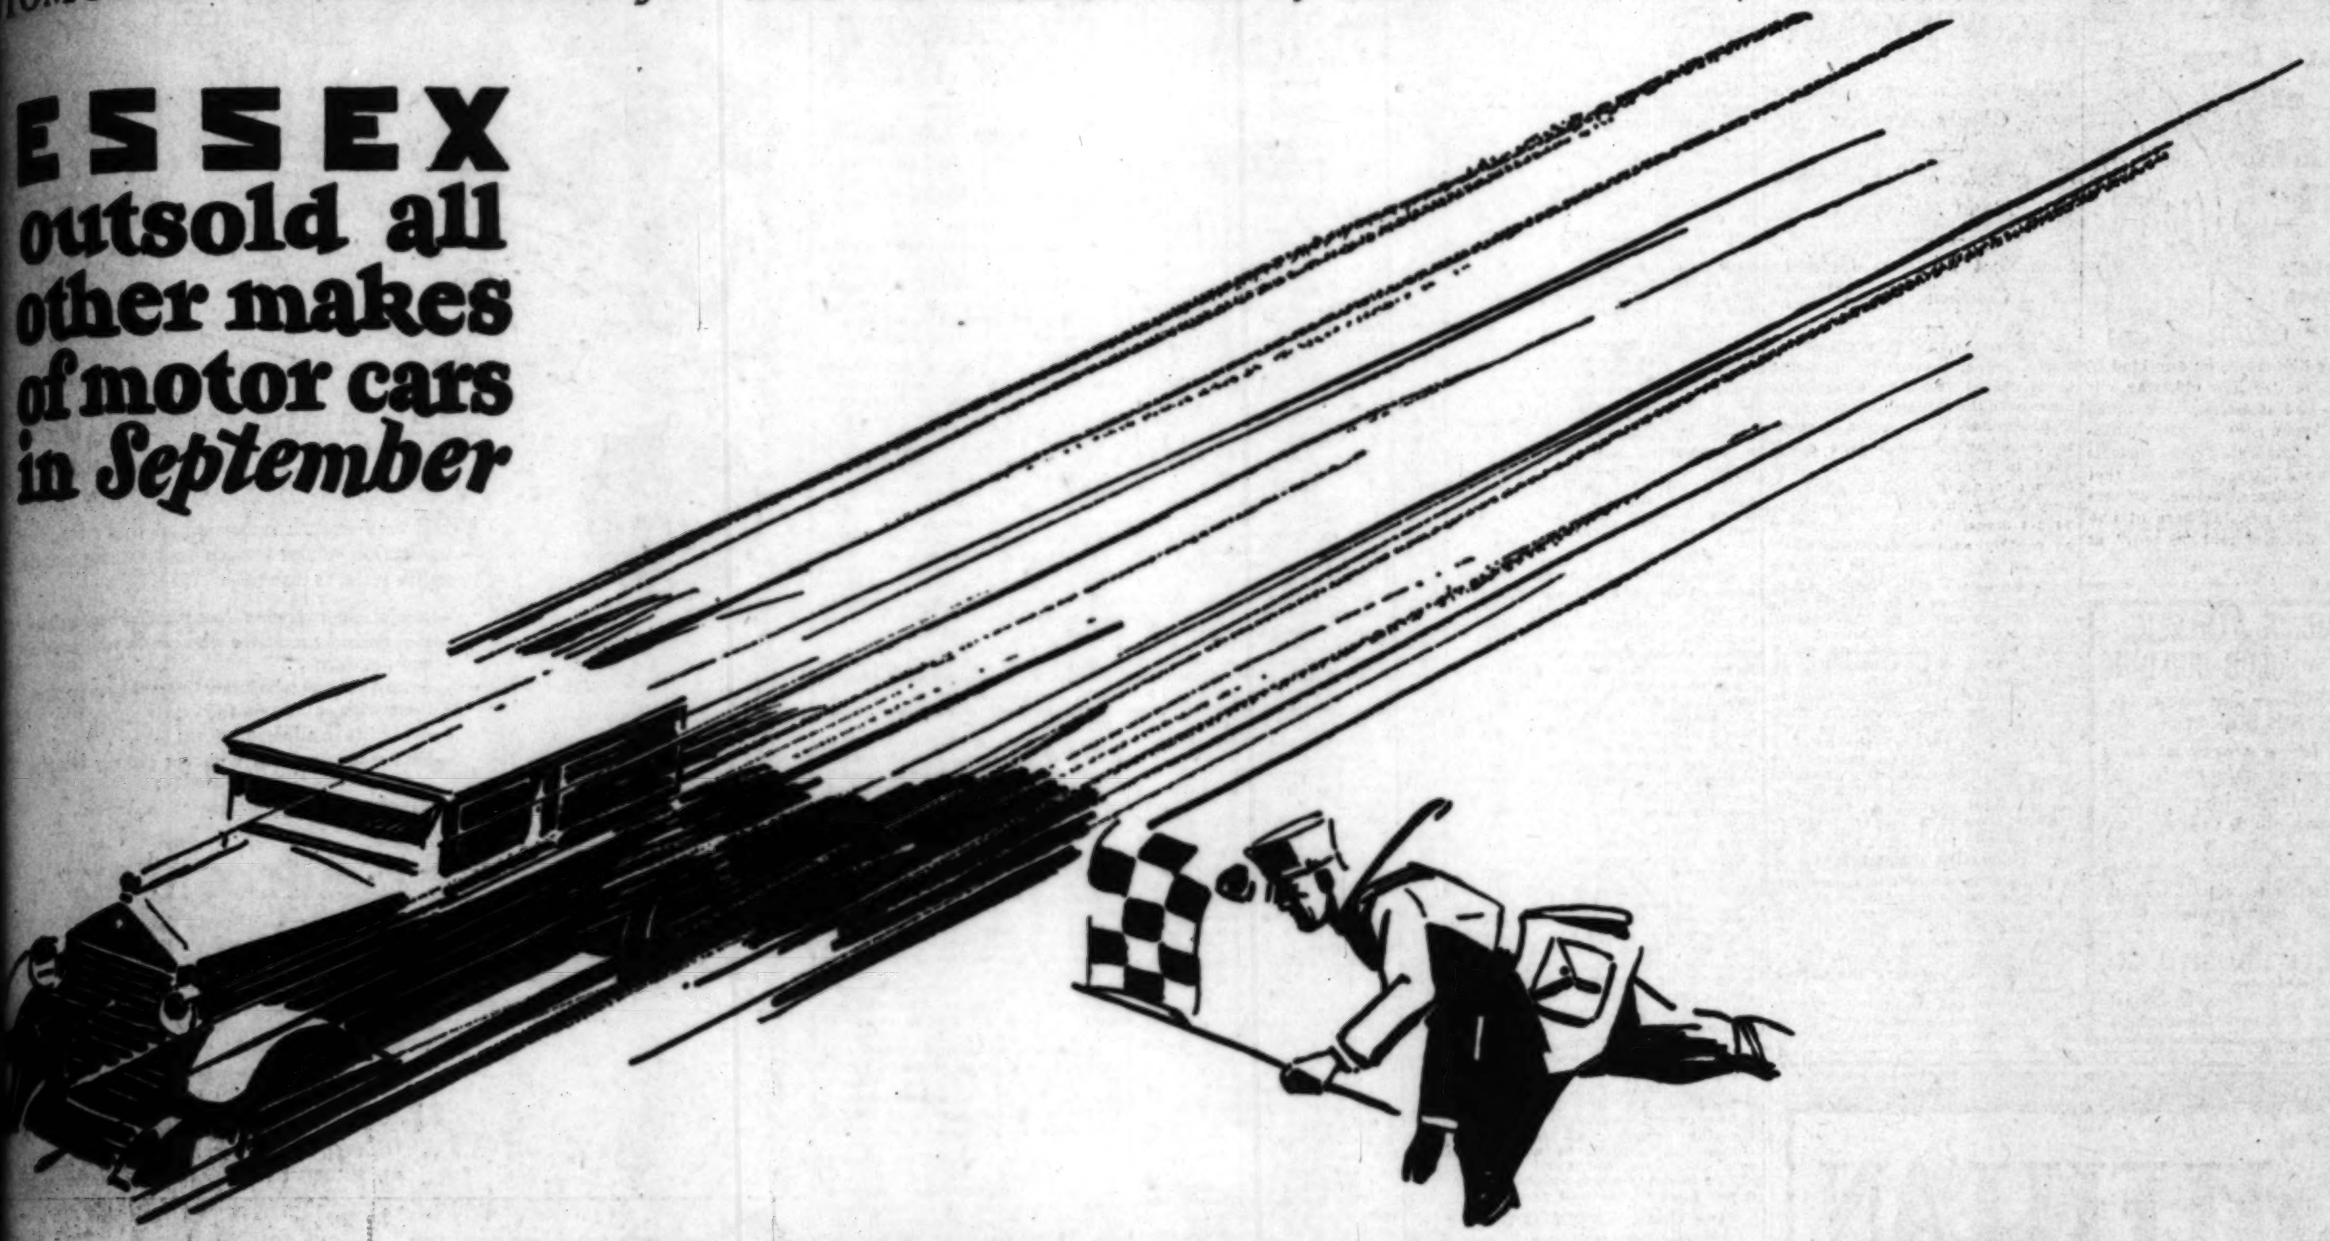
ESSEX outsold all other makes of motor cars in *September*



ESSEX COACH *Wins!*

The Essex Six Coach, powered by its amazing value, its six cylinder flexibility, swept past all other motor car competition regardless of size, price, or any class distinction, to an undisputed first place in the September Sales Race for all Southern California!

This Essex feat was accomplished lone-handed, without the aid of the eight hundred and thirty-five closed Hudson cars sold during this same period, and not only covers Los Angeles with this record, but the county as well as entire Southern California.

Month after month the Essex has been making new acquaintances. This great public acceptance has created volume production and with it has come an amazingly low price which has caused the Essex to be called the "World's Greatest Value."

The roadability of the Essex has been a revelation. The fine quality of workmanship and material, and the unmatched value of the Essex in offering a closed car below the open car price has brought this outstanding popularity.

Real motor efficiency has not only produced a standard of quality 6 cylinder performance, but has cemented the new acquaintances into lifelong Essex friends.

The terms we have arranged will permit anyone to drive an Essex at a total cost of $39 per month.
Your used car will be accepted without payment of cash, if its value equals the $195 down payment.

COPPER MARKET RECOVERY SLOW

Policy of Customs Smelters Checks Advance

Heavy Sales of Second-Hand Metal Handicaps

Statistical Position Held to Continue Sound

BY CHARLES F. WILLIS

The copper market has evidently recovered from its disappointment over the failure of the French Debt-Funding Commission to come to some agreement before going back to France. The price has been advancing steadily, although very slowly, it has come back to 14 3-4 cents. It is not responding as rapidly as the statistical position of the metal would indicate nor even as the consumption would call for, as there is an evident control of the price by the custom smelters, who are following out their policy of selling as much copper each day as they buy in the form of copper ore.

The producers of copper ore are not offering their metal, in fact, they have little to offer, as they are well sold through the balance of this year, and the market is really being made by the products of the custom smelters and the second-hand copper, the latter being in somewhat larger volume than usual.

OUTLOOK PROMISING

It is only when the consumers of copper come into the market to buy in larger quantities than can be furnished from either of these sources that we can expect a materially higher price for the metal. They lie back awaiting the chance for bargain copper, but will eventually be forced into the market to buy in order to produce the fabricated product. There is little likelihood of the predicted 16-cent copper before the end of the year.

The statistics bear out the promise of an excellent copper market and a rosy future for the industry, but they do not promise the time when these things will develop and it is slower than anticipated by the "bulls," because of the slow recovery of Europe industrially and financially, the uncertain status regarding the debts of the United States, the lack of credit of some of the European nations, the competition of customs smelters and second-hand copper, and the attitude of the consumers, who have had things their own way so long that they can't believe that the producers will continue on the wise policy of keeping production down to consumption.

That this is being done is indicated by the September production records. The world's production of copper in September is calculated by the American Bureau of Metal Statistics at 128,900 tons, including reports from countries that furnished about 97 per cent of the total in 1923 and 1924 and estimates of nonreporting countries. This compares with 126,500 in August, and 128,800 in July. The output for the nine months this year was 1,172,900 tons.

TARIFF TALK HIT

More noise is being made in the press at the present time regarding a copper tariff by Senator Ralph Cameron of Arizona. This may be regarded more as political bunk, due to the fact that Cameron is to be up for re-election next year, than an analysis of the economic conditions of the copper market. His statement, which has been given widespread publicity, is evidently intended as a popular appeal, for the writer has failed to observe any unanimity of opinion among copper producers as to the possible advantages of a tariff, in fact, but a few of the operators have expressed favorable opinions.

The public statement on the subject would give the impression that the copper industry was about to die because of African and South American competition, unless some Moses runs to their aid with protection and nothing is farther from the facts, for the position of copper in the United States is most excellent at the present time and facing a very prosperous future.

Contrasted with the statement of Senator Cameron, who failed to mention a tariff on copper when it would have temporarily done some good, a couple of years ago, is the recent statement of Walter Douglas, president of the Phelps-Dodge Corporation, in which he said that the statistical position of the metal is much brighter than it has been for several years.

DOUGLAS OPTIMISTIC

Mr. Douglas, who could never be accused of being a copper "bull," stated:

"This satisfactory condition is European demand, a greatly increased domestic demand caused by building in the eastern part of the United States, and by hydroelectric development and the curtailment of production to a point where it is under the demand figures.

"Electrification of railways in France, Switzerland and Italy, and the great program of hydroelectrical development in those countries is causing the augmented demand from Europe. German demand is also increasing steadily, although the financial condition of that country prevents the German demand from attaining its preper proportions.

"The increase in the demestic demand is caused by the building programs of New York, and the steady increase in building all over the East, as well as hydroelectric development all over the country. The greatest increase in the usage of copper in the building industry was the substitution of brass pipe for iron in plumbing installaton, elminating rust and scaling troubles."

Mr. Douglas also told of experiments now beginning on locomotive fireboxes which, if successful, will mean the substitution of copper for iron to provide a greatly increased demand for the red metal. The work of the Copper and Brass Research Association, a nonprofit organization of producers and fabricators for the promotion of the usage of copper, was beginning to produce most satisfactory results, according to the Phelps-Dodge president.

Trade Failure Liabilities in Sharp Decline

Despite an increase of 5 per cent in the number of commercial failures in the United States during the third quarter of this year, the liabilities show a reduction of 19 per cent from the amount for the corresponding period of 1924. Thus, 4663 defaults were reported to R. G. Dun & Co., in the three months recently ended, or 222 more than the 4441 failures of the third quarter of last year, but the indebtedness of $102,351,371 is nearly $24,000,000 below the $126,263,495 of the earlier year. The increase in number of defaults is due to the larger total among traders, while the decrease in the liabilities is accounted for by the much smaller amount for the manufacturing classification. Numbering 1171 and involving $41,437,598, the manufacturing failures compare with 1190 for $69,414,789 in the third quarter of 1924, but this year's trading defaults number 3268 for $44,411,175, against 3031, with an indebtedness of $38,907,023. Among agents, brokers, etc., failures numbering 224 are only slightly above the 220 similar defults last year, while the liabilities of $16,502,598 this year are less than the $17,941,683 of the third quarter of 1924.

WALL STREET PARAGRAPHS

Violent Break in Prices Not Surprising to Well Informed

[EXCLUSIVE DISPATCH]
[Copyright, 1925, New York Evening Post, Inc.]

NEW YORK, Oct. 19.—Reaction of a most violent character today came into the stock market and, while it was not a unanimous movement, the fact that neither rails nor oils, through which stimulants were administered, made much of an impression, was stamped indelibly on Wall street. Volume was heavy, but there was some paring down of market quantity once afternoon was well under way. That bankers had been conferring on the question of ending the wild movements among certain stocks, was imparted through this column late last week and, as though to lend emphasis to what was taking place, the final hour of the week furnished food for thought. The public participation in the market had been rapidly growing and today it was borne upon these participants that Wall street was by no means a one-way street. The motors were the chief objects of attack and for a time it looked as though a concentrated drive was forcing down values from their lately attained tops which, in majority instances, were records for all time. General Motors, White, Hudson and others of this category had suffered much when their lows for today were measured against recent peak prices. Other parts of the industrial group suffered, but losses were held to within more narrow limits. Efforts to offset the downward movement were made through the rails and, as Wall street had been casting covetous eyes in this direction, some advantage was gained. The oils, too, for a time were brought similarly into play, but the market at intervals showed halting signs which, to those on the constructive side of the market, proved somewhat disconcerting.

Possible Solution

That further improvement of facilities would be necessary in order that a steady run of big volume sessions on the stock exchange might be properly handled, was the observation of the street at large. Three-million-share days had been the subject of more than one prediction in the past year, and, with daily trading on the verge of such totals, the ticker was unable to keep up with the attendant speed. Thus, at one time today, General Motors appeared on the tape at about 127 when it actually was selling on the floor at 122. Studebaker was changing hands at 59, but the ticker still was grinding out some 62 transactions. In both stocks the specialists refused to handle more orders, so great was the avalanche of selling launched at their heads. The suggestion was forthcoming that if big volume were to continue, the order of the day, the stock exchange authorities might be forced to invalidate ticker service with the broad list of more than one thousand stocks divided between the two. In such manner, it was believed, the delays now difficult to prevent, might be obviated. Years ago a single instrument handled the entire stock exchange transactions, both stocks and bonds appearing on the same tape, but a forward step was taken when these two divisions were separated.

Need Staid Chains

Four-wheel brakes failed to work in the motor list and the severe pressure applied to a number of this group brought about a reaction more drastic than had been anticipated. Warning signals had been sighted late last week and, to those who heeded the day's developments, were by no means unexpected. General Motors naturally took the lead in the decline, as this stock had been foremost in the recent sensational rise. Its slump, furthermore, was accompanied by fluctuations as wide as those which featured the advance a few days ago. The street was filled with various rumors bearing on control of this corporation, but none of them was given much credence in usually well-posted quarters. A treasury position of $130,000,000 cash and the likelihood of an extra dividend before the end of the year were sufficiently interesting to stimulate popular speculative fancy, and once the gas was stepped upon General Motors had responded, but much more liberally than the most optimistic had hoped. That the pace had been too rapid was the consensus of opinion in the financial district and current reaction was regarded by many observers as no more than a step toward needed correction.

Auto Furnishes Heavy Loadings for Railroads

Widespread use of the railroads by the automobile manufacturers' total of 734,730 carloads of cars and parts in 1924, is indicated in the compilation of the National Interstate Commerce report made public recently by James S. Marvin, chairman of the conference of the automobile traffic managers.

A significant feature of the report is that western and southern lines had a large volume of business as well as those roads in the territory of the automobile factories. While the figure of 734,730 represents the original carloads, this becomes multiplied as different railroads handle the car, so that the sum total of carloads hauled by the different roads is 1,844,534. While western lines get but 108,000 original carloads, they nevertheless transported 307,000 carloads.

The total carloads handled represents only the automobiles, motor trucks, chassis, bodies, wheels and parts (except tires and chains.) It does not include gasoline, road-building material and other automotive freight.

The New York Central lines originate the greatest amount of motor-vehicular freight traffic, the total carloads carried by them being 372,152. The Detroit, Toledo and Ironton Railroad is second in point of tonnage carried with a total of 1,305,000 tons.

Stopped His Rupture

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely closed the rupture. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me, Eugene M. Pullen, Carpenter, 309-M Marcellus Avenue, Manasquan, N. J. Better cut out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.—[Advertisement.

HOW TO GET QUICK RELIEF FROM COUGHS AND COLDS.

At the first sign of colds, coughs, hoarseness, irritation or bronchial congestion take a teaspoonful of Ron-Emulsin, the soothing Emulsion of Oil Eucalyptus, Honey, Menthol with other valuable ingredients. Ronsulsin relieves coughs quickly as it does not contain opiates, chloroform or alcohol. Keep Ronsulsin always handy for the children, as it is also useful in relieving spasmodic croup and whooping cough. 50c bottles at all druggists.—[Advertisement.

CHEKIANG ARMY SEIZES NANKING

Troops of Manchu Leader Driven Over Yangtze

Chinese Rebel General at Moscow Conference

Japan Believes Meeting on Customs Probable

[BY CABLE AND ASSOCIATED PRESS]

SHANGHAI, Oct. 19.—Reports from Nanking, a treaty port 210 miles west of Shanghai, say the city has been captured by the Chekiang troops, as another phase of the campaign which resulted in the recent capture of Shanghai. After street firing, the troops of Chang Tso-Lin, the Manchurian leader, were forced to reatreat across the Yangtze River to Pukow, where they expect to be joined by reinforcements driven from Shanghai.

Thousands of coolies are rushing into Shanghai settlements seeking sanctuary from being drafted into the service of the Chekiang army. The Chekiang provost guard is seizing workers and recruits indiscriminately in Chinese territory. Those who escaped to Shanghai have been rendered homeless and destitute.

CHINESE GENERAL CONFERS WITH MOSCOW

[BY CABLE AND ASSOCIATED PRESS]

MOSCOW, Oct. 19.—Gen. Ku Kan-Men, Chinese revolutionary leader and head of the Cantonese army, arrived today to confer with soviet officials on political, economic and military matters.

He told newspapermen he intended to remain in Russia three or four months.

Gen. Ku was one of the collaborators of the late Sun Yat Sen, and is said to be an ardent advocate of a close rapprochement between China and soviet Russia.

JAPAN OPTIMISTIC ON CURTOMS PARLEY

TOKIO, Oct. 19.—Basing a degree of optimism on the fact that the delegates to the customs conference are now gathered at Peking with representatives of the Chinese Liberals among the Chinese delegates, the Japanese government still hopes that the meeting will convene on the 26th inst., although it admits that the news from China is giving grounds for great uneasiness.

Official dispatches from Mukden state there is no uneasiness there over the declaration of war by Sun Chuan-Fang, the Chekiang war lord, against Chang Tso Lin. Feng Yu Hsang, the Christian general, is not moving any troops or leaving his area and there are grounds for hope that the whole action may end in there being no fighting.

A strict censorship has been imposed on telegrams from China. Japan's stand has not been altered and Tokio has decided to despatch no war ships unless Japanese lives or property are endangered and it will not aid in the slightest degree either side.

ESTIMATE UP ON CROP OF COTTON

[EXCLUSIVE DISPATCH]

MEMPHIS (Tenn.) Oct. 19.—Reports under the average date of the 15th inst., from correspondents indicate that the crop is turning out better than expected, although unfavorably affected by weather conditions during the last weeks. The problem is to save what remains in the fields.

Weather conditions over the northern half of the central belt have been more unfavorable than elsewhere, but western sections also were unfavorably affected. Weather conditions in the Carolinas, Georgia and Alabama were favorable for harvesting the crop.

Alabama appears likely to be one of the surprises when this year's crop figures are all in. Louisiana is already assured of the largest crop since 1907.

In Mississippi it is largely a question of being able to get the crop out. Labor shortage is accentuated by the prolonged wet spell over northern sections which made it impossible to get into the fields. Arkansas is experiencing difficulty in harvesting, second only to Mississippi.

Oklahoma and Texas are having their troubles, too, with the weather, but are in better position to wait than either Mississippi or Arkansas, because the crop is later and the wet spell has not been so prolonged. However, rains in the West, locally at least, were much heavier than in central sections.

Missouri has suffered proportionately, probably more than any other State, while rainfall in West Tennessee, the most important cotton section of the State, was of almost daily occurrence.

Rains have greatly lowered the grade and resulted in serious loss of baleage.

A fair top crop seems to be in the making in many sections and rains have produced new growth in parts of Texas, but these "prospects" are subject to the frost date, and are being considerably reduced by worm damage. Weevils are reported as active in Texas.

Temperatures about the 10th and 11th inst. were dangerously low, but there was no frost damage worth the mention.

Dry weather is the crying need right now. A vast amount of irreparable damage has already been done.

Santa Barbara Highways to be Reconstructed

[BY A. P. NIGHT WIRE]

SACRAMENTO, Oct. 19.—Among the first reconstructive movements in Santa Barbara will be highway repairs under supervision of the State Highway Commission. However, the work will be financed with reconstruction funds, it was announced today by the commission.

The project in Santa Barbara will include the repairing and the widening of nearly three miles of highway. This work will be carried on in conjunction with other projects contemplated by the commission in the southern part of the State.

El ministro Mellon recomendó a la comisión de medios y arbitrios de la cámara una reducción de impuestos de doscientos cincuenta a trescientos millones de dólares.

La suprema corte se negó a estudiar la disputa sobre avalúo entre el Kansas City Southern y la comisión del comercio entre estados.

El Japón Optimista Respecto a la Conferencia

TOKIO, Octubre 19. — Basando su optimismo en el hecho de que ya los delegados a la conferencia aduanal se hallan reunidos en Pequín con aquellos delegados chinos que representan a los liberales, el gobierno japonés alimenta aún la esperanza de que el mitin tenga su apertura el 26 del corriente, por más que conviene en que las noticias que llegan de China dan lugar a mucha intranquilidad.

Los mensajes oficiales de Mukden manifiestan que no hay allí alarma por la declaración de guerra de Sun Chuan Fang, el Marte de Chekiang, contra Chang Tso Lin. Feng Yu Hsang, el general cristiano, no ha comenzado a movilizar tropas, ni ha salido de su zona, y hay fundamento para esperar que, después de todo, no haya guerra.

Se ha establecido estricta censura sobre telegramas procedentes de China. La actitud del Japón no se ha modificado, y Tokio ha decidido no despachar barcos de guerra, a menos que peligraren las vidas o propiedades japonesas, y el envío de los mismos no influyere en favor de ninguno de los partidos.

Probablemente Pasará Mitchell por Consejo de Guerra

WASHINGTON, Octubre 19.—Quizá mañana se anuncie oficialmente que el señor Davis, ministro de la Guerra, ha resuelto ordenar que sea juzgado en consejo de guerra el coronel William Mitchell, por insubordinación, consistente en haber lanzado cargos de ineptitud contra el ministerio de la Guerra.

Hoy se dijo en el ministerio de la Guerra que ya estaba completo el sumario relativo a la conducta de Mitchell, y será puesto en manos del ministro Davis, en un término de veinticuatro horas. Por más que el ministro no ha hecho ninguna declaración, dejóse entender que no tadaría en dar su decisión.

Se ha hecho saber que se pondrían todos los medios en el ministerio de la Guerra para que el coronel Mitchell sea juzgado con toda imparcialidad. Caso de nombrarse un consejo de guerra, no podría ser miembro de él ningún oficial cuyas opiniones hayan sido influídas por los ataques del oficial aviador al estado mayor y a algunos altos jefes militares y navales.

Se Acusa a la Señora Roberts de un Robo de Joyas

La señora Edna Roberts, esposa de uno de los directores de una compañía de vapores, compareció ayer ante el juez Wood a responder de una acusación de hurto mayor, relacionada con la desaparición de un valioso broche de diamantes en un baile que se efectuó en la Enramada de Cocoteros, del hotel Ambassador.

Aunque, al ser detenida, la señora Roberts negara enfáticamente haberse apropiado del broche, y a pesar de que no se haya encontrado la alhaja desaparecida, la defensa no presentó ayer prueba alguna, ni llamó a declarar a nadie.

Figuraron entre los testigos el señor y la señora E. G. McClellan, esta última, propietaria de la joya perdida en el piso del salón, el coronel A. L. Denman, administrador ayudante del hotel, James Smith, Jr., que fué balonista de la Universidad de Sudcalifornia, Mary Hawpe y Charles Eames. Los tres últimos comieron a la misma mesa.

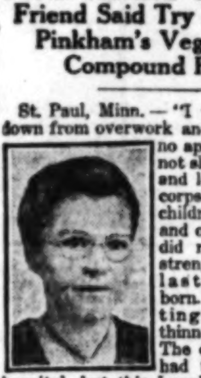
MRS. WILHELMY SAVED BY FRIEND

Doctor Advised Operation Friend Said Try Lydia E. Pinkham's Vegetable Compound First



St. Paul, Minn. — "I was all rundown from overwork and worry, had no appetite, could not sleep at night, and looked like a corpse. I have six children (five boys and one girl) and did not get any strength after my last baby was born. I was getting worse and thinner everyday. The doctor said I had to go to the hospital, but this I could not do on account of my family. So I went to a friend of mine and told her what the doctor had told me and she said, 'Now do as I tell you. Try Lydia E. Pinkham's Vegetable Compound as I have done. It helped me.' So I started taking the Vegetable Compound and I noticed after the first few bottles that I felt considerably better. After taking 9 or 10 bottles I got over my fainting spells. Everybody who sees me now notices the great improvement in my health. I am gaining in weight and strength and am feeling fine. Eat well and sleep good nights."—Mrs. MARY WILHELMY, 309 Duke Street, St. Paul, Minnesota.

A MESSAGE

To Suffering Humanity—To All Who Are Ill or In Pain

By GAYLORD WILSHIRE

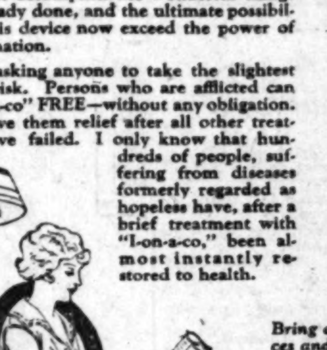
Internationally known as the originator of the Wilshire District and prominent in Los Angeles business affairs, Gaylord Wilshire, after a most searching investigation, has given his personal and financial support to "I-on-a-co"—a scientific therapeutic device which is accomplishing such amazing results in relieving pain and disease.

NOT so long ago, the medical profession was virtually helpless in overcoming many forms of disease and certain conditions of the body. And so things stood when the Rockefeller Institute, the Mayo Foundation and the great German Biologists announced important discoveries.

The theory on which "I-on-a-co" is based, embraces a synthesis of these late discoveries. It is an electro-magnetic therapeutic device which magnetizes the iron in the body, oxidizes the blood, and thereby eliminates poisons from the system.

At the time of the discovery of the restorative properties of "I-on-a-co" I had no idea that it would ever accomplish the wonderful things it has already done, and the ultimate possibilities of this device now exceed the power of my imagination.

I am not asking anyone to take the slightest financial risk. Persons who are afflicted can try "I-on-a-co" FREE—without any obligation. It may give them relief after all other treatments have failed. I only know that hundreds of people, suffering from diseases formerly regarded as hopeless have, after a brief treatment with "I-on-a-co," been almost instantly restored to health.



Lumbago Relieved

J. J. HENGEN, 733 N. Orange Drive, Los Angeles (Sept. 9th)—"Ionaco has produced astonishing results in restoring my strength. I can now work all day without tiring, whereas before I could hardly do any work without being immediately fatigued. My general health is much improved and lumbago in my back has been relieved.

Especial success has been obtained with "I-on-a-co" treatments in cases of rheumatism, arthritis, asthma, insomnia, nervous prostration, blood and skin disorders.

Nervous Prostration Helped

MRS. A. W. KIMBALL, 1763 Childs Ave., Los Angeles (Sept. 26)—Having been an active professional and club woman for the last ten years, I suffered a serious breakdown last spring and summer, and found instant help in Ionaco."

Dropsy and Arthritis Overcome

MRS. RAY GRIFFIN, 1210½ W. 1st St., Los Angeles (Sept. 11)—"I had dropsy and arthritis and could hardly walk. Also had indigestion. I tried all kinds of pills, powders and appliances—even had my teeth taken out —but my condition grew worse. Began Ionaco treatments Aug. 25th. My digestion quickly improved and in a few days became perfect. All swelling and pain has disappeared. I am indeed a new woman."

FREE TREATMENT

Bring a clipping of this advertisment to any of our offices and we will give you a free treatment of Wilshire's "I-on-a-co" without obligation. Or send for free booklet. To people unable to call at office, we will be glad to send a representative to give a home treatment—free.

HOLDING GROUP OFFERS STOCK

Americommercial Will Sell New Shares at $200

Capital Now Totals Nearly $6,000,000 Outstanding

Banking Offices Now Number Twenty-five

Directors of the Americommercial Corporation, the holding company for the Bank of America and the Commercial National Trust and Savings Bank, yesterday voted to increase the outstanding capitalization by 20,000 shares, which will be offered to stockholders of record the 21st inst., at $200 a share. The announcement was made by L. M. MacDonald, president of the company, following the meeting of the board.

The addition of the new stock, Mr. MacDonald stated, will increase the amount of shares in the hands of the public to approximately $6,000,000. Before the increase, the company had 39,747 shares outstanding.

Proceeds from the sale of the stock will be used for the purposes of expansion and the improvement of facilities. Mr. MacDonald plans to distribute some of the stock to customers of the controlled banks living in the communities outside of Los Angeles as part of a general campaign to obtain a wider distribution of ownership.

The Americommercial Corporation, through the Bank of America, the Commercial National Trust and Savings Bank, and the Community State Bank of Glendale, now has twenty-five banking offices in Southern California, of which the Bank of America has thirteen and the Commercial National eleven. It is represented in Los Angeles, Pomona, Torrance, Fullerton, Culver City, Anaheim, Santa Barbara, Huntington Park and Glendale.

The first financial statement showing the condition of the Americommercial Corporation as of the 1st inst., was also released after the meeting of the directors. The statement shows investments totaling $4,678,376.42, divided into $4,093,247.09 invested in bank stocks and $585,129.33 in business properties. Accounts and bills receivable amount to $671,697.71 and cash, $25,612.95.

Surplus and undivided profits are shown at $1,391,914.78 and total capital, surplus and undivided profits at $5,366,614.78.

Officers of the Americommercial Corporation are: L. M. MacDonald, president; Orra E. Monnette, chairman of the board; W. A. Bonynge, first vice-president; E. C. Abel, assistant vice-president, and P. R. Williams, secretary-treasurer.

The condensed statement follows:

STOCK VALUES APPRECIATE

Advances in Market Prices Nearly $100,000,000; Bank of Italy Leads; Julian Slump Costly

BY EARLE E. CROWE

As the boiling market on the Los Angeles Stock Exchange in the last few weeks demonstrates, there is more than one center of speculative activity in the country. Led by such stocks as American Can, Chrysler, General Motors and Studebaker the New York Stock Exchange has electrified the nation by the spectacular appreciation of values, but here in Los Angeles the performance of Bancitaly Corporation, Bank of Italy, Americommercial Corporation, Southern California Edison and Julian Petroleum justly entitles the Los Angeles market to boast of its prowess. From their low points of the year these stocks have soared all the way from 24 to 195 points.

In all, the appreciation in value recorded by the foregoing stocks totals nearly $100,000,000. Bank of Italy has turned in the best performance, having risen from a low for the year of 270 to a high last week of 465, a gain of 195 points. On the outstanding capitalization, this amounts to an appreciation of $34,125,000.

INVESTMENT TRUST UP

The Bancitaly Corporation, the investment trust fashioned by A. P. Giannini to purchase bank stocks, has treated its stockholders to an advance of 194 points to a high of 344. This amounts, on the basis of the number of shares outstanding, to an appreciation of $38,800,000.

Another holding company for banks, the Americommercial Corporation, has demonstrated its popularity in a convincing manner. This stock, at the high of 240 recorded last week, has advanced 99 points from the year's low, or an appreciation of $3,934,453. The total appreciation in the market price of the three bank stocks amounts to $76,859,458, and most of the advances were made last week.

The Edison stocks have quieted down somewhat, but while the activity was at its highest pitch, the speculators were in the market with both feet. The holders of Edison common, if they bought the stock at the year's low of 102 and sold at the peak of 146 3-4, realized 44 3-4 points. On the number of shares outstanding at the first of year, this is an appreciation of $18,632,691.25.

The 6 per cent preferred participated in the movement to the extent of 5 1-4 points and the 7 per cent preferred benefited by 7 3-4, which bring the total appreciation in the Edison stocks to nearly $20,000,000.

Julian Petroleum, in its sensational rise and slump, built up a huge market appreciation for the stockholders that quickly disappeared, as paper profits frequently do. The preferred scored a gain of 24 1-8 points from the low to the high of 30 1-8 and the comomn advanced 7 3-8 to a high of 10 1-4. Combined, the increased market valuation represented a total of $3,902,852.87.

JULIAN PROFITS FADE

Most of this, however, was wiped out Friday of last week when the Julian shares were subjected to a heavy selling attack—caused, it was said, by the withdrawal of the buying support responsible for the rise. The preferred slumped 20 points from the high and the common lost 5. To the stockholders, this meant a depreciation of $3,855,060 in the market valuation of the company's shares, although some of it was later recovered when the stocks rallied.

The activity in the three bank stocks came mainly in the last week. From the opening prices, Americommercial Corporation, Bancitaly Corporation, and Bank of Italy bounded to new highs that represented an appreciation of $24,814,035 in market price. Bank of Italy led with a gain of 55 points in the week, Americommercial Corporation, second with 42 1-2 and Bancitaly Corporation, third with 40 points.

In the amount of money that poured into the market and the volume of trading are two pertinent indices of the investment and speculative power in Southern California. Most of the leading stocks come within the high-priced category and each transaction represented a substantial amount of money. It all goes to show that the foundation of a broad speculative center is rising in the West.

DECREASE REPORTED IN EXPORTS OF GRAIN

[BY A. P. NIGHT WIRE]

WASHINGTON, Oct. 19.—Grain exports last week from the United States were 2,254,000 bushels, compared with 3,349,000 bushels the week before. Commerce Department figures today gave the following comparisons between last week's exports and those of the previous week: Wheat, 972,000 bushels, against 1,757,000 bushels; rye, 43,000 against 9000; oats, 53,000 against 534,000; corn, 249,000 against 199,000; barley, 937,600 against 50,000.

VOLUME OF ELECTRICAL SALES GOOD

All Sections of Country Reported Active; Buying on Coast Satisfactory

Activity in the electrical industry for the past week is reported from nearly all sections of the country. On the Pacific Coast business shows a fine volume, but without any spectacular orders, says Electrical World, New York. Power company purchasing is featured by many pole-line hardware orders in from 2500 to 15,000-piece lots, the San Joaquin district being particularly well represented. Railroad business is good, covering considerable galvanized conduit, roughing-in material and construction tools. Industrial business is rather quiet, but sale of from five to ten horsepower motors for pumping plants is holding up well. Electrical contractors are buying well. Radio business is exceptionally fine and is characterized by ever-increasing sale of higher priced sets, increased orders for rectifiers and batteries, and particularly by loud-speaker business. Illumination business prospects are good, among them the San Francisco War Memorial fixture contract, soon to be figured, which is estimated at $50,000. The prices still are decreasing in the smaller lots, but as a whole are steadier than last month.

In some territories, the number of small orders placed for motors, control equipment and general supplies has been very large. Much activity in outdoor substation work is noted and there is evidence that many orders for switching equipment will be placed this winter. Negotiations under way for building a tie line between properties in Pennsylvania, will, when consummated, require a large amount of switching equipment. Textile plants in the Southeast are showing more activity, but these in New England are not purchasing as well.

Electric furnace equipment is in good demand in New England and several large orders were placed for power equipment, motors, control apparatus and switches. Transmission line supplies are in good demand in that district, and several negotiations are under way for good sized orders of line equipment. Building operations continue to be an important factor in holding up the volume of business. Nearly $5,000,000 has just been appropriated for construction work by the New England Telephone and Telegraph Company. Sales in the New York district are in encouraging volume. A large manufacturer reports a considerable total increase in small orders for general purpose motors and control equipment, aggregating a large volume. There is an increasing demand for small motors for household appliances, and sales of switching equipment and transformers are active. No large power equipment orders have been placed so far this month, but some good business is in prospect.

In the Southeast business is active and industrial plants are purchasing. A textile company placed an order for motor equipment for electrification amounting to approximately $20,000, and the outlook is good for further similar orders from other companies. An expansion of business is predicted for the Middle West. Several sizable contracts have been let in that territory for construction work, and there is a good demand for distributing and switching equipment.

HAY CROP SHOWS LOSS

[EXCLUSIVE DISPATCH]

PHOENIX, Oct. 19.—Arizona's hay crop in 1925 will be about 574,000 tons, according to an official report, which is about 71,000 tons less than last year's product. The average yield is three and six-tenths tons to the acre, compared with three and eight-tenths last year. Cotton was estimated at 94,000 bales from 163,000 acres, an average of 276 pounds to the acre.

H. H. SMOCK HOME FROM BANK STUDY

Security Trust Cashier Investigated Canadian Branch System

Herbert H. Smock, vice-president and cashier of the Security Trust and Savings Bank, returned yesterday from an extended eastern trip that started with attendance at the convention of the American Bankers' Association at Atlantic City and closed with a study of the branch-banking systems in Montreal, Toronto and Detroit.

"The Canadians are old hands at the business of conducting branch banks and one feels like a freshman entering college when he visits their banks," said Mr. Smock in commenting on his trip. "The Royal Bank of Canada at Montreal and the Canadian Bank of Commerce at Toronto have nearly 1000 and 500 branches, respectively, and they have had them for many years. Naturally one can learn much when he goes to their offices and talks to the administrative heads. Their banks extend all over Canada.

"Although Detroit, likewise, has more branch banks than Los Angeles, one can enter the head office of a large Detroit bank more with the idea of exchanging ideas than of simply asking questions and listening to the answers as in a Canadian bank," continued the administrative head of the forty-three Security bank units. "As a matter of fact, I think any eastern city with branch banks can learn as much from a Los Angeles banker as the latter can from the eastern banker. For one thing, the western branch banker has more nearly approached the ideal of comparative independence of the branch manager in the conduct of his unit. For instance, the average branch manager here, I feel quite sure, is given more discretion and power in the matter of granting loans than the average eastern branch manager. There are any number of branch banks, not only in cities like Pasadena and Long Beach, where the branch manager passes very largely on loans, but in the residential sections of Los Angeles are to be found equally potent and effective branch executives. Here the branch manager can use the independence of judgment of the independent banker with the large resources of his head office to draw upon."

"Business seemed good throughout the East," declared Mr. Smock. "Canada has had several years of agricultural depression that has severely tried the Canadian bankers. But they have come through the ordeal with better success than our own bankers of the Northwest. Now they are in better shape with better crops and prices and are hopeful of the future.

"Every banker in the country who can get away is coming to Los Angeles next year to attend the convention of the American Bankers' Association."

London Daily Radio

BY WIRELESS—EXCLUSIVE DISPATCH

[Copyright, 1925, New York Evening Post, Inc.]

LONDON, Oct. 19.—Despite a tendency toward weakness in sterling and francs, financial markets were moderately cheerful today in response to the signing of the security pact last week.

Interest in speculative favorites was centered chiefly in home industrials, such as iron, steel and coal shares, while rubber stocks were again in demand in response to buying from your side.

Investments were neglected, but a steady tone prevailed. Chinese securities fell back in reflecting reports of chaotic conditions. The security boom in Wall street is attracting more than ordinary attention, for it is generally believed that, if the movement continues for any time at all, it will force higher money rates in London as well as in New York.

The fall of the French franc created increasing uneasiness over the financial situation across the channel. The international gold loan manifestly was only a partial success. The highest estimate of the returns is only slightly in excess of the amount of short-term bonds maturing in December, so that the net gain will be comparatively small.

Moreover, the note circulation is perilously high, while the total floating debt exceeds fifty milliards of francs. The French people seem unable to grasp the seriousness of their position, especially if the tentative agreement with the United States on funding the war debt is not ratified.

Although Belgium is to obtain certain temporary credits, it is understood there will be no loan until some stability has been arranged for the Belgian franc by necessary legislation.

BUSINESS TODAY

Inflationary Tendencies Still Are Discreetly Avoided, Government Price Figures Reveal, and Herein Lies Key to Expectation of Continued Good Business.

BY PAUL WILLARD GARRETT

[EXCLUSIVE DISPATCH]

[Copyright, 1925, New York Evening Post, Inc.]

NEW YORK, Oct. 19.—To a stability in commodity prices that has now been enjoyed since the war, the country owes much of its present prosperity. Violent fluctuations in wholesale values destroy the faith of industry in its own ability to turn raw materials profitably into manufactured goods. It is, therefore, reassuring to find such a compilation of price changes as the Bureau of Labor Statistics has just recorded for the month of September.

Wholesale prices stood lower in September than in August, so the government reports, but the difference between the average for the two months was slight. August prices averaged 160.4, taking 1913 as 100, and September 159.7. The net change for the month was four-tenths of 1 per cent.

FAR ABOVE PREWAR

For the last three months the bureau has found an average for wholesale prices that remains about 60 per cent above the prewar levels, and it is interesting to note that is precisely where the index for last January stood. Not since the end of 1924 has the index departed far from the level of prices prevailing now.

Still more interesting is it to observe that, except for agricultural commodities, prices have been fairly well stabilized for a year or more. It is true the Bureau of Labor Statistics index is up to 160 from about 149 a year ago, but the total has been raised almost entirely by gains in the farm products and food groups. Farm products from 143 have risen to 160, and from 148 food prices have moved also to 160. On the other hand, the cloth and clothing group, fuel and lighting, metal and metal products, building materials and house-furnishing goods all remain surprisingly close to where they were in September, 1924.

IRONED OUT

Different members of the price family do not now bear the same relationship to their respective prewar positions, but it is doubtful whether they ever will again.

The significant thing is that most of the serious price maladjustments, long stumbling blocks in the way of prosperity, have been corrected. The upswing in agricultural commodities, it cannot be too often repeated, has, by restoring the purchasing power of the farmer, given a sound basis for sustained improvement in the whole business structure.

Clothing prices still are high. At 189, or 89 per cent above 1913 levels, the bureau's cloths and clothing index stands relatively higher than any other group. Metals and metal products at 129 stand lower relatively than any other group in the compilation. Unquestionably such a spread is substantial, but it does not present the same difficulties that were offered by the prolonged depression in agricultural values.

INVESTMENT TRUST CERTIFICATES

TO bring the advantages of personal trusts within the reach of all is the purpose of Investment Trust Certificates.

IF an investment in the stocks of the California Oil Investment Trust had been made in 1916 (the shares of Pan-American, Pacific and Shell Union being added when first listed on the Exchange), in the same proportionate number of shares as are represented in this Investment Trust, the average cash dividends received to May 20, 1925, would have been at the rate of 11% per year; the appreciation in market value during this time would have been at the annual rate of 27%—making an average yield on the purchase of 38% per year.

Among the available high-grade stocks on the market there are few which hold a stronger position than that of the seven companies which have been chosen as specific collateral for these Investment Trust Certificates.

We recommend the purchase of these certificates for their
simplicity of form
diversity and security
marketability
and unusual possibilities for large returns and increase in value

COTTON UP ON REPORT OF FROSTS

Condition Prevailing Over Large Portion of Belt Brings Upturn

[EXCLUSIVE DISPATCH]

NEW YORK, Oct. 19.—There was heavy frost over the northern part of the western cotton States this morning and killing frost to freezing temperatures in Northern Oklahoma and the Panhandle region of Texas. The prediction is for freezing in that section tonight and that frost will extend through the northern part of Texas, all of Oklahoma, most of Arkansas and also in the northern part of Louisiana, Alabama, Georgia and Western North Carolina.

This development coming after the recent heavy rains, attracted a great deal of attention in the cotton trade among experienced cotton men today. There was a general disposition manifested to await further developments from this cold wave before pressing further sales on the market. Some covered shorts and others bought a moderate amount of contracts on the belief a good deal of damage would result to the crop in its present sappy condition from last week's very heavy rains over most of the Western and Central States in the belt.

It is early for heavy to killing frost to occur on the crop and, if this cold wave should continue a few days longer, it would put an end to further top crop development. These considerations offset the dull Liverpool market today and also the heavy week-end accumulation of southern hedge selling orders that appeared on both the New Orleans and New York markets. This cold wave has not come in time for calculations on the next government crop report which will appear at 11 o'clock, our time, next Monday morning as its reports are collected up to the close of the 18th inst. for its compilation.

Prices went up 15 to 20 points in the early trading. December holding at 21.72; January 21.03; March, 21.28 and May 21.45. After all of this advance had been lost from the usual profit-taking and some local speculative selling on the unsettled conditions the stock market displayed throughout the forenoon, there was a rally during the later trading.

Marshall, manager of the Culver City branch; J. B. Watts, manager of Calipatria branch; C. A. Jacobson, assistant manager of the Brawley branch, and Miss Brenda L. Moody, escrow officer of the Santa Barbara branch.

Mr. Stone, who is also an assistant cashier of the First National Bank of Los Angeles, under his new appointment becomes second in charge of the consolidated transit departments of the First National-Pacific-Southwest banking group.

Mr. Marshall, newly appointed Culver City branch manager, was formerly in the Alhambra branch. Miss Moody was formerly assistant escrow officer of the Commercial of Santa Barbara branch. Mr. Watts was formerly assistant manager at Brawley and Mr. Jacobson was manager at Calipatria.

Declare Tenth Dividend

Stevens, Page and Sterling yesterday reported that on the 15th inst. the directors of the Celite Company declared the tenth quarterly dividend of 1.875 per cent upon its class "A" and class "B" preferred stocks, and the fourth quarterly dividend of 25 cents per share, and also an extra dividend of 25 cents per share, upon its common stock, payable November 1, next, to stockholders of record on the 24th inst.

For the transfer of stocks the books of the company will be closed from the 24th inst. to November 1.

Railway Earnings Up

Gross earnings of the International Railways of Central America for the first nine months of this year amounted to $4,707,149, compared with $3,848,139 for the corresponding period of 1924, according to a statement issued yesterday by F. J. Lisman & Co. Gross earnings for September totaled $380,006, as against $372,729 for that month last year.

The balance applicable to the common stock for the first nine months of this year totaled $968,196, or the equivalent of $3.22 a share, compared with $738,717 for the period of last year, which was the equivalent of $2.46 per share. This is an increase of more than 30 per cent over the first nine months of last year.

General Motors Sales

Sales of General Motors cars by dealers to users in September totaled 83,612 cars and trucks, compared with 48,565 in September of last year. Sales of cars and trucks to dealers by the manufacturing divisions of General Motors in September totaled 86,379, the largest sales in any month in the history of the corporation.

The figures include the sale of passenger cars and trucks in the United States, Canada and overseas by the Chevrolet, Oldsmobile, Oakland, Buick and Cadillac manufacturing divisions of General Motors.

To Effect Merger

Negotiations are about completed by an eastern syndicate for the purchase and merging of Albert Pick & Co., of Chicago, and L. Barth & Son., Inc., of New York, according to a statement made by Albert Pick, Sr., president. Mr. Pick said:

"Under the plan, the common stock of Albert Pick & Co. will be exchanged for securities of a new corporation which will also acquire the assets of L. Barth & Son, Inc., of New York. The Albert Pick & Co. common stock will be taken at a price of $22 per share."

These two corporations are the largest manufacturers and distributors of hotel and institutional furnishings in the world, doing an aggregate volume in excess of $25,000,000 a year.

Elected Exchange Member

Paul B. Hammond, of the firm of Hammond Bros. Company, investment bankers, was yesterday elected to membership on the Los Angeles Stock Exchange.

WOOL TRADE BRISK

[BY A. P. NIGHT WIRE]

BOSTON, Oct. 19.—Wool trading today had a firm tone. Demand has broadened from the mill standpoint. Actual sales, however, have been possibly of lesser volume. Scoured wools are in a little more request. Prices on this stock are slightly firmer and a fair amount has moved to the mills. Good quarter blood territory combing wool is selling locally at 95c and above, clean.

GAIN MADE IN JULIAN PREFERRED

Common Also Higher; Balance of Oils Are Steady; Banks Off

Julian Petroleum preferred and common issues resumed heavy trading on the Los Angeles Stock Exchange yesterday and both recovered partially the losses of Friday. The preferred opened 1¾ points higher at 14 and staged a continuous advance to a close at 15½, net gain of the 3¼ points. The common stock opened 1 point higher at 6, sold back to 5¼ and recovered at the close to 6, the opening figure.

Los Angeles Investment attracted considerable attention, advancing 20 points to a high at 5.73 and closing at 5.70, a net gain of 17 points. Southern California Edison common opened 3½ points lower at 133½, but recovered to a close at 135, a net loss of 2 points. Edison 7 per cent preferred, after selling steady for the past several weeks at 111, moved up on the final transaction to 111¼. Edison 6 per cent preferred sold firm at 97⅛.

The bank list was fairly active and lower. Americommercial Corporation sold at 214 and 215 during the morning, broke to 211 in the afternoon and closed at 212, a net loss of 5 points. Bancitaly Corporation sold 2 points lower at 320, and Bank of Italy, after opening 1½ points lower at 440, declined further to a close at 439. Hellman stock was traded at 250.

Union Oil and Union Associates sold steady at 33½ and 33¼, respectively. Holly Development opened 9 points higher at 1.29, advanced to 1.30, but sold off at the close to 1.23 however, a net gain of 3 points. Standard Oil sold firm at 53 and Marine Corporation closed 2 points lower at 1.58.

The mining list continued active. Prince Consolidated declined ½ point to 5 and North Star added ½ to 3⅛, with a large list crossing the board. Oatman Gold and Big Jim closed at 3 and 12½ respectively. United Eastern was steady at 50.

United Acquires Oil Holdings in Northern Field

Current rumors concerning the acquisition of large additional holdings by the United Oil Company have been confirmed through the offices of Aronson & Co. and Bond & Goodwin & Tucker, Inc., underwriters of the company's recent bond issue.

Lands purchased aggregate 11,000 acres and involve the entire holdings of the California Oil Company and the properties controlled by the Dudley & Martin interests. All of these properties have been acquired in fee for considerations amounting to approximately $750,000.

Present production among these holdings amounts to about 6000 barrels per month from seventeen wells ranging in depth from 600 to 1100 feet. It is believed that production in these wells can be increased by drilling to the deeper sands. All of the properties are surrounded by the holdings of the leading producers of this field, including the General Petroleum, Standard and Associated companies.

The United Oil Company plans to establish a complete production organization in the field and to inaugurate an active development program. A great portion of the acquired property is situated on a formation west of and parallel to the old Lost Hills structure, located in Kern county.

Vessel-Borne Exports Show Gain for Year

[BY A. P. NIGHT WIRE]

WASHINGTON, Oct. 19.—Water-borne exports of the United States during the fiscal year ended last June 30, were 6 per cent greater than the previous year on the basis of figures prepared by the Bureau of Research of the Shipping Board. The aggregate was nearly 52,000,000 tons, an increase of approximately 2,850,000 tons.

The export tonnage to Great Britain and North Atlantic Europe was 2,400,000 tons in excess of 1924, the Mediterranean region exports increased 800,000 tons, those to South America, 600,000 tons; those to Caribbean region, 400,000 tons, and those to Africa, 200,000 tons.

Decreases were noted in the Far East trade, which was 1,200,000 tons less than in 1924, in the Mexican trade which declined 200,000 tons, and in the South American, France and Spanish trade, which decreased 150,000 tons.

NEW YORK CURB

[BY A. P. NIGHT WIRE]

Prices Unsettled

NEW YORK, Oct. 19. — Stock prices became unsettled in today's curb market, after an opening display of strength. Brokers reported widespread selling of certain curb stocks by professional traders in order to protect margins "on the big board." Good buying support was forthcoming, however, from most of the oils, Magnolia rallying 4⅛ points to 169⅛ and Vacuum showing a net gain of 1¼ at 97¼.

Heavy liquidation was apparent in a number of industrials. Ford Motors of Canada broke 15 points to 625 on a few odd-lot sales, and Miller Rubber (old stock) showed a net loss of 6½ at 223½. Electric Automobile Light dropped 5⅜ to 71¼, and Bordens, Centrifugal Pipe, St. Regis Paper and Victor Talking Machine showed net declines of 2 to 5⅛ points.

Reactionary tendencies also develop in the public utility group, the American Superpower issues, American Gas and Electric, National Power and Light, Power Corporation of New York and United Gas and Electric all falling back 1½ to 4 points. Lehigh Power securities showed independent strength.

Straus Financing in New York

NEW YORK! Today a metropolis so great that its magnitude defeats our comprehension. Tomorrow, inevitably a world-capital so titanic that its destiny defeats our imagination.

The city we see today did not grow merely from magic in the soil of Manhattan. New York is New York because of its strategic location as the nation's principal gateway; because the judgment and foresight of men grasped its potential advantages; and because the skill and labor of men were applied to their development.

Among those who have played a part in the building of present day New York is S. W. STRAUS & CO. From all over the Union the Straus Organization has mobilized money that has played an important part in the development of the city's best districts. On the roll-call of Straus-financed buildings in New York are such office buildings as the Pershing Square, Westinghouse, Canadian Pacific, National Association, the Fisk Building and the Straus Building itself; such hotels and apartment buildings as the Ambassador, the towering Shelton, 277 Park Ave., 580 Park Ave., all pictured above, and scores of other impressive structures in selected locations, where solid values and certain earning power assure sound investments.

Yet, perhaps, more important is the fact that tens of thousands of Straus investors have been able to profit with safety by the prosperity and growth of New York through the purchase of Straus Bonds—bonds tested and judged with the knowledge born of long experience—bonds that have proved themselves as sound and strong as the stone and steel of the great buildings that stand back of them, rooted deep in the flint and granite of Manhattan.

A booklet we have recently published tells the story of STRAUS PLAN Bonds and why they embody the four requisites of sound investment—safety, attractive yield, diversification and marketability. Write for your copy of "Forty-three Years Without Loss to Any Investor." Ask for

OIL NEWS

BY ROBERT J. PRITCHARD

California oil operators are about as practical a group of men as can be found anywhere in the world, and witch-sticks and doodlebugs get scant attention, but a crystal gazer who could look into the future of the oil business for about six months might arouse some interest just now. As a matter of fact, it would just about take a crystal gazer to do it, as the statisticians who make a business of telling fortunes through the medium of figures, are even more shy than usual about forecasting anything about the oil business for more than a week or two into the future.

A prominent operator yesterday ventured the assertion that in six months the industry would have to draw on storage to supply the demand for oil and gasoline. The present rate of decline, coupled with the probable demand six months from now, and the impossibility of a new field making any material difference in the supply within six months, are the factors upon which this prediction was made.

Other experts seem disposed to question this view of the situation.

"There are too many things to be taken into consideration to make any definite conclusions," said one statistical expert. "In the first place, our rate of decline is not constant, nor certain, and may be juggled by the closing in of producing wells, or the opening up of shut-in production, which is now considerably more than 20,000 barrels a day. It is true that new fields probably will not have much bearing on the situation six months from now, but there are a lot of districts, particularly in the northern fields, which may upset the production apple cart, by sudden and unexpected spurts of production. Ventura avenue and Maricopa Flats are just two of these potentional disturbers.

"Then the factor of shipments to the east coast is one that merits close consideration. These shipments depend upon the terms of contracts, which are an unknown quantity in themselves, and also upon the price of petroleum in the East, which is, in turn, dependent upon production in the eastern and midcontinent fields.

"All these things have to be figured in forecasting market conditions, and when the forecast is complete it is not much better than a guess, because none of the factors can be determined exactly, and any one of them can upset all the rest of the dope."

Work Held up

The Main Oil Company has not yet begun drilling its second well in the Wasco area, according to field reports, although the derrick was completed some time ago. The well is only a few hundred feet from the Main's gas well, which blew in several months ago, and caused considerable excitement in the district for a time.

The Main gasser blew in at about 4500 feet, and raged for several days before it could be controlled, and a sample of the gas obtained. According to oil men who examined the gas, it was a kind of marsh gas, which was inflammable, but of doubtful commercial value.

Build New Reservoir

The General Petroleum Corporation is building a new 2,000,000-barrel reservoir near Maricopa, according to field reports. The reservoir is being constructed in a small canyon which helps to form a natural tank. Completion of this tank will give the General Petroleum considerably more than 3,000,000 barrels of storage capacity in the Maricopa district. One reservoir of about 1,250,000 barrels is already full. It is said that the General Petroleum plans to store only the heavier gravity crudes in the Maricopa reservoirs, transporting the higher gravity oil to its Los Angeles plant by pipe line.

Builds Gas Plant

The Pacific Gasoline Company is completing the construction of a gasoline absorption plant near Maricopa, which is expected to handle the gas output of the Pacific Oil Company in this district, according to field reports. The new plant will have a capacity of about 3,000,000 cubic feet a day, but will be capable of expansion to care for additional gas, if this should become necessary.

Official Reports

Receipts of California oil at Atlantic and Gulf Coast ports for the week ended the 10th inst., totaled 240,000 barrels, a daily average of 34,286 barrels, against 81,000 barrels, a daily average of 11,572 barrels for the week ended the 3rd inst., and a daily average of 45,464 barrels for the four weeks ended the 10th inst.

Imports of petroleum at the principal United States ports for the week totaled 1,201,000 barrels, a daily average of 171,572 barrels, compared with 587,000 barrels, a daily average of 83,858 barrels for the week ended the 3rd inst., and a daily average of 148,572 barrels for the four weeks ended the 10th inst.

Wheat Prices Turn Down on Weak Support

[EXCLUSIVE DISPATCH]

CHICAGO, Oct. 19.—The wheat market showed a heavy undertone from the start, and while there were numerous strong rallies, the finish was about the bottom, with net losses of 1⅝@2⅛c, with May leading. New December closed at 1.45⅝@1.45¾, or 2⅛c over May, while old December was 1.44⅛@1.44⅜ and May 1.41⅝@1.41½. Corn lost ⅝@1c, with December 75⅛c and May 80c. Oats were off ⅛c and rye 1⅝@1⅝c.

Unresponsive cables from Liverpool, where prices were unchanged to ⅝d lower, led to some selling early. Private cables from England reported big resales of Russian wheat at Manchester. There also were reports of rain in Southern Australia where most needed, and Australia was credited with selling new May here. Cold weather in Buenos Aires, with an advance of 1⅛c in that market, had little effect on values here, nor did a decrease of 1,792,000 bushels in the domestic visible supply. The latter aggregates 46,095,000 bushels, against 85,380,000 bushels last year.

Weather conditions in the Canadian Northwest were much more favorable and threshing has been resumed at some points. Winnipeg, however, showed more strength than Chicago and lost only 1⅛@2c for the day, although No. 3 northern went to 5c under Chicago, a full delivery basis. Export demand was reported as slow, with sales of 400,000 bushels, largely durum. Cash wheat basis here was unchanged to 2c higher, with No. 1 hard winter sold at 13⅝c over December.

Houses with northwestern connections and local interests were fair sellers of futures here, and the market weakened quickly after shorts had finished covering. The late rain reports from Australia caused a sharp break toward the last and the heavy close. The aggregate trade was not large and the market easily influenced.

Coarse grains were dull and easier, the action of wheat being the main influence. Local traders were on the selling side of corn, and with only moderate support, the decline was easily attained. Clear and cold weather over the belt was favorable for conditioning the new crop, and while offerings of new to arrive were small, old is coming forward on a fair scale, and the spot basis was ½c lower to ½c higher. New No. 4 yellow sold at 79@80c, or 3@4c over December. Oats had a range of ⅛@⅛c. Visible supply of corn decreased 442,000 bushels and oats 306,000 bushels for the week. Scattered longs sold rye, which more than offset buying of December by a house with eastern connections. There were unconfirmed reports of a better export demand at the seaboard.

Houses with export connections bought October and December lard early, causing a bulge, but the market broke badly as soon as the buying ceased and the close was about the bottom, with net losses of 15@20c, with October leading. Ribs were 30c higher and bellies unchanged.

LOS ANGELES MARKET

CATTLE—Yesterday's estimated run of 1000 was swelled by approximately 400 head held over from Saturday's market. A fair assortment of the better grades of steers and cows was offered, these kinds being picked up readily, while the in-between grades were somewhat slower. The general market as a whole was active, with prices generally steady to strong. A three-car string of northern steers averaging 1144 pounds topped at 8.50, while the bulk of steers, including three loads of Californias, turned from 7.50@8.25, while common kinds, including southwesterns, cashed from 6.25@7.00, with a few very thin kinds down to 5.00.

A load of good 1040-pound northern cows topped for their kind at 5.85, while heifers topped at 6.00, this price being paid for a load of 863-pound northerns. The price spread of 5.00@5.70 took in the bulk of fat she stock, mostly northerns, while a few southwestern cows turned from 4.00@4.75. Canners and cutters were in active demand at strong price, the bulk clearing from 2.25@3.75. The fairly liberal supply of bulls met ready outlet at about steady values. Three loads of range bulls cleared from 4.35@4.65, with others bolognas sold up to 5.00, with a few beef bulls from 5.25@5.35.

CALVES—Demand for calves was not overly active; however, the supply was small, and most sales were made around the steady mark. The general run of southwesterns cleared from 7.50@8.25, with a few at 8.50, while a load of 200-pound Utah calves made 8.75. A few local milk fed calves turned from 9.00@9.50, while common kind and heavies sold down to 5.00.

HOGS—Rather active demand cleaned up yesterday's small supply at prices called generally 15@25c lower than Friday. Yesterday's top was 14.00, while the bulk of desirable weight butchers cleared from 13.85@14.00. Medium weight butchers averaging 240 pounds, scored 13.60, with a few pigs down to 13.00. The general run of packing sows sold around $12.00, with rough kinds down to $11.50.

SHEEP—Yesterday's lamb supply consisted of a deck of 71-pound Nevadas in feeder flesh at 12.00, sorted 10 per cent at 11.00. Common ewes out of the load brought 4.00. Good and choice lambs are quotable from 13.50@14.50, with choice light weight ewes up to 8.00.

YESTERDAY'S QUOTATIONS

MOTORS HIT BY SHARP DECLINE

Mack Truck Notable Strong Spot in List

Rails Touch Highest Level Since War Days

Marked Irregularity Shown in Industrial Group

[BY A. P. NIGHT WIRE]

NEW YORK, Oct. 19.—Another sharp reaction in the motor shares and a sustained investment demand for the rails, the general average of which touched the highest level since the war, were the outstanding characteristics of today's confused stock market. Total sales fell just short of 2,600,000 shares, compared with 2,702,600 on Friday, which were with the exception of one day in December, 1916, the largest in nearly twenty years.

Conclusive movements characterized the trading in motor sales. There was a large accumulation of week-end buying orders in these issues, the execution of which ran prices up 1 to 5 points. The buying soon exhausted itself and bear traders launched another vicious attack against that group. General Motors fell from 130⅛ to 121⅛, Fisher Body from 115 to 108, Hudson from 97 1-8 to 91, Studebaker from 63 1-4 to 59, and Dodge from 43 1-4 to 37 3-8. A subsequent rally wiped out part of the earlier losses, General Motors closing at 124 1-4, for a net loss of 2 5-8; Fisher Body at 109⅜ for a net loss of ⅛; Hudson at 93 3-4, off 2 3-4; Studebaker at 60 1-4, off 3 1-8, and Dodge at 40⅛, off 2. Mack Trucks were independently strong, closing nearly 10 points higher at 220 7-8.

RAILS ADVANCED

Meanwhile, there was persistent accumulation of the rails. New York Central was run up 3 points to 127 1-4, the highest price in fifteen years. Louisville and Nashville jumped over 5 points to 124 1-4, also a new top, and Atchison, Atlantic Coast Line, Baltimore and Ohio, Jersey Central, Lackawanna, Kansas City Southern, "Katy" preferred, Nickel Plate, New Haven, Norfolk and Western, and Reading showed net gains of 2 to 5 points. Buying of these issues was based on reports of high current earnings and speculative expectations of higher dividends.

The general industrial list developed marked irregularity.

American Can soared 76 points to 245 and Associated Dry goods, Foundation Company, International Paper, Frank G. Shattuck, Worthington Pump and Wright Aero closed 2 to 4 points higher. In addition, a few issues, such as Marland Oil, Howe Sound, American Safety Razor and Tidewater Oil preferred, were pushed up to new high prices for the year.

MONEY EASES OFF

Call money renewed at 5 per cent and then dropped to 4½. Time money rates also relaxed sixty to ninety days funds being quoted at 4½ to 4 3-4 per cent instead of on a flat 4 3-4 per cent basis. Commercial paper rates were unchanged.

Weakness of French francs, which broke below 4.40 cents to a new low level for the year, featured the irregularly lower foreign exchange market. Demand sterling held firm at $4.83 3-4, but Italian lire which appeared to be "pegged" last week above 4 cents, dropped over 5 points to 3.98½ cents.

The Scandinavian exchanges moved within rather narrow and irregular limits. Brazilian exchange sold close to the year's high.

METAL MARKETS

[EXCLUSIVE DISPATCH]

CLEVELAND, Oct. 19.—Daily Metal Trade today says: "Beehive coke still holds absorbing market interest. Increasing shortage of anthracite coal in the East and a greater call for substitutes, bring almost daily advances in prices. Sales of the past few days have been made by Pittsburgh, Connellsville and Uniontown interests at 7.50 a ton, the maximum applying on small quantities. Pig iron moves with greater freedom in the Middle West and prices show much more strength. Full finished automobile sheets have been marked up $2 to $3 a ton to a range of 4.35@4.40c. Mill base valley operating schedules are maintained at 85 per cent of capacity and orders are 20 to 30 per cent above the September rate. Copper is firmer with producers, electrolytic at 14.50@14.62½c delivered, Connecticut Valley; tin spot straits, 62.50@62.62½c. Lead, St. Louis, 9.23@9.30c. Zinc, St. Louis, 8.35c."

Metal Prices

[BY A. P. NIGHT WIRE]

NEW YORK, Oct. 19.—Copper dull; electrolytic, spot and futures, 14⅝@14⅞. Tin firm; spot and futures, 62.80. Iron firm; No. 1 northern, 20.50@21.00; No. 2 northern, 19.50@20.00; No. 1 southern, 20.00@21.00. Lead steady; spot, 9.50@9.60.

Zinc steady; East St. Louis, spot, 8.35; futures, 8.20@8.35. Antimony, spot, 17.25.

BUSINESS PHILOSOPHY

BY WILLIAM FEATHER

WHAT holds men to their jobs?

What is the peculiar fascination in certain lines of work that outweighs the hardships and comparatively low pay attached to them?

Let us call it the lure of the job.

Clothe a job with the thrill of adventure, let it contain the element of personal risk and danger, or let it give the opportunity to express power and authority—and men will stick with it.

There are good points about every job. Fortunately, there is a job for every temperament. It goes without saying that a man in love with his job gets more out of life than one who merely works for the money in it.

Net Earnings of Fox Film Company Huge

Net earnings of the Fix Film Corporation for the six months ended June 27 last, amounted to $1,212,024, according to a statement issued by the company yesterday. This is equivalent to $7.27 a share on 166,667 shares, the average amount of common stock outstanding during that period.

The company now has outstanding 400,000 shares of Class A common stock and 100,000 shares of Class B common stock. Both classes are identical, with the exception that the control of the campany is vested in the Class B stock.

The balance sheet of the Fox Film Corporation and subsidiaries, as of June 27 last, shows total assets of $25,016,344, of which more than three-fifths, or $15,629,728, represents current and working assets. Current liabilities to the foregoing date were $894,336, so the current assets of the company are more than seventeen times current liabilities. The company also had on hand $8,200,000 in cash.

JULIAN

Petroleum Corporation

The activity in this issue has been one of the most spectacular market plays occurring on the local stock exchange for some time. Rumors of all kinds have more or less created the idea, in the minds of some people, that A. C. WAGY & CO. were a party or factor in the "bucketing" or "bearing" of Julian shares. This we absolutely deny and in order that the public may better understand our position we intend to publish the certificate now being made by the auditing firm of THOMAS & MOORE, Certified Public Accountants, who have been called in by us, at our expense, to submit to Mr. O. C. Williams, vice-president of Seaboard National Bank, evidence that we were "long" Julian Petroleum Preferred as of Oct. 15th, 1925.

We are grateful to Mr. S. C. Lewis for his advertisement, containing a letter written to us, occurring in yesterday's papers, in which he accepted the above firm as auditors in substitution for Price Waterhouse & Co., who were unable to make an immediate audit of our books. This eliminates the only technicality which seemed to be the single reason why we would not get the $10,500.00 immediately upon completion of the audit.

One hears so much, particularly by lending an eye to the news columns of the daily papers, to the effect that various brokerage concerns have sold out intentionally or otherwise, their marginal accounts because of the drop in the price of Julian preferred. We have not, except with the consent and instructions of our customer, closed out a single marginal account on Julian Petroleum during the past several days. We stood to lose many thousands of dollars through our desire and wish to be fair with our clients—however, the recovery of the market has substantiated our faith and belief that Julian preferred would not remain very long at or around the price of $10 or $12—and judging from the volume of buying yesterday it appears that the public still holds faith and confidence in this issue.

MARGINAL ACCOUNTS

We will accept marginal accounts in small blocks from our customers who desire to purchase "JULIAN" issues by paying one-half (½) cash and balance carried on regular marginal rules. Interest charged on balance due. You can take up your account by payment in full, or sell out same at the prevailing market at any time during business hours; however, the buyer must keep the account margined to 50% of market value at all times.

Closing quotations yesterday on the Los Angeles Stock Exchange, were as follows:

	Bid	Asked
Common	$ 6.00	$ 6.50
Preferred	$15.50	$15.62½

Efficient executions and prompt settlements are the basis upon which we solicit your business. If you "doubt" us—then come in and give us a chance to convince you that our services are unexcelled.

GOOPS!

A Daily Lesson in Manners for Children

—BY GELETT BURGESS—

HELPING OTHERS.

I like to see a boy who's glad
To help his mother or his dad,
Who'll help a friend, if necessary
In short, who is obliging, very.
And, as he's *not* a Goop, he'll learn
His friends will help *him*, in their turn.

ACTRESS SUES FOR HALF MILLION BALM

[BY A. P. NIGHT WIRE]

PITTSBURGH (Pa.) Oct. 19.—A breach-of-promise suit, in which Miss Anne Caldwell of New York City, a newcomer in theatrical circles, asks for $500,000 damages from John W. Hubbard, wealthy Pittsburgh business man, was filed in United States District Court here today. Miss Caldwell charges that in January, 1922, the defendant entered into an oral agreement with her to be married within a few months and on or about September 10, 1924, Miss Caldwell asserts, he repudiated his agreement. Hubbard, a widower, is the president of the Hubbard Pressed Steel Company. He is widely known socially.

PLANE TO AID EXPLORATION

First American Expedition Into Wilds of New Guinea Will Be Led by California Man

[BY A. P. NIGHT WIRE]

CHICAGO, Oct. 19.—The first American expedition to venture into the unexplored wilds of Dutch New Guinea will leave tomorrow by airplane for San Francisco, it was announced today by Stanley A. Hedberg, historian of the party.

M. W. Stirling of Berkeley, Cal., former assistant curator of ethnology of the National Museum, will command the expedition, which will make a study of the land and the races of the Pygmies reputed to be very ancient and still as primitive as in their earliest history.

The use of an airplane, specially designed for the expedition, is expected to be of value in reconnoitering the Dutch New Guinea jungles.

DETAILS OF TRIP ARE OUTLINED

[BY A. P. NIGHT WIRE]

BERKELEY, Oct. 19.—Details of the proposed exploration of the interior of Dutch New Guinea for a study of the Pygmy tribes there were given out here today by M. W. Stirling, Amazon explorer and anthropologist, who will lead the expedition.

The airplane to be used has been equipped with both landing-gear and pontoons for use on land and water. It will have a powerful radio outfit and will carry accommodations for five men and a large amount of supplies. Stirling expects that the expedition will last a year.

The party expects hostility on the part of the Pygmies and neighboring tribes, whose lands have never known white visitors. The explorers, therefore, will carry arms and ammunition, and will remain in radio touch with Dutch government officials at Batavia. A military guard has been offered the party and will be called upon if needed.

Stirling does not expect to bring back any living specimens of the practically unknown New Guinea tribes but he expects to gather a great deal of information regarding them.

Upon its arrival here, the airplane will be crated at Crissy Field for shipment. It will be reassembled at Batavia.

AGED RESIDENT OF REDLANDS KILLED

[EXCLUSIVE DISPATCH]

REDLANDS, Oct. 19.—Thomas McCabe, 81 years of age, and for almost forty years a resident of Redlands, died at the hospital today of injuries resulting when struck by a street car early last evening. He suffered a fracture of the skull and was never conscious after the accident. McCabe was a gardener and lived with Mr. and Mrs. B. S. Stephenson, 454 Cajon street.

NAME AMERICANIZED

[EXCLUSIVE DISPATCH]

PRESCOTT (Ariz.) Oct. 17.—Superior Judge J. J. Sweeney has authorized Americanization of the name of Jacob Petter Wegrzyn, who will be known hereafter as Jacob Peter Wagner.

TRIO ACCUSED OF FRAUDULENT DEAL

Men on Trial

Councilman Downs (top,) Jack Murphy and Councilman Fitzpatrick (bottom.)

DOWNS DENIES HE TOOK BRIBE

Asserts $1000 Accepted as Campaign Donation

Councilman on Stand Gives Tunnels Case Story

Says Hodges Told Him That "Workman Got $1000"

Former Councilman Charles Downs yesterday afternoon told the jury in Judge Hahn's court his version of the circumstances under which he, with former Councilman Fitzpatrick, accepted $1000 each from William C. Hodges, Jr., former general manager of the Tunnels Transportation Company.

Downs, now on trial on a bribery charge with Fitzpatrick and Jack Murphy, asserted go-between, took the stand at about 3 o'clock yesterday afternoon and under the questioning of Chief Defense Counsel White, assisted by Attorneys Emme and Rosecrans, detailed to the jury of nine women and three men where he first met Hodges, how and when he and Fitzpatrick accepted the money, and then how four District Attorney detectives rushed into his office in the City Hall and placed him under arrest.

In his direct examination former Councilman Downs denied accepting the money as a bribe, and denied that it was paid to him by Hodges for favorable action on the franchise of the Tunnels Transportation Company, about to come up in the City Council for vote. He also stated that before he accepted the money he notified Hodges that it would have no bearing on his action in the City Council when the franchise came before that body.

WORKMAN MENTIONED

Former Councilman Downs created a mild sensation during his direct examination when he stated that Hodges told him just before he paid over the money that he had "fixed all of the other Councilmen and given Boyle Workman, president of the Council, the same amount." Downs also testified that Hodges told him that it was "very expensive" to get his franchise through the Council.

During his direct examination Downs testified that he first met Hodges the day before the money was passed. He declared that he next met the general manager of the transportation company on the morning of the day of the arrest and again at noon of the same day when the money was paid. Downs throughout his testimony declared that the subject of campaign expenses, for which he asserts the money was paid, was first brought up and discussed by Hodges and that the money was urged upon him and Fitzpatrick by Hodges.

Under a fire of cross-examination by Chief Trial Dep. Dist.-Atty. Fricke and Dep. Ryan, former Councilman Downs was confronted by Mr. Fricke with a sworn election campaign expense blank signed by Downs showing that he had spent something less than $700. Downs explained the statement by testifying that many unpaid expenses came to his attention after he had sworn to the statement.

CONTINUES TODAY

With the close of the court day Mr. Fricke was just swinging into the main portion of his cross-examination and probably will keep Downs under a fire of questions for the greater part of the morning. After Downs, the other two defendants will take the stand.

During the morning session of court the prosecution closed its case with the testimony of Detectives King, Clayton, Wilcox and Reimer. These four men arrested the two Councilmen and recovered the $2000 which had been paid out by Hodges. The bills, the testimony shows, were given by the investigators to Hodges and were marked.

Character witnesses occupied the witness chair during the greater part of the day after the prosecution had closed its case and after the defense had made an effort to read into the testimony asserted records showing that Hodges is a defendant in several criminal actions now on file in the local courts.

Rex. B. Goodcell, Collector of Internal Revenue, the first character witness called, testified that he knew Jack Murphy and that he had a good reputation. He also admitted when questioned by Attorney Fricke, that he is a candidate for Governor.

SHERIFF ON STAND

Mr. Goodcell was followed by Sheriff Traeger, who testified for Fitzpatrick, and before leaving the stand, denied any intention of running for Governor. The Sheriff

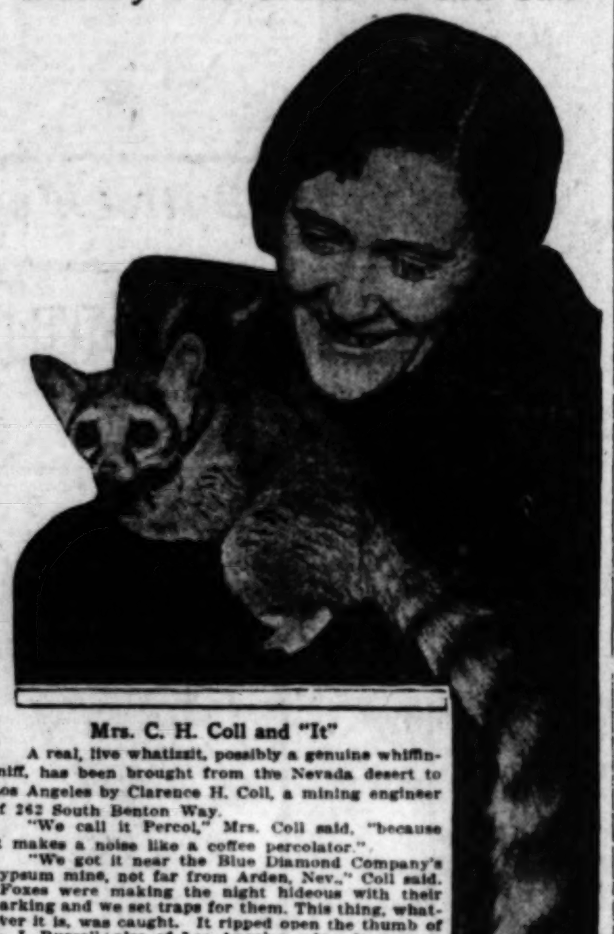
ONLY WHATIZZIT IN CAPTIVITY

Classify This Critter—if You Can



Mrs. C. H. Coll and "It"

A real, live whatizzit, possibly a genuine whiffinsniff, has been brought from the Nevada desert to Los Angeles by Clarence H. Coll, a mining engineer of 262 South Benton Way.

"We call it Percol," Mrs. Coll said, "because it makes a noise like a coffee percolator."

"We got it near the Blue Diamond Company's gypsum mine, not far from Arden, Nev.," Coll said. "Foxes were making the night hideous with their barking and we set traps for them. This thing, whatever it is, was caught. It ripped open the thumb of L. J. Russell, also of Los Angeles, when he took it out of the trap. It's not a civet cat—we've had two of them. It doesn't have an odor like a civet cat and otherwise is different. We had it out to the Selig Zoo this afternoon and they couldn't tell what it is. If anybody knows I'd like to hear from them.

The little animal is quite tame now and Mrs Coll says it is a birthday anniversary gift. It is of a silver gray color. Raw meat ,bananas and grapes are on its list of delicacies.

Among the things it does not like are reporters and flashlight photographers.

WOODRUFF MARRIAGE DISCLOSED

Realty Operator Wed to Mrs. Olive B. Bronson in North Six Months Ago

S. H. Woodruff, real estate operator and developer of extensive home areas in the Los Angeles territory, was married secretly six months ago to Mrs. Olive Banker Bronson of this city, it was learned yesterday. The marriage took place in Northern California but no public announcement was made and many of Mr. Woodruff's most intimate friends were ignorant of the news last night.

S.H. Woodruff

Mrs. Woodruff, who is a daughter of W. E. Banker of Chicago, but who has made her home in Los Angeles for several years, "confessed" last evening.

"But there's nothing to tell," she protested. "We have been married six months, and there ends the entire story."

Mr. and Mrs. Woodruff are living in a new home recently built by Mr. Woodruff at 628 South Rossmore avenue. Mr. Woodruff is expected back in the city today from a business trip to Mexico.

MIX CLOSES IN $200,000 HOME DEAL

Buying of Beverly Hills Estate Taken to Show Family on Good Terms

Tom Mix yesterday concluded a $200,000 deal for the purchase of the Fred Porter estate at 1010 Benedict Canyon Drive, Beverly Hills. The gesture was considered by Hollywood as strong proof that the Mixes now are on excellent terms following their brief separation and subsequent reunion.

Tom Mix

The actor paid down 150,000 yesterday for the home, negotiations being carried on by the George E. Reau Company. A first payment of about $50,000 was made by Mix a number of months ago.

According to present plans, Tom will at once begin improving his property and expects to move in with Mrs. Mix and their daughter Thomasina at an early date.

PAY FOR POLICE SCHOOL

The City Council yesterday authorized the payment of $2640 to the California National Guard to defray extra expenses to which the guard was put by reason of the use of Exposition Park Armory for the city's police school.

FEET EXPRESS IDENTITIES

Local Clubwomen Exhibit Tootsies and-er-Hose, as Members are Asked to Guess Who's Who

BY MYRA NYE

The subject of debate at the Woman's City Club yesterday was "Club Feet." By their feet you shall know them or you ought to. That was the contention and the understanding of women was the outstanding feature of the whole club program.

Eight of the most prominent members of the club, three of whom are grandmothers and the youngest of whom is the mother of a 17-year-old daughter, exhibited their "club feet" yesterday behind a curtain. They told no tale of age and years. Measured inch by inch and foot by foot they were all good, but by no means a yard wide. The stunt was to guess whose feet they were.

Mrs. Ida Koverman, chairman of the day, announced that every pair of feet on exhibition yesterday had been on the platform of the club within the last three weeks. Every member had an equal chance at guessing.

"In these days of women's feet and feats," said Mrs. Koverman, "every member of the club should be as well acquainted with the contours of feet and ankles of their officers as they are with their faces. For feet express character as much as faces."

Two of the feet did a step or two of the Charleston behind the curtain. Three pair walked very se-

PACIFIC AMITY BODY ORGANIZES

Association Seeks to Foster Mutual Understanding

Pan-American Friendship is Objective of Group

Dinner and Business Meet Held at Auditorium

Completion of the organization of the Pan-Pacific Association for Mutual Understanding, recently formed in Los Angeles, was effected last night at Philharmonic Auditorium. Preceding a short business meeting and entertainment program, dinner was served to 200 guests.

Founded on the idea of obtaining a better understanding between the peoples of the Pan-Pacific countries the move is purely an educational one, to be accomplished through the interchange of information relating to home and civic life around the Pacific.

VIEWS OUTLINED

"South Americans view natives of the North American continent with fear and distrust," Walter J. Field, for many years a resident of Costa Rica, told members of the association. "Successful politicians in both Central and South America hammer the Monroe Doctrine," he said, "and natives of those countries little understand our traditions, as we do theirs."

Mr. Field related several interesting facts concerning life and customs in Costa Rica and asserted himself as much in favor of the work outlined by the association in seeking a better understanding between the peoples of the Pan-Pacific countries.

Other speakers of the evening were Dr. Walter Dexter, president of Whittier College, who stated Southern California is a representative of all the States of the Union and the races of the world, and who lauded the aggressiveness and good will of American democracy; Garner Curran, who gave an interesting talk on China; Mrs. Carlos Hardy, secretary of the association; C. O. Hagen, who spent eight years in school service in the Philippine Islands, and who told of conditions there; M. M. Gordon, president of the Canadian Club; Maj. A. J. Crozier and A. Schinulian, who gave a talk on Russia and Siberia. Remarks also were given by Mrs. Alice Stebbins Wells, first vice-president of the association, and Mrs. Clyde Mowder, treasurer and membership chairman.

COMMITTEES FORMED

Committees formed consist of an American citizen resident of Los Angeles as chairman; the Consul of the foreign country, a native of that country residing in Los Angeles and a native of that country residing in his native land. All officers of the association must be American citizens. The association has set its goal at 2500 members during the first year.

As a part of the entertainment program, Amado Fernandez, Mexican tenor, sang.

Officers of the new association are: president, Mrs. Nellie G. Sinclair; first vice-president, Mrs. Alice S. Wells; second vice-president, Mrs. Carlos Hardy; third vice-president, Arnold Kruckman; secretary, Mrs. Paul R. Lupo; treasurer, Mrs. Clyde Mowder; custodian of funds, J. Forsyth.

Venice to Hold High Carnival on Halloween

VENICE, Oct. 19.—According to announcement today by D. J. Davis, Sr., president of the Venice Amusement Men's Association, plans for the city's largest Halloween celebration almost are completed. The last "big party" of the year will be given on the Venice pier before the Canal City becomes a part of Los Angeles.

The town and amusement zones are being decorated in all the colors symbolic of the occasion. Large placards announcing the event have been posted in streets and buildings.

Although much of the program is being kept secret, it is revealed that colorful parades will pass between the two piers. Several young women of the district have been asked to serve as hostesses to the large throngs of merry-makers expected. Lucille Beverly has been chosen as one of the hostesses.

SENSATIONS FOR PULPIT DEFENDED

Dr. Brougher Declares Colorful Tactics Needed in Church Appeal

Defending sensational methods of attracting people to church, Dr. J. Whitcomb Brougher, pastor of the Temple Baptist Church, addressing the Baptist Ministers' Association at the Columbia Building yesterday declared that the underworld dreads the wide-awake preacher and said that the devil is happy enough to dance the Charleston when he finds such a church too modest to advertise.

"For thirty years I have practiced the method of preaching a straight gospel sermon Sunday mornings and speaking Sunday evenings on popular issues, with the intention to show how Jesus Christ can solve all problems," said Dr. Brougher. "In my opinion wit, humor, eloquence and every other talent a man may possess should church and showing them the right way to live. A preacher should be sure of his facts and not allow his seal to 'eat him up,' but he should fearlessly attack every evil system and custom, while refraining from mentioning personalities. It is not the business of a preacher to criticise men but rather to attack sin in order to save men. I am as great an opponent as any of you to this modernistic view that denies the Deity of Jesus, but I do believe in preaching the old-fashioned gospel in a way that can be understood by the man in the street."

Dr. J. Whitcomb Brougher

Following the lecture Dr. Brougher was given a luncheon and reception by his fellow-ministers at the Rosslyn Hotel. Dr. Brougher will leave Los Angeles this week for a six months' speaking tour of the United States, under the direction of the board of missionary co-operation of the Northern Baptist convention.

UNIVERSAL EXECUTIVE MAY RESIGN

Company Business Manager Reported to be Awaiting Laemmle's Return

Norman Sprowl, business manager of Universal Pictures for four years, is preparing to resign on the arrival from the East of President Carl Laemmle within the next few days, according to Hollywood rumors.

NORMAN SPROWL

It is understood Henry Henigson will succeed him.

Sprowl, who is a member of the board of directors of the Cinema Mercantile Company, is said to have already announced the severing of his connection with Universal, but to have agreed to remain with the organization until Laemmle returns.

Raymond L. Schrock, general manager, who offered his resignation recently to H. M. Goldstein, secretary and treasurer of the company, also is reported to be waiting only for the return of Laemmle before leaving the Universal studios.

RETHBERG TO MAKE DEBUT HERE TONIGHT

Elizabeth Rethberg, lyric soprano, will appear tonight as the first artist on the Behymer artist series at the Philharmonic Auditorium.

Rethberg came to America direct from the Dresden opera, where she was well received. She gained in popularity through appearances with the Chicago, Ravinia and Metropolitan. This is her first recital here.

THESE are some of the things that make us forget that clouds have a silver lining:

Puffing dowagers who sit around the hotel lounges and exchange dirt ". . . and, my dear, Mrs. Wilson told me herself that the man was married . . . absolutely, my dear, . . . 3 o'clock in the morning."

HOWLING DOVES

Bawling baritones, in Spanish bell pants, who try to sing "La Paloma."

I have never been able to understand why any singer should roar like a bull in singing a song about a dove.

There may be an American somewhere who can sing the songs of Spain and Mexico, but I have never heard one. It has to be in your blood. I have never heard anyone who knew how to sing "Celito Lindo," except Ramon Novarro.

There is a very lovely Mexican girl named Castello who sings the songs of her people in some of the movie prologues, and the words slip from her liquid tongue.

But I have yet to hear an American singer who didn't make your backbone curl when he tried to sing Mexican songs.

PRODIGIOUS PANTS

Fat women in khaki pants.

The sights that you see along the tourist trails in the open spaces have turned me into an earnest and devoted advocate of city traffic.

If they must wear pants, they ought to prepare prayerfully therefor. When movie queens get into these things they have them carefully tailored and skillfully fashioned.

Pants are properly adventures for profound premeditation.

MR. STAR, MEET MR. BARR

People who grab you in men's clubs and insist upon introducing you to a mob whom you don't want to know and who are buoyed up by the consoling thought that they will probably never see you again.

SNICKERING ACTORS

Actors who giggle at each other on the stage.

This old stale gag of being apparently convulsed by a fit of "uncontrollable laughter" at a joke the audience isn't in on.

That may have been entertaining for the first six million times; it isn't now.

Anyhow, the average actor doesn't look as though he could make a joke that would throw anybody into uncontrollable laughter; so the gag isn't convincing.

WHAT THEY DREAMED

People who tell their dreams.

. . . . "and then I thought I saw Jane coming through the door and she said, 'No, positively not.'"

These entertaining dreams about pink alligators and so on are all fakes. People's real dreams—at least the ones they tell about—are all long-drawn-out drivel that might have happened in the course of any dull commonplace day.

Orphans to See Special Showing of Chaplin Film

A special morning presentation of "The Gold Rush" for 1500 orphan children of Los Angeles will be given Saturday at 10 a.m. at Grauman's Egyptian Theater.

Special features of the prologue, of interest to youngsters, will be given.

Invitations have been sent to the Children's Home Society of California, the Los Angeles Orphan Asylum, the Los Angeles Orphans' Home and Frances DePauw Industrial School, the Church Home for Children, the Forsythe Memorial School, Boys' and Girls' Aid Society of Pasadena, the Galilean Training School, the Jewish Orphans' Home, Culver City, the Volunteers of America home, and several smaller homes and community centers.

FRUIT GROWERS OF STATE FACE PROSPEROUS SEASON, AVERS HEAD OF EXCHANGE

California fruit growers face a prosperous season, E. G. Dezell, general manager of the California Fruit Growers' Exchange, believes.

"I have just returned from a six weeks trip throughout the East and all our representatives there are particularly optimistic over the outlook and believe we will enjoy another good year and get fair prices for our products," Mr. Dezell said.

E.G. DEZELL

"The Florida orange crop is short, I learned and the apple crop also is smaller than ordinary. Good prices for our citrus fruits and apples seem assured.

"The Midwest agricultural section has had a fairly good year and its buying power is greater than it has been for some time. Our market is thus made better.

"Our crops here are good in all varieties and there is every reason to feel good over our business prospects for this fall and winter."

CONDEMNATION LAW PUT IN USE

Local Court Will Appoint Experts in Land Case

Judge McLucas First One to Employ Statute

Arroyo Seco Property Will Have Value Fixed

The recently enacted State law providing for the appointment of a trial court of expert witnesses in condemnation suits and other cases where expert testimony is necessary was put in practice for the first time yesterday in Superior Court by Judge McLucas.

Acting in accordance with the new statute, attorneys in the suit brought by the city of Pasadena to condemn land for a municipal watershed system in Arroyo Seco filed a motion before Judge McLucas asking that the court appoint experts to appraise the value of the land to be condemned and give testimony in court to enable the judge to fix the sum to be paid for the land by the city.

Judge McLucas granted the motion and stated he probably will appoint the witnesses this week.

The new law was passed to do away with the sometimes widely divergent testimony of expert witnesses employed by litigants themselves.

ACTRESSES INJURED AS SET BURNS

Sparks from Spotlight Cause Blaze at Studio; Scene Partially Destroyed

Director Robert G. Vignola and two young women from the prologue at Grauman's Egyptian Theater were burned when a "set" at the Metropolitan Studios in Hollywood was partially destroyed by a fire caused by sparks dropping from a spotlight yesterday afternoon.

The young women injured were Bernice Shook, who impersonates "The Icicle," in the prologue, and Virginia Cook, "Spirits of the Northern Lights." Vignola suffered burns on his left arm in aiding the young women.

The girls had been engaged for scenes laid in a New York gown shop in a picture called "Fifth Avenue." They were standing beneath the light waiting for rehearsals to begin on the elaborate "set." The sparks fell on the highly inflammable costumes worn by Miss Shook and Miss Cook.

The girls struggled to cast off their garments in response to a warning cried by Rita Claire, "the Spirit of the North Wind" Vignola, A. H. Sebastain, the producer, and others rushed to their aid. Miss Shook was the most seriously burned, Miss Cook's hair was singed. Both were able to appear in the prologue.

Several thousand dollars' damage was done to the setting.

Engagement of J. A. Jevne and Mrs. Rule Hinted

Jack A. Jevne, vice-president and general manager of the H. Jevne Company, is planning to marry Mrs. Esther Milner Rule, formerly Mrs. Frank Rule, early next month, according to well-founded reports yesterday. The wedding will take place, it is understood, soon after the interlocutory divorce obtained by Mrs. Marie Jevne becomes final on the 28th inst.

Rumors that the wedding will take place in San Francisco and that the couple will make a honeymoon trip around the world were also circulated. Neither Mr. Jevne, who lives with his father, Hans Jevne, in Pasadena, nor Mrs. Rule could be reached last night for a statement.

ORDINANCE SENDS EX-WIFE TO COURT

Mrs. Mamie Balto

BARBER AND EX-WIFE HIT BY CITY LAW

Ordinance Finds Echo in Court When Hairdresser Asks Increased Alimony

When the City Council recently dropped a new ordinance into the legislative ocean it had no idea that the resultant ripples would engulf Mrs. Mamie Balto, threaten to drown Ralph Balto financially, and finally wash both parties into Judge Gates's court.

Mrs. Balto, who operates as a hairdresser under the name of Mae Dalton, has been getting $20 a week alimony and $35 a month rent from Balto, her divorced husband, who is a barber of Alhambra. Yesterday she asked for $5 more a week.

The City Council, she declared, has legislated her out of business. A new ordinance goes into effect November 1, she said, making it illegal to do a hairdressing business in a home in a residential zone.

Balto said he could not meet an increase in alimony. Judge Gates appointed a referee to examine into Balto's finances and Mrs. Balto's needs. He will report back in a week.

Council Delays Venice Merger Action to Today

Action on the ordinance consolidating Venice with Los Angeles was postponed yesterday by the Los Angeles City Council until this morning, so that County Tax Collector Welch, Venice City Clerk Hanna and other officials may appear before the Council.

J. M. Herndon, representing Venice property owners, urged the City Council to adopt the ordinance now so that Venice "can eat its Thanksgiving dinner in Los Angeles."

If the ordinance is adopted now, consolidation will become effective about November 20. City Attorney Stephens told the Council that unless $150,000 Venice sewer bonds could be sold, signed and delivered before November 20, he would recommend delay on the adoption of the ordinance until November 20. The County Tax Collector also recommended, by letter, the same delay on account of consolidation at this time interfering with tax collection.

DISTRICT ASSOCIATION ANNOUNCES NEW NAME

A change of name of the Los Angeles High School District Improvement Association to the Western Los Angeles Improvement Association was announced yesterday by H. A. Miller, the president. The association meets at 8 p.m. today at the Los Angeles High School to hear an address by Justice Baird It will have a banquet the 27th inst. at West Washington Community Church, 1805 West Washington Boulevard.

ACTION ON RATE VETO DUE TODAY

Council to Take Up Water Increase Issue Following Objections of Mayor

The City Council is scheduled to take action this morning on Mayor Cryer's veto of the ordinance increasing the water rates 33 per cent. It is possible that the Mayor's veto may have the effect of blocking the rate increase, which was planned by the water department to take effect on November 1. The emergency clause, and thus required a three-fourths vote of the Council, or twelve votes.

No provision is made in the charter for overriding a Mayor's veto of an ordinance requiring a three-fourths vote, but a provision is made that in case the Mayor vetoes an ordinance which originally required a two-thirds vote, i.e., ten votes, then twelve votes are required to adopt the ordinance over the Mayor's veto. In case the City Attorney rules that a unanimous vote of the fifteen members of the Council is required to adopt the water rates over the Mayor's veto, action will be temporarily blocked, as Councilman Criswell is absent in Washington, D. C.

It is possible that the Council may detach the emergency clause from the ordinance and then adopt it, but this will also require the Mayor's signature. The Mayor may sign the ordinance with the emergency clause omitted, as in his veto message he laid special emphasis on his objection to the attaching of this clause to the ordinance, as, he said, it had the effect of preventing a referendum.

GAS TANKS MENACED BY BLAZE

Fire Destroys Warehouses in Downtown Section With Loss of $50,000

Nearly all fire apparatus of the downtown district was used against a fire which partially destroyed three warehouses of the Warren & Bailey Company, dealers in mill and engine supplies, at 713-723 Commercial street last night.

The flames progressed to within a few feet of the big gas tanks of the Los Angeles Gas and Electric Company, and at intervals almost licked the steel sides. Desperate efforts of firemen halted the flames before they could ignite the tanks. The fight was led by Deputy Chief Lee Davis. Fear that a large section of the warehouse district might be imperiled led to a second alarm being turned in.

Two warehouses were one-story structures of sheet metal. The third was a two-story brick building. All three were badly burned and their contents damaged by fire, smoke and water.

Loss is estimated at $50,000. The cause of the fire is undetermined but defective wiring is believed to have been responsible. The offices of the Warren & Bailey Co. are at 214 East Third street.

SHERIFF AND AIDE ENTER CONFERENCE

Wiseacres Speculating on Whether Long Partnership Will Continue to Function

Whether the old Los Angeles firm of Traeger & Biscailuz, sheriffing and undersheriffing a specialty, will dissolve partnership and wage a bitter battle at the polls for the prize plum of the business was a question of serious debate among political wiseacres yesterday—the debates immediately following a secret conference between Sheriff Traeger and Undersheriff Biscailuz at which the question of a candidate for the Sheriff's office was the sole topic of discussion.

Harmony reigned, Traeger and Biscailuz stated later, although political observers commented shrewdly that one of the two must lose. Sheriff Traeger once had visions of running for Governor, it is said, and for that reason promised his support to Biscailuz for Sheriff. Then "Big Bill" changed his mind, and decided sheriffing was a pretty good business, after all—and now Gene Biscailuz doesn't know whether to throw his hat into the ring or save it to wear trough a few more years of undersheriffing.

Sheriff Traeger's only comment following the conference, which was held at his home, was that "the time is not ripe" for an announcement. Biscailuz, who is on his vacation, declared last night that he also is not ready to hand out a personal decision.

"Everything is O. K.," he said. "Relations between Sheriff Traeger and me are amicable and friendly, as they always have been. I don't intend to do or say anything until Mr. Traeger makes his announcement. Then I'll be governed according to the nature his announcement takes."

Circulation Men of State Launch Convention Here

Newspaper circulation men from all over the State were in attendance yesterday at the opening session of the two-day convention of the California Circulation Managers' Association at the Ambassador. Motley Flint greeted the visitors on behalf of the city. Other addresses at the morning session were made by John Grey, president of the association, of San Francisco, and by Lyman King of Redlands.

At the afternoon session Harry H. Cahill read a paper on "The Best Methods of Delivering Papers to Subscribers," and Robert J Corrigan spoke on "Best Features and How to Promote Them."

Election of officers and business discussions will occupy the sessions at the Ambassador today. The convention will close officially tonight with a banquet at the Ambassador.

ASKS ALIMONY TO FILL GROCERY BAG

PAWNS RING TO BUY FOOD, COURT TOLD

Film Actress Seeks to Force Husband to Make Alimony Payment

Declaring that she had been compelled to pawn her wedding ring for food, Nola Luxford, film actress, appeared before Judge Summerfield yesterday to ask that alimony payments be obtained from Maurice George Luxford, whom she had sued for divorce on desertion grounds some months ago.

She said she had received only $7.50 from Luxford since last March. Her testimony was supported by that of her roommate, Lori Bara, sister of Theda Bara.

Luxford, who said he was a commission salesman, declared he had made no sales recently, had no money and therefore could give none for alimony. Mrs. Luxford laughed and asked how he "could go around with 'a member of the 'No, No, Nanette' chorus."

Luxford responded that he was merely a guest in the home of the girl and her mother, and that all he had spent on her was his time. He stated later that his total expenditures in this connection amounted to $30, but denied, in response to a question from the bench, that he had spent anything for entertainment.

Judge Summerfield advised him to get a job where he could earn something, and to come back in four weeks, when the hearing would be continued. Mrs. Luxford was represented by Attorney Roger Marchetti.

In the end she forgets to tell you about Mrs. Pickles's toe; suddenly discovers the fact and goes back all over it with an extended explanation of her forgetfulness by way of an "added attraction."

DOWNS DENIES HE TOOK BRIBE

was followed by a long string of character witnesses for the defendants.

Fred C. Spayde and Gardner Woods, two newspaper reporters, with H. H. Kinney, secretary to the Mayor, then were called to testify regarding certain transactions in the City Hall and Councilman Ashe appeared to tell of a lunch that he had with Downs and Murphy.

It was following the character witnesses that Downs was called to the stand in his own behalf.

Defense Counsel White last night announced that his detectives are still attempting to trace a mysterious woman who left a note on the counsel table last week in which she charged that a former Councilman had received $1000 from the Tunnels Transportation Company as election expenses.

Efforts of defense detectives failed to locate the woman writer of the note or the man said to have the check. An interview with the bank president said to have handled the check resulted in denials that the check ever went through his bank, according to Mr. White. The investigation, however, is being continued according to White and Hodges has not been excused by the defense, as, if the checks in question are found, he will be recalled to the witness stand and questioned. During his cross examination. The former general manager of the Tunnels Transportation Company denied that any checks for campaign expenses had been drawn by his company.

EXPERT DISCUSSES HOSE

Mrs. Edna M. Kinney, as an expert on hose, said the women would need to study astronomy, zoology and mineralogy to be skilled in hosiery. Astronomy was necessary to recognize the shades of star dust, silver moon, dawn and sunset stockings. All sorts of animals from an airedale to a jack rabbit are named as shades of stockings and other shades are nude, rosewood, pine, atmosphere, gunmetal, sand and dust.

"Queen Elizabeth was the first woman to possess a pair of silk stockings," said Miss Kinney, "and hers were woven in secret and worn in secret after they had been presented to her with great ceremony before the magnificent court on a satin cushion. For centuries after, the subject was not mentioned in polite society. But with the emancipation of the leg, stockings, strangely enough, have become a thing of adornment and not of utility. They are the outstanding features of a woman's wardrobe."

The shades as worn yesterday were Mrs. Gilmore, rose taupe, the most popular of all the darker shades; Mrs. Brain, a shade called nothing; Mrs. Davis, service weight gunmetal; Mrs. Bourne, dark gray; Mrs. Omdalen, French nude; Mrs. McDevitt, blond; Mrs. La Burt, rose beige, and Mrs. Koverman, atmosphere.

Germany now has a woman veterinarian, the first of her sex to qualify in the examinations.

CLUB COLLECTING FOR CHARITY IN NOVEL WAY

Funds for the Advertising Club's charities are no longer collected by fines, it was announced yesterday. Instead, a picture of a baby and a large milk bottle are unveiled at an appropriate time at the club's luncheon and milk bottles are passed at the tables for contributions. The large milk bottle is adorned with the advertisement of a member for which he has paid $10. The collecting committee, Carl A. Bundy, E. J. LaFon and James G. Sprecher, wear milkmen's garb, and the money furnishes milk for the King's Daughters' Day Nursery. The speaker at the club's luncheon at the Biltmore today will be Charles Duncan; his subject, Advertising of the Future. Harry Carroll will be chairman and Irving Smith, president, will preside.

BLEDSOE WILL SPEAK ON COMMUNITY CHEST

Former Judge Bledsoe will speak on the Community Chest at a luncheon at noon today of the Knights of Columbus Luncheon Club at the Alexandria. The luncheon is the opening one of the club. It was formed by a central committee of all the K. of C. councils in the vicinity of Los Angeles. The membership of the committee is B. J. Leonard, Pasadena council; Patrick J. Cooney, Hollywood; Howard J. Callanan, Los Angeles; Frank J. Barry, Junipero Serra; John De Ferie, Glendale; John W. Engelke, Henry T. Gage Council; G. L. McDonough, Manchester Heights; William Swain, El Sereno; W. K. Lockwood, Stephen M. White Council; W. J. Millen, San Fernando, and Eugene Power, Santa Monica.

PROHIBITION ACT UPHELD BY DECISION

Supreme Court Confirms Volstead Law in Attack by Jailed Beer Baron

[EXCLUSIVE DISPATCH]

WASHINGTON, Oct. 19.—The attempt of Terry Druggan, Chicago beer baron, to get out of jail on a writ of habeas corpus from the United States Supreme Court proved unsuccessful today. Basing his plea on the contention that sections of the Volstead Act are unconstitutional because the Eighteenth Amendment had not been in full effect at the time of the passage of the enforcement act, Druggan, through his attorney, Michael J. Ahearn, asked the court to set aside the original sentence of the Illinois Federal Court.

Answering the constitutional arguments in Druggan's behalf, Justice Holmes, who rendered the opinion of the court, said:

"The moment that the amendment was ratified it became effective as a law.

"There is no more reason why the Constitution should not give the warning for the next year than there is for its not giving it for the next moment. We have no doubt of the authority of Congress to pass the law.

"We think the case too clear for extended discussion," Justice Holmes remarked, in conclusion.

Huntington Park Broom Factory Will be Rebuilt

The M. & M. Broom Company's plant at Huntington Park, which was destroyed by fire yesterday morning, will be rebuilt, according to the owners, Sam and Lew Moch and Fred A. McClung.

The fire is thought to have been of incendiary origin. When the fire was discovered, the plant was a mass of flames. The major portion was covered by insurance. As far as is known, no one had been in the plant since last Saturday. In addition to the loss of the building and machinery a large amount of stock in the structure was destroyed.

The cost of the building, machinery and stock was placed at $30,000. The plant is located at Fifty-fifth and Alameda streets and one of the county fire departments responded to the call.

McClung said yesterday work will be started on a new building as soon as the debris is cleared away. The plant has been in operation thirteen years.

RUSH FOR ALIMONY

Two Courts Now Needed to Clear Docket

Alimony has become so popular in Los Angeles county that, temporarily, at least, two departments of the Superior Court will hear proceedings in connection with it.

Judge Hollzer yesterday began hearing an alimony calendar, in addition to the regular docket in Judge Gates's court, which sits in alimony matters continuously. For two weeks Judge Hollzer will hear the cases. It is hoped that by the end of that time the calendar will be brought down to where one court can handle it again.

As many as fifty cases have been set for hearing in a single day in Judge Gates's court recently. It being impossible for so many cases to receive attention in one day, the calendar has become more and more congested until some special relief was necessary.

AGREEMENT TO BUY STOCK BRINGS SUIT

[EXCLUSIVE DISPATCH]

SANTA ANA, Oct. 19.—Seeking to enforce an asserted agreement to purchase stock, F. S. Bricker's suit against Charles Boege and Hugh Grant of Anaheim was being tried today before Superior Judge Williams. Bricker, a stockholder in the Bolsa-Chica Petroleum Company, claims to represent a group of the stockholders interested in the asserted agreement. Grant and Boege, the latter City Treasurer of Anaheim, are officials of the oil company. Attorney Kenneth Matot is counsel for Bricker. Attorneys W. F. Menton, Santa Ana, and A. E. Sherman, Los Angeles, represent the defendants.

TRUCK DRIVER TAKEN AS OWNER OF LIQUOR

FREE AIR

It is announced in radio circles that the air will be extended to the farmers. What they get is hot air from the politicians.

THE BEST BELOVED

In a world popularity contest the Prince of Wales might not win the trophy, but would make a wonderful showing as the runner-up.

OUR LATEST BRIDE

"Beautiful Venice, the bride of the sea" once was a very popular song. But nowadays, we'll tell the world, it should be sung "Beautiful Venice, the bride of L. A."

HOPI, HOPPIER, HOPPIEST

The Hopi Indian dances are events of national interest, but they fall a long way short of being as hoppy as some of the dances one may see at any public dance hall.

BERTH CONTROL

There are some who insist that the system of berth control as exercised by the Pullman Company is almost a menace to the country. But it is a financial rather than a social issue.

A FALSE ALARM

The Florida imitators should know that Hollywood does not grow by the sea, but by the hills. They can hardly expect to pinch the prestige of the movie metropolis under the lines they are working.

EVENING UP

Recent statistics show that there are fourteen persons to every motor car in the United States. But, outnumbered as they are, the cars certainly are putting up a game fight and rapidly diminishing the odds against them.

ALWAYS DRIVING WILD

Persons of high intelligence are more dangerous as automobile drivers than other persons, according to the report of a Dr. Bingham of New York, to the Personal Research Foundation. Oh, shucks! He must have been observing some of those "young intellectuals."

THE NOBLE JOURNEY

There are varying ideas of what living well means. It is best to accept the philosopher's view. For one to live well one should live for others rather than for self. To live well is not to be measured by the passions or the appetites. It is to be charted by good deeds.

BARS AND BARS

The Chicago Tribune, in describing the excellencies of the new Cook County Jail, asserts that among its other good points "it is to be like a hotel." To which the Louisville Times paragrapher glibly added "—robbed occasionally." Bars just naturally have an affinity for robbers.

THE BIG DOINGS

The Edison Company in Southern California prepares a budget for next season's extensions and improvements in this territory that calls for nearly $33,000,000. At one time this would have been held a great national undertaking and it is still a wonderful program of expansion.

THE PUBLIC PAYS

It is proposed to make a flat charge for water against vacant lots, whether the water is used or not. This is one of the levies that would not even be considered as a possibility if the water was in the hands of a private corporation. It is found that public ownership encourages a lot of levies and assessments that would not be thought of under individual or corporate control.

THE SPECULATORS

The big business in these days appears to be in the stock market. It must be that a lot of new ones are coming into the game. Those who have accustomed themselves to investments in railway and industrial bonds are now learning to juggle stocks on a margin—or at least they think they are. It looks like a good winter in Wall street. But some folks should have their pelts checked before entering the street.

THE PEN FOR THEM

Two thieves were arrested and convicted of stealing automobile tires all over Southern California, their thefts covering more than a year and as many as thirty-two in a single night. They boasted that they made a specialty of cars that were parked near the police stations. Is there any sense in supposing that the assessment of a fine will transform them into honest men? They were fined $200 and turned loose to steal more tires, to pay more fines with the money lost to the citizens who are robbed. Crimes, great and small, are too often looked upon as a source of revenue instead of a desire to rid the community of the undesirable criminals.

REAL AMERICANISM

Clear as a bell and full of deep significance were President Coolidge's Omaha utterances as to what constitutes real Americanism. He made it plain that the highest type of our citizenship was not that based upon proud pedigree or material possessions, but upon character and vision. When he said that "whether one traces his Americanism back three centuries to the Mayflower or three years to the steerage is not half so important as whether his Americanism of today is real and genuine" he voiced a truth that should stand as a rebuke to those who would have us believe that lineage counts in our national life or who affect to look down from a lofty height upon the immigrant who, with little besides muscle, brain and character, has entered this country with an honest desire to become a true and loyal citizen and to live up to our national ideals.

The boast of heraldry is a poor one to be made by the citizen of a republic based upon the principle that all men are created free and equal, and it readily lends itself to well-deserved ridicule. After his allusion to the Mayflower the President made an excellent point by saying, "No matter by what various crafts we came here, we are all now in the same boat."

Judging by the not infrequent evidences afforded in this country, it would seem that, while it is not a bad thing, in a way, to have descended from an illustrious family, it is sometimes a better thing to have come up from the steerage. For some of those who boast that they have descended from high-born ancestors have kept on descending until they reached the basement. On the other hand, we cannot count upon the rise of each poor immigrant in this period of warped ideas created by the war. The material contraband we find in the immigrant's baggage can be confiscated, but we cannot confiscate the contraband of Communism or anarchy he carries in his head. However, we can educate it out of existence, which we are doing in a large and effective way.

What we received from Europe to build this country was not money, but brain, muscle and honest intentions. These are not special attributes of the aristocracy—they are no more dependent upon the possession of blue blood than is the ability to walk or stand. When the President said that "human nature is about the same everywhere" he voiced a big truth in brief language. And when he added "that it is rather evenly distributed over the surface of the earth" his words implied a reproach to those who are so ultra-patriotic as to keep constantly in mind the assumption that we are a superior people and all others are inferior. For it is true, as he holds, that if we do so "we can make little contribution to the welfare of humanity."

Still in America's new era of economic power there is not seen that spirit of exclusiveness found in many foreign lands near and remote. The people of those countries which, since the war, have developed too much national self-consciousness and self-sufficiency and have assumed an attitude of self-interest which is as hostile to outsiders as it is detrimental to their own progress should learn a lesson from the manner in which America has met the unpleasant conditions of the post-war period. We are still admitting immigrants at the rate of nearly 200,000 a year. No nation can afford to reject foreign muscle, brain and character any more than it can afford to exclude foreign capital. Such rejections and exclusions are bound to react upon the national welfare.

The President is right when he stresses the need of tolerance. He clearly shows that no country can acquire true greatness if it be full of national bigotry, arrogance or selfishness; and that hatreds, jealousies and suspicions will not be productive of real and lasting benefits.

That every true American is in full accord with these noble sentiments is proved by their hearty reception in the best thought centers of the country. That so many of our citizens share this splendid spirit and are taking great pride in the utterances of their Chief Executive indicates that we are well on the way toward that altruistic harmony for which he is laboring so honestly, assiduously and wisely.

CONDENSED SLEEP

New light has been thrown upon the problem of how much sleep is required by a normal adult person by some interesting experiments conducted by Dr. Fred A. Moss, head of the psychological department of the George Washington University, in Washington, D. C., who, with eight of his students, went sleepless for sixty hours recently. Throughout their vigil the students were given a variety of practical mental and physiological tests by psychologists and doctors, with the idea of unraveling some of the mysteries of sleep.

As a result of these experiments it was announced that condensed sleep is the latest possibility of man's improvement. In other words, it is to be deduced that a shortening of the hours of slumber by those who are accustomed to spending at least one-third of their time in bed may safely be made by the majority of healthy persons and much working time can thus be added to each day of effort. Napoleon and Edison proved that sleep can be made intensive by squeezing it into three or four hours. Mr. Moss says that his brain works smoothly on six, and he sees no reason why the average normal adult should require eight or more. It was to prove his theory that the university experiments were carried out.

During these tests the students not only engaged in brain work of various kinds and demonstrated their ability to remember automobile licenses flashed before their eyes for two seconds, but, according to Dr. Moss's report, "they were also persistently cheerful and ready for anything." All of them said that they felt well and were not very sleepy. Some of them continued the test for seventy-two hours and "proved that a considerable loss of sleep does not necessarily render the brain dull and sluggish, but that the additional energy needed to keep the brain engines working at high pressure may have a depleting effect on other parts of the body." This effect is easily understood and might well have been conceded beforehand, for everybody knows that to put the brain to severe tests during an extended period is bad for most of the other organs of the body. Also it is bad for the brain itself. Brain fag, too, is something from which one does not quickly recover.

What has been reported of the experiments, therefore, as to what can be performed under a single long sleepless strain, while interesting and more or less convincing, is by no means conclusive. Dr. Moss may, as he says, get along very well on six hours' sleep, but he does not show how the sleeping time of the whole race could be standardized on that basis or whether, if it were possible, it could be done safely. He calculates that the man who lives seventy years has only forty years of strong adulthood in which to do his life work and that he spends two-thirds of that forty years in eating, sleeping and playing. He holds that if one-third of this sleep can be cut off he can add five years of working time to his career. But until he proves that the hours of slumber can be reduced that much without injury he will be unable to say that anybody thus reducing them is likely to live seventy years.

Granted, however, that this could be done and that we could get along on condensed sleep, how much would the daily cutting-off of one-third of nature's sweet restorer contribute to the sum of human happiness? In this life of ours mere efficiency is not the only thing to consider. There are also such benignant things as comfort and rest.

THE CALIFORNIA WAY

The East is trying to find a substitute for coal.—[Kansas City Star.

Why not try California? The heating qualities are more even and more widely distributed. It is the hot-water system—the best on earth. The Japan current is warmed in the tropics, sweeps up around through the North Pacific and curls down around the capes of California and furnishes perennial spring.

It has cooling qualities in summer and warming calories in winter.

With a little newspaper in the grate or a radiant heater in the fireplace to turn on and off on a chilly morning you have a perfect climate.

Then the California system does not fill the air with smoke and smut up the buildings. Great blocks of city streets do not look as if they were built of coal.

When art tile and other colorations decorate a structure it lasts. The ever-present glow of fairyland does not wear off.

California can furnish some substitutes for other distractions back East. It substitutes roses for earmuffs on Christmas and football games for galoshes on New Year's.

Oranges plucked directly from the trees may be substituted for frozen apples in the cellar. Boys may even substitute bare feet for soggy boots and outing shirts for bear skins.

California is one grand open-air gymnasium. Hothouse plants, both vegetable and human, grow in the open with us.

California is able to substitute twelve months in the year of glorious climate for the three months of Florida and throw in booming business, manufacturing, mining, commerce and agriculture.

UNWORTHY THE NAME

Some shoddy American, whose name is not mentioned, went over to England recently and proceeded to make a speech before a London commercial body. In the course of his talk he said: "We inherited our liberties from you and we are now discovering that in order to enjoy them we must come to England."

John Bull takes the matter so seriously that a contributor to the London Statesman arises to say that "this discovery is being made afresh every year by tens of thousands of Americans" and closes with the peroration that the "wonderful and valuable thing called social freedom has hitherto been unknown to them as citizens of the greatest republic." He also argues that in the United States the "right of a minority to existence and expression has not at any stage been acknowledged comparable with that Englishmen have insisted upon. The United States has been from the beginning the land of the merciless majority." He wants to know why this country, "which sings more loudly of liberty" than any country in the world, is "lamenting" through the mouths of so many of its citizens the fact that "it has not grasped the elementary idea of social freedom."

All this amusing expression of opinion has its origin in the mouthings of an American who is unworthy the name. Possibly a patron of bootleg whisky at home, a violator of the Constitution of his country, his disloyal utterances meet with contempt from his patriotic countrymen, who laugh at the silly criticism to which his words have given rise.

A CLOSE CALL

A patrolman of the Lynn police department spent a month's salary for a bullet-proof vest and invited brother policemen to shoot at him. When they refused, he took off the vest and fired six revolver shots at it. Every bullet went through. He has sued the vest company on the ground that he has been devested of his investment.

THE RAVEN

Written after hearing a modern version of Annabel Lee.

Mr. Raven, Mr. Raven,
Don't you know you're misbehavin'
When you jazz around my chamber
With that syncopatin' strut?
Do you kind o' fancy deary
That you make me awful weary?
Well you're right about it Raven
You do simply nothin' but.

Mr. Raven, Mr. Raven,
You can't scare me with that wavin'
On that pallid bust of Pallas
With that Senegambian tail.
Quit pirootin' on that statue
Or I'll throw the inkstand at you—
I'll get peeved in just a minute,
So you'd better hit the trail.

Mr. Raven, Mr. Raven,
If your carcass is worth savin'
Spill a little conversation,
Do not be so doggone dumb.
Do not pull that "Nevermore!" stuff,
Or I'll feed you some pre-war stuff—
And the minute it's inside you,
You'll be sorry that you come.

Mr. Raven, Mr. Raven,
Ain't you ever goin' to cave in?
Stop that everlastin' croakin'
And go jazzin' out of sight?
Are you bird or are you devil?
Are you false or on the level?
Am I seein' things I wonder?
Say, what did I drink las' night?

COURTESY

BY A. M. ROW

Courtesy is a spontaneous appreciation of the sensibility of other folks. . . . It is a tribute due from every self-respecting man to his fellows. . . . Courtesy is not buttoned up, but flourishes inside oily jumpers as well as under fine raiment. . . . It knows neither age nor condition and yields graciously to the humble as to the mighty. . . . Courtesy manifests itself in sympathetic attitude and may not be expressed in words. . . . It is not what you say but how you say it. . . . The quality of your courtesy depends upon whether your heart pumps life blood or ice water. . . . No man is so great that he can afford to ignore courtesy as a God-given virtue. . . . Though you may not be aware of it, the world measures you by your attitude toward the hopes and aspirations of others.

LETTERS TO The Times

More Water Troubles

LOS ANGELES, Oct. 16.—[To the Editor of The Times:] In Thursday's Times comment by subscribers on the water company sending duns for bills paid we often get their mistaken bills, but they always contain advertising matter for their different projects.

I hope the Mayor will veto all they ask in advance rates. The water bills should be lowered, considering the poor service and poor water. I phoned the company one night at 11 p.m. of a one-half-inch burst pipe. The sleepy-head that answered said they would attend it immediately, but nothing was done till after 8 a.m. There is a great loss of water by negligence in this city.

We need a new Water Board. Cut out the incompetent dumb-bells in the office force and take away their fine cars and maybe we would get better service for the taxpayer, who would look with less suspicion on the new projects and feel more favorable to the bond issues.

ANOTHER SUBSCRIBER.

Referred to Volstead Act

LOS ANGELES, Oct. 16.—[To the Editor of The Times:] In your issue of today's date I find two items, regarding which I would like to get some information. Both refer to the offense of illegal possession of wine. What is meant by such possession? Is it illegal for a man to have wine in his home in this State? What law makes it illegal? Is it illegal for a man to take a glass of wine in his own home in the State of California? What right had detectives to intrude into a man's home in Pasadena and, finding him drinking a glass of wine there, arrest him for illegal possession of intoxicating liquor?

These items don't attract many visitors or prospective settlers to Southern California. A land of "liberty" where the home may be invaded and one's meat and drink censored in the name of law is scarcely preferable to the land of the Czars in the extreme of absolute tyranny and is far other than the Boston Tea Party set up in the room of King Georgie. Let your correspondent, G. E. Morey, look up the word "crime" in the current Standard Dictionary and it will aid him to see Mr. Finkle's point.

JAMES J. BROWN,
An Eastern Visitor.

But They Can't Get 'Em

GLENDALE, Oct. 16.—[To the Editor of The Times:] The Times and other publications have been exhorting the public to use $2 bills when making payments in place of using $1 bills, as is now the custom, and thereby save $1,000,000 to the government, as it costs no more to print the $2 bills than it does the $1 ones. A few days ago I tried to exchange a $10 bill for $2 bills and the postmaster not having any I had to accept the $1 bills. Now, then, if our government is so anxious to save in that way why is it that the larger post-offices like the one at Glendale are not supplied with the $2 bills and instructed to push them instead of pushing the circulation of the $1 bills, which they are now doing by not being able to supply them to the public when asked for.

ADOLPH HERMAN.

SEE YOUR WAY

BY ADRIAN SASHA

In the quiet darkness of the night, in the stillness of my room, my friend comes to me. Sitting in the soft rocking chair, he lifts his head to the dark, receded ceiling and smokes, the light of the cigarette illuminating his face in the darkness. His eyes, uncanny and fantastic, radiate a peculiar, friendly warmth.

He turns to me and I know I must keep my breath and listen. "Friend, the darkest hour in your life is when you don't see your way ahead of you. Ah, that sailing on a dark and stormy and uncharted sea, without compass and without knowledge of direction! Ah, that straying in the jungles without knowing whither and by what means to reach the clear, open spaces!"

My friend smiles as he continues, saying:

"He, the tall, gaunt, gray-haired man, who said he was a minister of the gospel, was possessed by a demon when he whispered in your ears: 'Why take ye thought of tomorrow?' For he almost hissed like a treacherous serpent when he added: 'Brother, just take a vow that you will live only from day to day, never caring for the tomorrow.' Poor man, he wanted to be of service and did not know he was possessed by a demon!

"And demon-like his counsel gripped you somewhere in a secret power-house of your life, and you started to travel with your eyes closed, waiting on the 'miracles' of God. But God's 'miracles' are in the iron impartiality and unbreakableness of His laws that operate as cause and effect. 'See your way' is a law. The experienced car conductor translated it in his own vernacular when he shouted: 'Watch your step!'

"Catastrophe and disaster came like snarling monsters, threatening to devour you because you journeyed without seeing your way.

"Eyes are given you, physical eyes and also mental. Will you throw this boon back to God and announce your preference to walk blindly? Why walk in the dark, stumbling, falling and bruising your limbs when you can open your eyes and see your way?

"See what you want and how to get it in honesty and love. For 'who will build a tower and not sit down beforehand to figure out whether he has enough material wherewith to finish it?'"

Such is the counsel of my friend in the quiet darkness of the night, in the stillness of my room.

HERITAGE LEVY LAW CRITICISED

High Inheritance Premium in State Scored

Statute Declared Barrier to New Capital

Realty Men Hear Views on Asserted Tax Evil

California has surrounded herself with a Chinese wall in the adoption of her present inheritance tax system, declared Dr. Milbank Johnson, president of the California Taxation Improvement Association, and head of the Western States Taxpayers' Conference, in an address delivered before the Los Angeles Realty Board's luncheon meeting at the Biltmore yesterday.

"The inheritance taxes of California are higher than those of any other State in the Union, except Wisconsin and Illinois," said Dr. Johnson. "The result is that we are keeping hundreds of millions of dollars out of the State that would otherwise be invested here and would help to build up our industries. Capital is California's greatest necessity today, but by the maintenance of our present taxation system we are keeping it from coming here."

DR. MILBANK JOHNSON.

Dr. Johnson illustrated his remarks by many concrete examples.

"A wealthy man who has lived in California a number of years but has maintained his citizenship in an eastern State, came to our association one day to inquire how much his inheritance tax would be increased in the event that he changed his citizenship to California," he said. "We figured the thing out and told this man that it would cost him $150,000 more to die in California than in the eastern State. He decided not to change.

"That man is only one of thousands of individuals living in California who represent what I call unnaturalized capital. They live here but their capital is at work elsewhere. Surveys made by our association have revealed that the unnaturalized capital of California amounts to something like $2,500,000,000 to $3,000,000,000, kept out because of our inheritance-tax law. Repeal the law and the State's assets will double in a short time."

CHURCHMEN MAY GATHER IN THIS CITY

Episcopalians Invited by Returned Bishop to Hold Annual Convention Here

The general convention of the Episcopal Church of the United States, which is now holding its meeting at New Orleans, has been invited to meet in Los Angeles, Bishop W. B. Stevens announced Sunday. Bishop Stevens has just returned from the New Orleans meeting and in his address told of the work done at the convention. Bishop Stevens extended to the house of bishops' section of the convention the invitation to meet in Los Angeles, while Dean William MacCormack, at the same time, extended a similar invitation to the house of deputies.

Bishop Stevens spoke with enthusiasm of the hospitality of the people of New Orleans and the spirit of the convention and paid special tribute to Rt. Rev. John G. Murray, bishop of Maryland, the newly elected presiding bishop.

"Bishop Murray," he said, "is a man who combines spiritual leadership with business acumen."

Bishop Stevens also described the enthusiasm of the joint session of bishops and deputies at which subscriptions were pledged to cancel the $1,500,000 deficit in the missionary funds of the church. The bishop of New York pledged $250,000 for his diocese, Bishop Stevens said, and the other bishops pledged similar subscriptions for their dioceses. Los Angeles pledged $10,000, with the hope of increasing this to $20,000, Bishop Stevens said.

Among those attending the convention from Los Angeles were Dr. and Mrs. Josiah Evans Cowles, Mr. and Mrs. Colin Gair, W. C. Mushet, treasurer of the Los Angeles diocese, Rt. Rev. and Mrs. W. B. Stevens, and Dean and Mrs. MacCormack.

State School Ends Youth's Bandit Career

The State Industrial School at Ione yesterday marked the end of the trail for Harlan Menefee, 16 years of age, of 278 North Marengo street, Pasadena, who, according to Juvenile Court officials confessed to six burblaries and sixteen thefts of automobiles and motorcycles. The boy was committed to the State school by Judge Archbald of Juvenile Court, the case against him having been transferred to this tribunal from the Pasadena Justice Court.

Probation Officer Prescott told the court the youth also had broken out of the Pasadena jail the 16th inst. He stated in his report that the youth gave no explanation for his actions except to say that he wanted money and automobile rides.

ASK ARMISTICE FUND

The appropriation of $1000 by the city toward the expense of the program to be given at the Coliseum on Armistice Day was requested yesterday of the City Council by the City Interpost Council of the American Legion.

FILM FOLK ADD TO RELIEF FUND

New Contribution Swells Total by $1223

City Nears Two-thirds Mark of Entire Quota

More Than $87,000 Remains to be Collected

Another contribution from the motion-picture industry yesterday increased the amount of Los Angeles donations to the Santa Barbara emergency relief fund by $1223. This sum represented contributions from employees of three producing companies; the First National, Edwin Carewe and Frank Floyd. This makes a total of $6504 contributed by motion pictures.

Edwin Carewe

The film donations have all been credited to Hollywood's share of the Los Angeles quota, the total contributed by Hollywood up to this time being $8269.

DOUBT CLEARS

"The amount still outstanding to meet our quota in Los Angeles is gradually being whittled down," said Campaign Manager Morris of the Chamber of Commerce, in commenting on the progress of collections yesterday.

FRANK LLOYD.

"The total raised by the city now amounts to $176,552. That means we have raised within a few dollars of two-thirds of our quota of $264,500. The specific sum still outstanding is $87,948.

"To my mind there is now no doubt that Los Angeles is going to meet her quota. I'll confess. I've had my doubts on this point at times during the past few weeks, but returns during the last week have been so encouraging that I feel we are out of the woods.

MORE EXPECTED

"I am of the opinion that the present week will see an even greater amount contributed than last week. The week has started off well with the $1223 donation from the motion-picture interests. Accompanying this contribution was a note to the effect that canvassing for the fund is still going forward among producers and motion-picture employees and that additional remittances will be forthcoming shortly.

"Furthermore, there is a number of trade groups in the city which have not as yet reported. I am advised that work among these groups has been going on ever since the campaign machinery was organized and am therefore expecting substantial remittances from all of them."

CAPITALIST MAKES PLEA OF POVERTY

Asserts Company on Verge of Bankruptcy in Court Discussion of Alimony

David A. Coleman, financier, was under orders yesterday to pay $2000 in cash into the court for safekeeping and to pay his wife, Anne Walker Coleman, $50 a week for her support pending a further hearing on alimony in her suit for divorce, after Judge Gates had heard conflicting testimony concerning his financial condition.

"My concern, the David A. Coleman Company, is on the verge of bankruptcy as the result of a fire loss of $150,000," Coleman told the court.

Mrs. Coleman said that a fortune of $100,000, which she had inherited from a former husband, was tied up in Coleman's company.

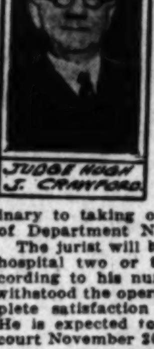
"We are convinced he is no business man, and the cash now in his possession will go where the rest of Mrs. Coleman's funds have gone, unless the court takes charge of it," declared Earl Moss, counsel for the wife.

Coleman, however, asserted that an extravagant scale of living accounted for a great deal of the money under discussion. He said he belonged to the California Yacht Club, the Jonathan Club and other social organizations. In her complaint, Mrs. Coleman declared her husband stayed out late nights, and came home drunk.

CRAWFORD UNDERGOES OPERATION

Superior Court Judge Reported to Have Stood Ordeal Well

Judge Hugh J. Crawford of Department Nineteen of Superior Court was reported resting easily at the Methodist Hospital yesterday following an operation performed yesterday morning by Dr. W. Donald Judge. The jurist had been suffering for several months, but attended to his court duties until last Friday when he completed his work in Department Sixteen preliminary to taking over the calendar of Department Nineteen.



JUDGE HUGH J. CRAWFORD.

The jurist will be confined to the hospital two or three weeks, according to his nurse, who said he withstood the operation to the complete satisfaction of his surgeon. He is expected to return to his court November 20.

WESTGATE DISTRICT TO VOTE ON BONDS

By ordinance unanimously adopted, the City Council yesterday called a special election in the Westgate district for November 10 to vote on the question of bonding that section of the city for street paving and other improvements. A large number of streets are to be paved if the bonds carry, the total expenditure being between $400,000 and $500,000.

DREADNAUGHT IN GUN TEST

West Virginia Fires Three-Inch Rifles Last Time; Ships Prepare for Battle Practice

Highly satisfactory scores were made by the three-inch antiaircraft batteries of the U.S.S. West Virginia at sea yesterday. It was the last time the dreadnaught's three-inch guns will be fired before they are replaced at the Puget Sound navy yard by the Navy's new five-inch aerial guns.

Tomorrow, on the San Clemente drill grounds, the West Virginia will fire her sixteen-inch main batteries in short-range battle practice, the U.S.S. Maryland towing the target at a varying range of approximately 2700 yards.

The West Virginia also conducted her official rehearsal runs for the exercise to be fired tomorrow, while today the U.S.S. Colorado, U.S.S. Maryland and U.S.S. Tennessee will make practice runs for short range battle practice.

All the ten dreadnaughts now in port were at sea yesterday preparing for short-range battle practice, although with the exception of the West Virginia, they will not fire their main batteries until mid-November. The U.S.S. California, fleet flagship, fired short-range battle practice before going to the Puget Sound navy yard early this month, while the U.S.S. Oklahoma, due here November 11 after annual overhauling at Puget Sound, will fire the exercise in late November.

SCENARISTS LOANED TO PREPARE MARY'S NEXT

Hope Loring and Louis Lighton have been borrowed by Mary Pickford from Metro-Goldwyn-Mayer, to work with her on the script for her next production.

This will be the second picture within a year the collaborators have been engaged to write for Mary Pickford. Working with Miss Pickford, they wrote the script on "Little Anne Rooney," which will be given its local premiere at Grauman's Million Dollar Theater Thursday.

Loring and Lighton have just completed the adaptation of "Money Talks," from the story by Rupert Hughes for Metro-Goldwyn-Mayer. The scenarists have been under contract to M.-G.-M. for the past year, having written the adaptations of several stories, including "The Auction Block" and "Free Lips."

HITCH IN MAIL-THEFT TRIAL

Attorneys Appear at Arraignment of Four Suspects and Succeed in Postponing Pleas

A hitch in the prosecution of four of the asserted members of the gang which robbed the mails of $480,000 in valuables the 8th inst. occurred yesterday when a number of attorneys appeared for the accused men at their arraignment before United States District Judge James and succeeded in postponing entry of plea until next Monday.

The men arraigned are Charles Wagner, George A. Davidson, "Dago Frank" Tesciano and Robert Cargo. They were brought before the court on an indictment returned last Wednesday by the Federal grand jury, charging them with robbing the mails. Sammy Shapiro, another asserted gangster, arrived in Los Angeles yesterday from Kansas City, where he was arrested, in custody of Deputy United States Marshal Yonkin. Mrs. Dorothy Lee Tesciano and Harry C. Burke are still being sought.

Precautions to prevent an attempted escape were taken by United States Marshal Sittel, who had a squad of deputies posted at advantageous points in the courtroom. Also in the courtroom were deputy sheriffs, police detectives and agents of the Department of Justice and postal inspectors. The trips between the County Jail and the courtroom were uneventful.

Asst. U. S. Atty. Shannesian appeared for the government. McDonald and Thompson appeared for Davidson, Chandos Bush for Wagner and "Dago Frank," and Walter Ham for Cargo.

CONTRACT GIVEN FOR WORK ON BOULEVARD

The Board of Public Works yesterday awarded to Spencer & Holt, the low bidders, the contract for the improvement of Exposition Boulevard from Angeles Mesa Drive to Mansfield street. The low bid was $88,411. For this amount the contractor will grade and pave the street and install ornamental street lights, sewers and other improvements.

GOLDEN ANNIVERSARY OF WEDDING MARKED

Mr. and Mrs. J. J. Hersman of 1749 West Fiftieth street, last night celebrated their golden wedding anniversary, having been married fifty years ago at Hersman, Ill. The celebration was simple, consisting of a dinner given to twelve of their friends.

Mann Act Trial Set to Follow Divorce Action

James B. Bogie and Mrs. Gladys Winterowd, both of Laramie, Wyo., pleaded not guilty yesterday before United States District Judge James to a charge of violating the Mann Act. Bogie is charged with bringing Mrs. Winterowd, the wife of a neighbor, to Los Angeles from Phoenix.

On account of the necessity of Mrs. Winterowd appearing in Laramie on November 1, next, to answer a divorce action, trial of the pair was set for January 4, 1926. Both are at liberty in $1000 bail each.

MOTION TO PURCHASE TROLLEY LINES LOST

Although a majority of the members of the present City Council rode into office last spring on platforms pledging municipal ownership of everything that seemed vote-gettable, Councilman Jacobson found no second yesterday to his motion to purchase the streetcar lines. The Councilman said that he desired improved streetcar service on North Broadway, which is in Councilman Jacobson's Thirteenth District.

VICTIM OF ROBBERY ENDS LIFE

Despondent Over Money Loss Manufacturer Fires Bullet Into Head

Charles Landell, 50 years of age, a cheese manufacturer and said to be a member of the Hughes family of Orange county yesterday went to the home of his father-in-law, Dr. J. S. Calder at 629 East Twenty-first street, and fired a bullet into his own head, inflicting a wound from which he died later.

Detective Lieutenant Hamilton investigated and reported relatives of Landell could advance no direct motive for him seeking to end his life although they said he had been despondent over the loss of a considerable sum of money in a robbery some time ago.

Mr. Landell came to Los Angeles from Hughes, Orange county, where relatives now reside. He lived at 2660 Budlong avenue.

The body was taken to the W. A. Brown Undertaking Company.

SOCIETY

BY JUANA NEAL LEVY

Of much interest to local society was the formal announcement made Sunday afternoon by Lieut.-Col. and Mrs. George Hanson Chase of 2842 Sunset Place, of the engagement of their attractive daughter, Miss Lucy Porter Chase, to John Tilden Donnell, Jr., son of Mr. and Mrs. John Tilden Donnell of South Ardmore avenue, the wedding scheduled to take place December 21.

The news was told to a bevy of young friends of the young betrothed, who were bidden by Mrs. Chase to an informal tea Sunday afternoon, and the den off the drawing-room was beautifully adorned with flowers and ferns, and on the table was an immense oval-shaped basket of gold and green, which was filled with corsage bouquets of violets and a single pink rose in the center. The blossoms were tied with long, narrow, pink satin ribbons, to which was attached a card with a sketch of a pink-robed bridesmaid and the names of the betrothed, with the approaching wedding date.

Fifty-six guests responded to invitations, most of them being Tri-Delta Sorority sisters of the bride-elect, who attended University of Southern California for a year.

Mr. Donnell is an alumnus of Harvard Academy, and the wedding will take place in the Harvard chapel, with Rev. R. B. Gooden, chaplain, officiating.

A number of attractive affairs are being planned for the near future in honor of Miss Chase and Mr. Donnell, who are among the most popular members of the younger set, the latter being one of the Junior Bachelors.

For Bride

Cards are being received from Mrs. Rufus Hills Herron of 327 South Wilton Place for an afternoon reception and tea Friday, the 30th inst., honoring her daughter-in-law, Mrs. Paul Anderson Herron (Catherine Lent Barlow,) a bride of the midsummer. The hours are from 4 to 6 o'clock.

Dinner Party

One of the enjoyable affairs of recent date was the dinner party with which Mr. and Mrs. J. E. Patrick of 495 Maylin street, Pasadena, entertained Sunday evening at the Golf and Country Club, honoring Mr. and Mrs. George E. Moore and Mr. and Mrs. Charles Kearney of Seattle, who have come down to attend the wedding tomorrow evening of Miss Ellen Kearney Patrick, daughter of the hosts, and George E. Moore, Jr. The decorations were attractively carried out with autumn flowers and ferns, and covers arranged for the honor guests, Mrs. F. T. Harkey of Mississippi, Mrs. George Livingston Weiss, Harry Weiss, Miss Miles of Portland, Or., Miss Ellen Kearney Patrick and George E. Moore, Jr.

Wednesday afternoon Miss Patrick entertained at the University Club with a luncheon honoring her bridesmaids, Miss Dorothy Merrill, Miss Alice Sarah Nelson and Miss Susanna Gertrude Watson. The wedding will take place tomorrow evening at the Patrick home. Harry Weiss will serve Mr. Moore as best man.

Birthday Anniversary

One of the enjoyable affairs of recent date was the pleasant surprise party given by Mrs. H. A. Sweet in honor of her husband, celebrating his birthday anniversary with a dinner Monday evening. During the dinner hour a delightful program of music was given and classic dancing. Those included were Mr. and Mrs. Frank Stiefel, Mr. and Mrs. J. V. O'Leary, Miss Pauline Diedrich, Mr. and Mrs. G. H. Johnson, Miss Georgia Johnson, Mr. and Mrs. R. F. Fraser, N. J. Kileet, Russell and Thurlow Fraser, Mrs. Thomas Marshall, Miss Elizabeth Marshall, Miss Margaret Marshall, Mrs. Mary Chisholm, Mr. and Mrs. W. Seeley, K. L. B. Willims, Charles Lauthier, Mr. and Mrs. G. G. Gilson, Mr. and Mrs. E. Hall, Miss Helen Nelson, S. A. Shupp, Mr. and Mrs. Harvey Wilson, S. S. Smith and Miss Nora Comer.

Wedding Announced

Formal announcement is made of the marriage of Miss Margaret Wright, daughter of Mrs. Joseph A. Brown of 1207 West Third street, to John Pierce Herrick of Olean, N. Y., the ceremony taking place the 14th inst., in St. Cecelia Chapel, Riverside, Rev. Ira W. Barnett, D.D., officiating. Owing to the recent death of the bride's father the ceremony was attended by members of the immediate families only. Mr. and Mrs. Herrick will be at home after December 1 at 233 North First street, Olean, N. Y.

Honor Guest

Miss Freda Jackson of Dallas, Tex., who has been visiting Miss Sara Lee Chapman and is now the house guest of Miss Ruth A. Bolgiano, has been the incentive for much entertaining. Miss Chapman gave a large tea in honor of her guest at the Ambassador and Monday Miss Mary Ann Gibson gave a luncheon at the Mary Louise, covers being laid for sixteen. This week a dance is being arranged in her honor at the Woman's University Club. Miss Jackson was a classmate of Miss Bolgiano at Wellesley College, and after making her debut in Dallas Miss Jackson traveled abroad extensively. She will remain here until the last of the month.

Trinity Church Benefit

The elite of the Southland are co-operating with the Episcopal clergymen of Southern California in giving positive assurance that the benefit to be given at the Philharmonic Auditorium tomorrow evening will be one of the really big social events of the season. It is all intended as a direct aid to the rebuilding fund of the Trinity Church in Santa Barbara, which suffered great damage during the recent earthquake.

The Ruth Helen Davis play, "Egypt Speaks to Woman," which has been most successfully received in both London and New York, but which has never been presented on the Pacific Coast, will be given by a cast of celebrated professionals engaged in the various film studios who have volunteered their services. The entire production is under the personal supervision of Mrs. Henry Herbert, wife of the player remembered for his artistic work in the Pilgrimage Play.

Prominent among the patrons and patronesses who are identified with this benefit are the Rt. Rev. and Mrs. William Bertrand Stevens, Rev. and Mrs. George Davidson, Mrs. A. C. Bilicke, Mrs. Spencer H. Smith, Dr. and Mrs. Walter Jarvis Barlow, Mr. and Mrs. Nichols Milbank, Mr. and Mrs. James Rathwell Page, Mrs. Ella Brooks Bolano, Rev. and Mrs. Ray O. Miller, Mrs. Matson Hill, Miss Jean Hill, Mark Turnbull, Rev. James M. Niblo and various others who have arranged for box parties for the play.

ONE of the most attractive members of the younger set in Pasadena and Los Angeles subdeb circles is Miss Elizabeth Schuyler Dunlop, daughter of Dr. and Mrs. John Dunlop of 208 South Grand avenue, in the Crown City, who has just returned from an extended visit in Baltimore. Miss Dunlop is entering the Oldsfield School for Girls in Glencoe this semester.

LANKERSHIM DISTRICT PUBLIC PARK SOUGHT

Councilman Randall announced to the City Council yesterday that a petition soon will be filed with the Council to create an improvement district in the Lankershim district for the purchase of seventy acres of land for a public park and playground. The land under consideration is located near Sherman Way, Riverside Drive and Tujunga avenue. The Councilman also said that he will ask that proceedings be started to enlarge Mission Park adjoining the San Fernando Mission, by the purchase of five acres of land.

Though she is only 15 years of age, Miss Enid Wilson holds the English golf title for girls.

PRACTICAL URINALYSIS (No. [illegible]

ALBUMIN IN THE URINE

In yesterday's paper I told you how to make the Benedict test for sugar in the urine. I gave this test on the recommendation of three nationally known diabetes specialists—Dr. Frederick M. Allen, Dr. Elliott P. Joslin and Dr. Russell M. Wilder.

These doctors believe that the use of this test will disclose many diabetes cases in the early stages, when little damage is done and when perhaps a simple regulation of the diet will be all that is necessary for treatment.

Today I am going to tell you how to make a simple test for albumin in the urine. I wouldn't give this albumin test if I hadn't given you the test for sugar, but it is easily performed and you can give it at the same time you give the sugar test. I have consulted a noted specialist on kidney troubles, Dr. Martin H. Fischer, as to the advisability of giving you this test, and he sees no objection. We believe that it will be helpful in detecting early kidney disorders, as the sugar test will be in detecting diabetes.

If the test shows albumin, then you must go to your physician to have a complete urinalysis, microscopic and chemical, and a thorough examination to locate the trouble, and be advised as to treatment.

Significance of albumin in the urine. The normal urine contains no albumin. When albumin is found it is an evidence of some injury to the kidneys orsome other part of the urinary tract. Blood and pus will give a positive test. (Women who have specimens of their urine examined should not collect it until the menstrual period is completely passed.) There are tests, microscopic and chemical, to decide whether the albumin comes urinary tract. Blood and pus will give a positive test. (Women who have specimens of their urine examined should not collect it until the menstrual period is completely passed.) There are tests, microscopic and chemical, to decide whether the albumin comes from injury to the kidneys or elsewhere along the tract. (Considerable albumin may be present in the urine after hard athletic games. This is temporary, but those with kidney disease [illegible] strenuously.—[illegible]

HIGH SCHOOL FIGURES SET NEW RECORD

Registrations Increase 14 Per-Cent Over Totals of Last May

An increase of 14 per cent is shown in high school enrollment over last May, according to a report made to Assistant Superintendent Arthur L. Gould at the close of the first month of the school term.

ARTHUR L. GOULD.

"These figures came as something of a surprise to me," Mr. Gould declared, "I knew that our general enrollment was heavier than last year but I hardly expected such an increase over last May."

While schools are supposed to have the full registration at the close of the first three weeks of the term, school executives declare the peak is not reached until the middle of November. New pupils are being enrolled every day.

FUNERAL OF ATTORNEY IS TO BE TODAY

Hollen M. Barstow Dies After Law Career Here of Twenty-four Years

Funeral services for Hollen M. Barstow, attorney and former District-Attorney of Napa county, will be conducted today at 10 a.m. at the chapel of Bresee Brothers with interment in Evergreen Cemetery. He died Sunday at his home at 2800 South Flower street after illness of a year. He was 70 years of age and had practiced law forty years, twenty-four in Los Angeles.

HOLLEN M. BARSTOW

Mr. Barstow was born at Mattapoisett, Mass., the son of Wilson and Jane Perry (Faunce) Barstow. He received his education in the common and high schools and studied law in Boston. In 1878 he came to California, and was admitted to practice in Plumas county, where in 1879 he married Mary E. Variel, who survives him. He also leaves a daughter, Mrs. Estelle B. Hueth and a grandson, Potter B. Hueth, a brother, George A. Barstow of Mattapoisett, Mass., and a sister, Mrs. Richard S. Harvey of Washington, D. C.

After serving as District-Attorney of Napa county, Mr. Barstow moved to San Francisco and lived there a while before making his residence in Los Angeles. He was a member of the Los Angels Gar Association and was active in his work within a year of his death.

JUDGE WOOD STEPS DOWN FROM BENCH

Ends Fifteen Years in Superior Court to Enter Practice of Law

At 5 o'clock last night Judge John Perry Wood became Attorney Wood. After fifteen years on the bench of the Superior Court of Los Angeles county, Judge Wood resigned to take up the practice of law. He starts his new career today, as senior member of the firm of Wood Janeway and Pratt, with offices in the Title Insurance Building.

Judge J. P. Wood.

Judge Wood's work as one of the two judges of the probate court will be taken up this morning by Judge York. His vacancy on the Superior Court bench will be filled by P. E. Keeler of Long Beach, in accordance with an appointment made by Gov. Richardson immediately after receiving Judge Wood's resignation several weeks ago.

Principal Housh Declares Japan Land of Shrines

W. H. Housh, former principal of Los Angeles High School, characterizes Japan, in a post card dated at Yokohama and received by J. B. Monlux, deputy superintendent of Schools, yesterday, as a land of shrines and temples.

W. H. HOUSH.

That the money devoted to places of worship might better have been spent in building up the public school system, was the comment of Principal Housh, who is now on a world tour presented him by the faculty and alumni of the high school.

He also reported that he was in excellent health and was having a delightful trip.

COUNTY AND CITY HEADS WILL MEET

Spring-Street Problem in Civic Center Plan Will be Up for Discussion

Representatives of the city and county governments will hold a conference in the Hall of Records tomorrow morning on the proposed straightening of Spring street at First street, and its extension north to Sunset Boulevard. Reduction of the grade of North Broadway also will be taken up.

Private property necessary to the Spring street improvement has been condemned, but part of the property required is owned by the county. This consists of a corner of the Courthouse grounds and a cut through the County Jail and the old Hall of Justice.

North Broadway from First street to the North Broadway tunnel is above the specified grade of four feet at Temple and Broadway and six feet in front of the new Hall of Justice. Thus the first floor of the building is six feet below the sidewalk level and officials desire to have this condition remedied.

Those who will attend the conference are the members of the Board of Supervisors and a committee representing the city, consisting of Mayor Cryer, Director Whitnall of the City Planning Commission, Arthur Eldridge of the Board of Public Works and Councilman Hall.

CHARGE FRAUD OF $20,000,000

Secret Indictments in Texas Oil Case Read Here

Fourteen Operators Will be Tried in Local Court

Companies Involved Invader and Owenwood

Secret indictments returned here June 19, last, against fourteen oil men of Texas and Oklahoma, all officials and employees of the Owen Wood Oil Corporation at Fort Worth, Tex., and the Invader Oil Corporation of Muskogee, Okla., yesterday were opened and read before United States Judge James by J. Edwin Simpson, assistant United States Attorney, on orders of Atty.-Gen. Sargent.

Government estimates place losses to thousands of investors throughout the Southwest, 1500 of whom live in Los Angeles and other Southern California cities and towns, at almost $20,000,000 through corporation pyramiding, false dividends and misrepresentations by the defendants of a nature akin to oil stock sale promotion.

The fact that indictments had been returned against the fourteen men was not disclosed until the Attorney-General's office in Washington had checked the work of the district grand jury.

Release of the bills is the first public action by the government to actually pin a charge of fraudulent use of the mails against the companies, and climaxes months of bitter resistance by the defendants to withhold their records from grand-jury inspection.

OFFICIALS INDICTED

Those indicted, and against whom bench warrants calling for $10,000 bond each were issued yesterday, follow:

Owen A. Wood, Fort Worth, president of the Owen Wood Oil Corporation, trustee of Owen Wood Pool No. 3, and director of the Invader Oil Corporation.

B. Frank Wood, Muskogee, president of the Invader Oil Corporation, vice-president of the Owen Wood Oil Corporation, trustee of the Invader-Burkburnett Syndicate No. 1.

Bert G. Wood, Fort Worth, treasurer and attorney for the Owen Wood Oil Corporation, and secretary and treasurer of the Invader Oil Corporation.

M. Beard, Muskogee banker and vice-president of the Invader Oil Corporation.

R. S. Ogilvy, Chicago, vice-president of the Invader Oil Corporation.

L. C. Boyd, Muskogee, secretary and treasurer of the Invader concern from 1919 to 1924.

J. Lee Nourse, Muskogee, director of the Invader.

WILL ASK REMOVAL

Removal proceedings against the defendants will start immediately, Simpson announced.

The United States government is estimated to have spent more than $50,000 to obtain indictments against the oil promoters. For almost a year J. M. Donaldson, postal inspector, has been investigating the Texas company, and F. L. Clampitt, another inspector operating directly out of Washington, checked the Oklahoma concern. They were assisted by R. A. Latimer and H. H. Hall, accountants.

John S. Pratt of Toledo, O., special assistant to Atty.-Gen. Sargent, was in charge of the investigation and co-operated with U. S. Attys. McNabb and Simpson in presentation of the case to the Federal grand jury.

Six weeks transpired before the jury passed upon the case and had inspected almost ten tons of ledgers, cash books, minutes and letter files of the two organizations and their subsidiary trust estates, known as the Owen Wood Pool No. 3 of Texas, and the Invader-Burkburnett Syndicate No. 1.

The indictments disclose this case to be the largest asserted mail fraud ever investigated in this district, not only in millions and investors involved, but in length of the indictments. Eleven counts charging violation of the mail-fraud code were brought against the Owen Wood defendants, and eight against the Invader officials. Each indictment is seventy-five pages in length.

Hundreds of Business Associates Shocked by Sudden End

Charles L. Estey, nationally-known advertising man and sales-manager, died suddenly yesterday of heart disease at his home at 1401 Alvarado Terrace. He was 55 years of age.

Estey's death came as a shock to hundreds of Los Angeles business men to whom he had become well known, both through business connections and through a series of public addresses on business topics he had given before different organizations since he came here from Chicago two years ago.

He leaves a widow, Mrs. Katheryn Estey, and three adult children, all of the latter living in the East. While no funeral arrangements had been made yesterday, it is considered probable that the body will be sent to Chicago for burial.

Estey was formerly sales and advertising manager for eastern concerns who advertised their products internationally. In addition, he acted as counsel for the National Association of Manufacturing Stationers. Locally, he was advertising counsel for the Printing Trades Division of the Merchants' and Manufacturers' Association, the Crescent Creamery and the Yellow Cab Company. He belonged to the Rotary Club, the Advertising Club and was a member of Truth Lodge, F. & A. M.

THEFT TRIAL FOR SOCIAL SET LEADER

Mrs. Edna Roberts Held to Answer Under Bail in Gem Disappearance

Mrs. Edna Roberts, wife of a steamship company official, was held to answer yesterday by Justice Wood on a charge of grand larceny in connection with the disappearance of a valuable diamond brooch during a dance at the Cocoanut Grove at the Ambassador.

Although Mrs. Roberts at the time of her arrest emphatically denied she had taken the brooch, and although the missing jewelry has not been found, the defense did not offer any evidence yesterday or put anyone on the stand.

Witnesses included Mr. and Mrs. E. G. McClellan, the latter of whom lost the brooch on the dance floor, Col. A. L. Denman, assistant manager of the hotel, James Smith, Jr., former U.S.C. football star, Mary Hawpe and Charles Eames, the latter three of whom made up a dinner party.

Miss McClellan and Col. Denman testified they were told by Smith and the two others in his party that they had seen Mrs. Roberts's partner pick up something and hand it to Mrs. Roberts. When the orchestra leader stopped the music and announced the brooch had been lost, the trio became suspicious. Mrs. McClellan and Col. Denman said they went to Mrs. Roberts's table and demanded the brooch.

Mrs. Roberts, they testified, ran into the women's dressing room adjoining. Mrs. Roberts was searched but the brooch was not found.

Detective Lieutenant Bain told of investigating and placing Mrs. Roberts under arrest. The case was prosecuted by Dep. Dist.-Attys. Hamner and Brayton. Mrs. Roberts was released in $5000 bail.

City Free From Paralysis Cases Again Yesterday

No new cases of infantile paralysis were reported in Los Angeles Sunday or yesterday, according to an official statement issued by City Health Officer Parrish.

The total number of cases this month to date is five, and the total since January 1, last, is 139, previous reports show. The official total for last week was one case, and the official for last month was nineteen cases, records show.

Escaping Gas From Heater Kills Woman

The death of Mrs. Rosenia T. Sherman, 76 years of age, in her one-room cottage at 461 Fraser street, Belvedere Gardens, was attributed to gas poisoning yesterday by Capt. Bright, head of the homicide squad of the Sheriff's office.

The body was found seated in a chair before a heater, with the gas going and the tube disconnected from the fixture, by Walter M. Sherman, a son.

Death came as the result of an accident, according to Capt. Bright, who reached the conclusion that she stumbled and disconnected the tube.

Why Quaker Oats "stands by" you through the morning

ending premature fatigue

Do you feel tired, nervous, hungry, hours before lunch?

Don't jump to the conclusion of poor health. Almost 90% of the time you'll find it's premature fatigue, brought on largely by an ill-balanced breakfast ration. Thousands have "draggy" mornings for that reason.

To feel right, you must have well-balanced, complete food. You can't deceive nature into accepting breakfasts that lack even a single element toward correct food balance.

That is why Quaker Oats is so widely urged today. It is almost a perfectly balanced dish.

Contains 16% protein, food's great tissue builder; 58% carbohydrate, the great energy element; is rich in minerals, and in vitamines. Supplies the "bulk" your diet needs to make laxatives seldom necessary.

Few foods have its remarkable "balance." That is why it stands by you through the morning.

SWEET-POTATO PUDDING

A. F. K., Coronado:

Peel six medium-sized sweet potatoes and grate them into a dish; mix into them two tablespoonfuls of water, one teaspoonful of salt, four tablespoonfuls of sugar, half a teaspoonful of paprika, one tablespoonful of melted butter, a grate of nutmeg, two well-beaten eggs and half a cupful of milk; pour into a buttered fireproof baking dish and bake in a moderate oven.

MACARONI PIE

G. D. F., Los Angeles:

Boil half a pound of macaroni in plenty of boiling salted water until tender, drain in a collander and run cold water through it. Place one cupful of cream mixed with one-third of a cupful of grated Parmesan cheese in a double boiler, add two tablespoonfuls of dry mustard, a seasoning of salt and cayenne pepper and two tablespoonfuls of butter; bring to a boil, mix with the drained macaroni, place in a buttered baking dish, sprinkle with grated bread cdumbs and cheese and brown in a moderate oven.

BAKED PEELED APPLES

V. T. E., Los Angeles:

Select six even-sized firm, tart apples, peel thin, remove the cores, roll in brown sugar, set in a baking dish, fill the core holes with brown sugar, sprinkle over the same more brown sugar, line the dish with sliced lemons, sprinkle lightly with cinnamon, add two tablespoonfuls of water and bake a nice light brown in a moderate oven. Be careful not to get too soft.

FILET OF SOLE, FLORENTINE

H. H. G., Los Angeles:

Remove all wilted leaves from two bunches of spinach and wash in several waters until all sand is removed, drain well, place in a saucepan and cook slowly until tender; drain off all water and chop very fine, add a seasoning of salt, pepper and nutmeg and add a tablespoonful of melted butter; mix well and spread over the bottom of a buttered shallow earthenware or glass baking dish. Place four even-sized filets of sole in a buttered saute pan, add a seasoning of salt, pour into the pan one cupful of water, one cupful of orange juice and one teaspoonful of lemon juice and boil until the filets are done; lift out the filets, place them on the spinach puree and pour over all Mornay sauce, sprinkle with grated cheese, dot with bits of butter and brown in the oven.

MORNAY SAUCE

Heat two cups of cream in the top of a double boiler, stir in the beaten yolks of two eggs, one tablespoonful of grated cheese, one-quarter of a teaspoonful of salt and a few grains of cayenne pepper; stir and cook for three minutes; do not boil.

CHICKEN TAMALES

T. R., Pasadena:

Boil a medium-sized chicken in plenty of boiling water to cover until tender. Drain off the stock, cut the chicken in small pieces, remove all bones and set aside until wanted. Bring the chicken stock to a boil, there should be five cupfuls, and stir into it slowly two cupfuls of yellow cornmeal and stir and cook for one hour; cool, work to a soft dough with one cup of lard, add a seasoning of salt and knead five minutes. Place three large red chili peppers in the oven and roast five minutes, remove the stems and seeds, cover with warm water, add one chopped clove of garlic and simmer until the peppers are soft; run through a sieve, add a little of the water they are cooked in to make a puree. Melt a tablespoon of lard in a saucepan, add one chopped onion and tablespoonful of flour; stir and cook one minute, add the chili puree, the chicken, one cupful seeded raisins, one cupful stoned olives, and a seasoning of salt and pepper, bring to a boil, remove from the stove and cool. Cover dry corn husks with cold water and let stand over night; shake dry, spread on a thin layer of the cornmeal dough over half of each leaf, place a large tablespoonful of the stew in the center of a prepared leaf, roll up, cover with four layers of the prepared leaves and tie the ends with strings made from the leaves. When finished place them in a pot, add a little boiling water and steam one hour.

SWEET CUCUMBER PICKLE

I. J., Burbank:

Make a brine of two tablespoonfuls of salt and two quarts of water and pour over 250 very small cucumbers and let stand twenty-four hours. Drain and then pour over a lot of hot water and again drain until very dry. Heat one quart of vinegar and add to it six cupfuls of brown sugar. Remove the heads from one ounce of cloves and tie in a small cloth bag with two sticks of cinnamon and add to the hot vinegar and sugar. Add the drained cucumbers and just bring to a boil. Cover well with hot vinegar.

PICKLED GHERKINS

Rub fresh-picked green gherkins with a coarse towel wrung out in cold water. Place the cleaned gherkins in layers in a stone jar and sprinkle each layer with salt. When jar is three-quarters full pour over a brine made with three-quarters of a pound of salt and one gallon of water. Let stand twelve hours. Drain, rinse and pack the gherkins in layers in a clean jar or wooden tub and place between each layer a branch of dill, two cloves and a few pepper corns. When jar is packed cover with hot wine or cider vinegar. Cover top with a layer of grape leaves and tight wooden cover. On that place a clean stone to keep the pickles immersed. Keep in a cool dark place for thirty days.

GRAPE JUICE WITHOUT SUGAR

M. C., Los Angeles:

Crush the grapes in a clean bowl and place them in a clean cloth sack. Twist the sack until all the juice is pressed out. Place the juice in a double boiler and heat until it steams; do not allow it to boil. Place the hot juice in a clean enameled kettle or bowl and let stand over night to settle. Run the juice through a flannel bag into bottles. Leave a space in the bottles for the juice to expand. Place the bottles in a kettle that has a wooden rack in the bottom and fill kettle with cold water to within one inch of the top of the bottles. Heat the water until it nearly simmers. Remove bottles and cork with new corks that have been soaked in hot water three hours. Dip tops in paraffine and store in a cold dark place. Lay the bottles on their sides.

GRAPE JUICE

This will not mold nor ferment. Wash and remove from the stems ten pounds of red grapes. Place the cleaned grapes in a kettle and mash with a potato masher. Simmer for thirty minutes. Crush again and press through a cloth bag. Return the strained juice to the stove. Bring to a boil and skim. Add half a cupful of sugar to each two cupfuls of juice. Dissolve and boil for six minutes. Pour into hot bottles and seal tight. Other fruit juices can be preserved the same way.

GRAPE JUICE

Wash and pick over ten pounds of fruit—firm, ripe Concord grapes, reject all bruised and soft ones; leave a few of the stems on the grapes, place in a preserving kettle, add a little cold water, not enough to cover, cook slowly until the skins break, stirring and mashing with a wooden spoon. Boil for two hours, pour into a jelly bag and drain, do not squeeze the bag. Measure the juice into the kettle, bring to a boil, cook for thirty minutes, removing the scum as it rises. Add half a cupful of sugar for every four cupfuls of juice and cook five minutes. Pour into hot sterilized bottles and cork tight while hot.

Former Corona Bank Official Held for Jury

R. G. Van Vleck, former cashier of the Corona National Bank, was held to the United States grand jury by Commissioner Turney yesterday, following his examination. Bank examiners testified, among other things, that he had debited a check for $5000 drawn by Alma May Jordon as only $1. He was accused of aiding and abetting James E. McInery, vice-president of the bank, in misapplying funds, and in making a false report to the Comptroller of the Currency.

McInery and Irving Jordon, who also was connected with the Pasadena National Bank, had previously been held on charges connected with their banks.

Something at Safeway stores you'll appreciate is the intelligent, attentive type of men behind the counters; men who know about food products,—who can offer suggestions about the various items; helpful. Necessary in fact, in view of the many good things that are comparatively little known, and of which you can only learn through being informed while being waited on.

Imagine the ease with which luncheon or even a more substantial meal can be gotten together with a tin of salmon as the mainstay!—dozens of ways of serving it. Several tins should be on pantry shelves—all ready for the unexpected moment when most wanted. Note the mention of salmon, and prices— in the Safeway ad section.

Just arrived. Say they've merely come to visit. More than likely—will remain, as most of us have. Won't be many days until they have learned about the Safeway Stores. So we welcome them as new and valued customers.

The problem of Halloween supper needs is quickly solved by a visit to your Safeway. All the ingredients for cake and pie making, beverages, etc., are readily gotten together. And, by the way, a sandwich filler that's very much liked is made of peanut butter mixed with chopped raisins.

Ask the Safeway man about these and other items.

The Special price of 32c for the large bottle of Heins Chili Sauce should attract considerable attention. There's nothing to equal this Chili Sauce of Heins.

HOW TO DARKEN GRAY HAIR

Makes One Look Younger.

Men and women who used to be called Grandpa and Grandma are now setting the styles by darkening their gray hair at home.

For instance, J. A. McCrea, a well known Californian, recently made the following statement:

"Anyone can prepare a simple mixture in five minutes, that will darken gray hair, and make it soft and glossy. Merely take a half-pint of water, add 1 ounce of bay rum, a small box of Barbo Compound, and ¼ ounce of glycerine.

These ingredients can be bought at any drug store at trifling cost. Apply to the hair twice weekly with a comb. It does not color the scalp, is not sticky or greasy and will not rub off."—[Advertisement.

Mrs. Audrey Savin

Portland, Oreg.—"A few years ago I caught a bad cold which settled on my lungs and in the bronchial tubes. I had a severe cough, and became so bad that for six weeks I could not lie down, would have to sit up in a Morris chair. I doctored but did not get any better. I was 'all in' physically, and began myself to think there was no help for me, when I was advised by one of my doctors to take Dr. Pierce's Golden Medical Discovery. This medicine so completely relieved me of my trouble that I have never had any return of it. My lungs and bronchials are strong and never give me any trouble."—Mrs. Audrey Savin, 693 Tacoma Ave.

Obtain this "Discovery" of Dr. Pierce's in tablets or liquid at your nearest drug store and you'll quickly find that it builds you up, beside correcting your distress.

Write Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for free medical advice. Send 10c for trial pkg. tablets.—[Advertisement.

AUTO MARATHON RECORD BROKEN

Endurance Driver Stays at Wheel 125 Hours

Thousands Cheer Darrell as Former Mark Falls

Car and Pilot End Gruelling Test in Good Shape

A new and spectacular page of automobile history was concluded late yesterday afternoon by Bobbiee Darrell, ace of America's endurance pilots.

Exactly 125 hours from the time he started his assault on all existing marathon driving records, Darrell brought his Gardner supereight sedan to a halt in front of The Times to establish a new world's endurance mark for sleepless driving and another world's record for total mileage in a test of this sort.

PILOT TIRED OUT

Drawn and dead-weary from the gruelling grind, but still smiling, the courageous pilot stumbled from the driver's seat of his car, to the wheel of which he had been handcuffed during the entire trip, to be received by an enthusiastic crowd assembled to witness the conclusion of the unique test.

"I feel great," Darrell said as he shook his legs in an effort to restore circulation. "I'm going to sleep until 4 p.m. tomorrow and then I'll be in as good condition as I ever was. The trip didn't hurt me and everybody co-operated with me wonderfully. But I won't attempt to break another record for some little time."

As he stepped from the car a large wreath of roses was placed about the pilot's neck by Marian Skilken and Maria Hurst, two feminine admirers. His nurse, Miss Mabel Anderson, who had accompanied Darrell on the last two and one-half days of his test, stated his condition was good, that his temperature was about normal and that physically he had not suffered.

CONTINUOUS DRIVE

The endurance test was to have ended at 1:30 p.m. yesterday in front of The Times. But at the last minute, Darrell was informed that another pilot had set a mark of 124 hours of sleepless driving a day or so before and he immediately changed his plans and decided to continue for another four hours in order to better this new record. The trip ended officially at 5:10 p.m. At noon, however, Darrell in his endurance car headed a parade through the downtown district which ended in front of The Times Building, where the National Ice Cream Company passed out thousands of Eskimo pies, and the G. J. Johnson Cigar Company distributed other thousands of its First Cabinet cigars.

The car, automobile officials stated, was in good condition. Darrell had driven it a total of 2266 miles to better the previous mileage record by some fifty miles. The motor of the car had not stopped once during the test and Darrell himself had not obtained a wink of sleep. Observers accompanied Darrell in relays during the duration of the gruelling test.

FEAT REMARKABLE

Darrell's feat is one of the most remarkable in motor annals, according to the observers. Unlike other drivers who have engaged in tests of this sort, he had driven almost exclusively through traffic the entire time. He also used a comfortable closed car, conducive to sleep, whereas the other drivers had shunned the closed models because of fear of falling asleep while driving.

Immediately after his wrist was unlocked from the handcuffs, Darrell stepped out of his machine and into another to be driven home for a much-needed rest. His nurse, Miss Anderson, will remain with him during the night and morning to watch his condition.

REALTY MAN STRICKEN IN COURTROOM

Morris Franklyn Suffers Stroke as Judge Gives Him Divorce Decree

Stricken with paralysis as he recounted the loss twelve years ago in Palestine of his wife's love, Morris Franklyn of Los Angeles, a real-estate broker, collapsed in the Superior Court at San Bernardino yesterday a few minutes before he was granted a divorce by Judge Charles L. Allison.

Franklyn, who has been directing sales at a Big Bear Valley subdivision, was taken to the Ramona Hospital, where physicians pronounced his illness critical.

Franklyn said he married Melva Franklyn in Middleville, N. H., August 1, 1909. An estrangement occurred a few years later, Franklyn said, and he sailed for the Holy Land to forget his unhappiness. While in Palestine, he received a cablegram from his wife, who asked forgiveness, and he forwarded her $1000 with which to obtain passage from New York, he said.

In Palestine, the second honeymoon was brief, Franklyn said, his wife eloping with a dashing young foreigner.

Franklyn appeared highly nervous as he left the witness stand, but walked steadily. When his sister, Mrs. Marian Wilkins, the next witness, concluded her testimony, Franklyn collapsed just as the jurist was issuing the divorce decree.

POSTMISTRESS DENIES FUNDS MISUSE CHARGE

Mrs. Agnes Storey, formerly acting postmistress at Palliser, San Bernardino county, pleaded not guilty yesterday to an indictment charging misuse of $740 postal funds. At the request of her attorney, D. G. Taylor, Judge Henning set the case over to permit Dr. E. L. Anthony, a government physician, to test Mrs. Storey's mental condition.

BEGIN QUIZ ON FLURRY IN STOCKS

Investors Give Testimony on Asserted Bucket-Shop Manipulations

Dist.-Atty. Keyes and Dep. Dist.-Atty. Richardson yesterday heard the complaints of a number of investors in connection with the asserted bucket-shop manipulation of stock of the Julian Petroleum Corporation last Friday, which resulted, according to S. C. Lewis, president of the corporation, in a loss to investors ranging from $1,000,000 to $2,000,000. The reports given by investors were turned over to Investigator Reimer and Chief of Detectives Cohn of the District Attorney's staff for investigation.

Keyes held a telephonic conference with State Corporation Commissioner Daugherty, who assured him of his support in the investigation. Richardson was in touch with Field Investigator Bishman of the State department's staff.

The investigation is being conducted to ascertain whether the State bucket-shop law has been violated. Upon the findings of the investigators will rest the question of grand-jury action. The investigation will be directed chiefly into the proceedings on the Los Angeles Stock Exchange last Friday and the events leading up to the flurry in Julian stock.

The investigation, however, is not restricted to the happenings to Julian stock. Stories of investors in other companies who say they have suffered from asserted bucket-shop dealings also are being heard and checked up.

President Lewis of the Julian company and several associates called on Keyes late Friday to charge that nonmembers of the stock exchange, co-operating with other persons, had forced down Julian stock through bucket-shop methods.

PASTORS OF CITY PLEDGE CHEST HELP

All Local Denominations Represented at Luncheon to Discuss Campaign

Pledging their support in the forthcoming appeal sixty ministers of Los Angeles churches met yesterday noon at Community Chest headquarters. Every denomination in the city was represented at the luncheon.

James G. Warren, Joseph Scott and Louis Nordlinger, who comprise the church co-operation committee, outlined Chest plans to the ministers and secured the co-operation of every pastor present.

The 1926 Chest campaign starts November 9. Addresses will be made by ministers from practically every pulpit in the city the day before the appeal gets under way and again on November 15, four days before the close of the campaign.

With the start of the appeal but three weeks away, workers are being secured from all parts of the city to take part in the canvas, which must raise $2,330,795.94 in order to meet the 1926 Chest quota. Volunteers are needed to complete the army of 14,000, and those who can serve are asked to report at Chest headquarters, 911 South Grand avenue.

Following is a list of the ministers who were present at yesterday's meeting:

William A. Brown, Byron P. Hovey, C. O. Kimball, Guy. McBride, George E. Monkman, Luther A. Rice, B. Dudley Snudden, George A. Warmer, R. J. Wyckoff, E. N. Allen, Frank M. Cross, John E. Fry, C. H. Gaskell, W. P. Sandis, Hugh K. Walker, W. P. Hardy, J. M. Schaefle, W. S. Buchanan, M. C. Hutchinson, Dan Trundle, F. G. Davies, James A. Francis, Rufus Keyser, E. E. Johnson, Albert Claassen, T. C. Abel, Rabbi Trattner, Rabbi Dubin, Francis J. Consty, L. P. Genest, F. McHugh, F. A. Wekenman, G. Ardans, M. O'Gorman, James A. Martin, M. O'Halloran, T. N. O'Toole, E. R. Kirk, W. Forde, J. Egan, J. A. Hunt, R. E. Lucey, J. P. Grajales, J. G. Morehead, R. Fuhr, J. J. Gallagher, M. C. Hanley, M. F. Murphy, James O'Callahan and Thomas O'Reegan.

BIDDLE QUIZ OUTCOME SEEN

Officers Indicate County Chemist's Analysis Will Not Change Original Autopsy Findings

Indications that the chemical analysis now being made by County Chemist Walker for Coroner Nance in the investigation of the mysterious death of Mrs. Craig Biddle, Philadelphia society leader, will not change the original autopsy findings in the case were given yesterday by the authorities in charge of the inquiry.

While County Chemist Walker's report is not expected to be in the Coroner's hands until tonight or possibly tomorrow night, nothing has been developed to change the original statements of the police and other investigators that symptoms tending to show death from alcoholism were found by County Autopsy Surgeon Wagner Sunday.

This was the unofficial report yesterday of Assistant Captain of Detectives Bean, head of the homicide squad, and of Dep. Dist.-Atty. Davis, director of the homicide bureau of the District Attorney's office.

Pending the outcome of the chemical examination there will be no action by the police or the District Attorney's office, officials of both branches of the legal machinery said yesterday. Coroner Nance has postponed any action by his office. In the event that no poison is found, there will be no inquest, as Dr. Wagner's original report will stand.

POISON SIGNS ABSENT

That the entire group of corrosive poisons has practically been eliminated as a possibility was disclosed yesterday. This information came from persons attending the autopsy, and is based on the fact that there were no visible signs of any corrosive poison having entered the body.

The analysis of the liquor found in the apartment, and of the pills Mrs. Biddle is known to have been using just before her death will be carried on by the County Chemist's office in conjunction with the toxicological examination of the body, Capt. Bean and Detective Lieutenants Craig and Jarvis said yesterday.

Detective Craig is known to have checked up some phases of the case not connected with the chemical or pathological sides of the investigation, but his action on it is being held in abeyance pending the report on the possibility that poison might have caused Mrs. Biddle's death.

ANALYZE LIQUOR

Several reports were made during the day to Capt. Bean, most of them concerned with clews regarding the source of the liquor found in the apartment. Mrs. Biddle was reported to have purchased some gin from a young man known as a bootlegger, and if any poison is found in the sample taken from the apartment, the police will make an attempt to learn where he obtained his supply.

The body of the late society dictator will be taken back to the old family home at Philadelphia for burial, it appeared yesterday. At the Breese Brothers' mortuary, where the body is being held pending the outcome of the chemical analysis of its contents, it was stated that tentative arrangements for the removal of the body to Philadelphia have been made by Mr. Biddle.

Mr. Biddle, it was stated, will probably accompany the body to Philadelphia, the scene of his wife's first social conquests and her ultimate assumption of the power which made her one of the real society dictators of the nation.

CHAMPION MUSHER OF NORTH COMES SOUTH

Tired of the silent, frozen North, J. B. Bacon, champion dog team man of the Hudson Bay district, has brought five of his dogs with him and taken up permanent residence at 2981 Falling Leaf, Wilmire. Bacon spent the last twenty-two years in The Pas, the last outpost of civilization in Northern Manitoba, he said. He is a native of the province. Bacon's dog team won $1200 at The Pas and $1000 at Quebec in February races, taking first prize in both events. His dogs are huskies, part wolf and part Eskimo dog. "It takes about twenty crosses to get the best wolf-dog," said Bacon, who has been a dog raiser all his life.

RICH WOMAN FOUND LYING IN ROADWAY

Cousin of State's Attorney Crowe of Illinois Hurt by Fall Into Street

By a "Times" Staff Correspondent

PASADENA, Oct. 19.—Found unconscious in the street, her leg and shoulder broken, Miss Mary E. Crowe, wealthy winter resident of Pasadena, is at the Alhambra Hospital, where physicians are fighting to save her life.

Miss Crowe, who is 59 years of age, was standing on the Pacific Electric station platform at Garfield avenue and Huntington Drive waiting for a car late last evening when she lost her balance and fell backward into the street, striking her head on the pavement.

She lay unconscious on the deserted street for several hours until Mr. and Mrs. F. M. Wiles, of 300 San Pasqual avenue, discovered her and rushed her to the hospital, where she was given emergency treatment and revived.

Fear of internal injuries, in addition to the broken bones, was expressed by physicians attending her. X-ray examinations were being made today to determine the extent of her injuries.

Miss Crowe spends every winter in Pasadena. She came here recently and has been making her home with Miss Amy Mitchell, 533 South Hudson avenue.

DAHL LOWEST BIDDER

Santa Ana Contractor Low Man in Punta Causeway Tender

Bids opened here yesterday at the State Highway Commission offices showed that Edward W. Dahl, Santa Ana contractor, was the lowest bidder at $13,056 for the construction of a causeway along the State highway near Punta.

A bid of $15,037 was submitted by the J. W. Breedlove Corporation of Los Angeles, and another for $17,165 was submitted by the McCrary Company, a local concern.

The causeway will be constructed of reinforced concrete and will be the connecting link in the construction of the coast highway in Ventura county.

ENA VIELA ENCHANTS SECOND WEEK

By Grace Kingsley

Another postgraduate-caliber bill at the Orpheum this week, with every act a twinkler. Even the holdovers and comeback-quickers are so good that they seem even better on a second showing than on a first.

If the picture producers don't grab off pretty Nena Viela, they ought to see a doctor, because there is surely something wrong with them. Here is a girl who has fresh youth, exquisite grace and beauty, and already, despite her youth, a perfect dancing and pantomimic skill. Sounds as though I owned stock in her, doesn't it? But honestly, all these efforts are in behalf of art. Nena does an enchantment repeat this week.

So much so, indeed, that Victor Shertzinger tells me that on the strength of our few well-chosen words last week regarding the act, he went down to see "Rosita," and was so inspired by the lovely Nena that he is writing a song to her called "Rosita." With the lovely harmony twins, Marquuita and Rosita, bringing in the money, he ought to have a cushy winter.

Jimmy Savo remains my favorite clown. His sagacious cracks, his pantomime and mugging, are great stuff. Coming after Harry Delf, he is poorly spotted, however, and the finish of his act is weak, so that he isn't the wham with the gang that he was last time he was here.

Marion Harris and her gentle pastelle drollery and drama, injected into her velvet-voiced songs, makes a wide, sweet hit as always. She has some new numbers, running more to dulce and less to caliente, but nobody ever will make of "St. Louis Blues" and "That's My Baby" what she can make of these two "hot" songs.

Her clothes are lovely, too, except that she needs brassiere first-aid. Roy Fox has tamed the wild cornet and you should hear him play those Cadman things! Russell Robinson at the piano puts over his song hits neatly between the other two.

Radio is bound to make a lot of inharmony as well as harmony in a home, and "static" is so natural you nearly leap over the foots and take sides between the husband and wife. The act assays a lot of laughs, with Julia Nash pushing them over fast.

Say, however did they come to spot a face card on the deuce place? Buddy Doyle is headed right for first honors. He hides his manly beauty behind the blackface make-up; but, oh, boy, you don't need to see him—just listen! There's a voice that's going to be a household word in every phonograph factory one of these days. It is mellow, teasing, coaxing, the ace in the heart suit. He puts over a line of nifties like a bunch of firecrackers, and his artist get-up is all to the poster.

Too bad Larry Stoutenburgh is on last, because unless you are a billiard bum you can't or just won't concentrate on this act as you should after watching a fast bill like this one all afternoon. Then Miss George coming out and singing at the opening isn't so good. She is pleasing enough, but there's no fresh interest to give her by that time. Stoutenburgh is a miracle of skill.

"The Frog Man" mankin could "The Frog man" could head a whole frog school and then give the frogs p. g. work. He's a wonderful contortionist, and if you like that sort of thing don't miss the opening act.

Harry Delf continues to be a dazzling twinkler, and was in fine form yesterday with his amazingly clever dancing, kidding and personality.

CHARLES MACK WILL HAVE COVETED ROLE

The luck of the Irish, it appears, is to be with Charles Emmett Mack again. This promising young actor, who helped D. W. Griffith put charm into "America," and "Dream Street," and who is playing the part of Gareth Johns with Pola Negri at present in "The Tatooed Countess," which Mal St. Clair is directing for Paramount—I cume out breathless but triumphant on that phrase, didn't I?—is to have another important role, according to report.

Mr. Mack will, if nothing goes wrong with present plans, play a big role in Richard Connell's story, "A Friend of Napoleon," a charming tale previously printed in a popular magazine.

This will serve as a vehicle for Betty Bronson, and will be a William K. Howard production. It is on the cards that Tully Marshall will play the name part—an appealing character role in which the janitor of a wax works exhibit guards Napoleon's statue. Mack will of course carry the masculine romantic interest opposite Miss Bronson.

ZaSu Pitts is Loaned

ZaSu Pitts had been loaned by Metro-Goldwyn-Mayer to play the role of "Anne Pogani" in "The Moving Finger," a James Cruze production to be made by Famous-Players Lasky. The role is one of the eccentric character types Miss Pitts has become noted for. Miss Pitts is under contract to the Culver City Studios, where she has scored some of her most brilliant successes.

'Never Say Die' in Second Week at Majestic

"Never Say Die" is proving the most popular comedy the Majestic Theater has offered since Michael Corper began ruling the destinies of that Broadway theater several months ago.

The play's first week proved a continuous triumph for Edward Everett Horton, the star in honor of whose sixth anniversary at the Majestic the piece was revived, and the second week opened Sunday with practically capacity audiences at both afternoon and evening performances.

Barbara Brown has quite captured Los Angeles theatergoers in the appealing ingenue lead role opposite Horton, and Franklin Pangborn adds a fine characterization as a faithful valet. The supporting cast also include Fred Cummings, John Graham, Ruth Stewart, Mildred Hastings, Howard Nugent, Forrest Seabury, Herbert Bethew, Burdell Jacobs and Leigh Willard.

Same Old Charlie in New Locale

Charles Chaplin

Whose latest comedy, "The Gold Rush," is now in the last two weeks of its run at Grauman's Egyptian Theater.

EXCELLENT BILL AT HILLSTREET

If Deno and Rochelle had appeared alone this week at the Hillstreet it would still have been a good bill, but with the able assistance of the other entertainers it emerges one of the best programs which has been presented at that theater in weeks.

The well-known couple, of course, do their famous Apache dance and this writer could watch them repeat it again and again, for they seem to bring to it the real spirit and idea of the Apache themselves.

However, much as one would like to have it rest there, the spotlight does not belong exclusively to Deno and Rochelle. Chas Chase with his fire-eating tendencies certainly deserves some mention. For the major part of his act he walks gayly around the stage clad in the usual assembled garb of a comedy gentleman, and the audience laughs gayly while he does nothing. However, his leisurely endeavors end when he starts in swallowing lighted matches, and he is quite adept.

Olga Steek, known as America's tiniest prima donna, sings her quota of songs very nicely. There is nothing terrifically out of the ordinary with her act, but she is very charming and her voice most pleasing.

Marie Walsh and Frank Ellis have a most amusing act which includes several smart lines and quips, while Hartley and Patterson also add to the general merriment. Leona and Zippy Connell appear with a new interpretation of Cinderella and the prince, and after donning the glass slipper there is some good dancing.

Adding the out-of-doors touch to the bill is a feature photoplay, "The Storm Breaker," with House Peters and Ruth Clifford. Mr. Peters is always at home featured against an angry sky in the heart of the deep woods, and in this picture is very good.

SHOW WILL ENTERTAIN VETERANS

Special Programs on Bill of Hollywood Exposition for Men Who Saw Service

All war veterans will be honored with festivities at the Hollywood Industrial Show sponsored by Hollywood Camp No. 82, Spanish War Veterans. Special nights with patriotic programs will be set aside for the G.A.R., American Legion and kindred organizations.

The show, which will continue for a week, opened last night in a mammoth tent at Hollywood Boulevard and Orchid avenue. After a parade through Hollywood's business section, the public was welcomed on behalf of the veterans by Capt. C. C. McClary of the Los Angeles police department, commander of Hollywood Camp, and Police Judge Frederickson, a member of the Spanish War Veterans.

The industrial section of the show includes sixty-two exhibits of manufactured goods and products of the region. There is a wide range of amusement features.

FILMS SATISFY NOTED AUTHOR

Stewart Has no Aspiration for Revolutionizing Industry

Found at last! A famous author who doesn't want to revolutionize the screen!

His name is Donald Ogden Stewart, and he has just arrived in California to serve what he calls an "apprenticeship" at the Metro-Goldwyn-Mayer studios.

Stewart, author of the remarkably successful novel, "The Crazy Fool," recently purchased by the studios, is under contract as an editor and supervisor, possibly to do his first work on his own novel. He is one of the best-known authors in America, and six of his books in succession have won wide popularity.

"I never had anything to do with pictures before," says Stewart, "and have no illusions about revolutionizing them—nor have I any idea that I know anything about them. I am going to try to learn the business before I talk about it."

Stewart is the author of "A Parody Outline of History," hailed as a classic in humor, "Perfect Behavior," "Aunt Polly's Story of Mankind," and "Mr. and Mrs. Haddock Abroad."

ROMANCES RENEWED HERE SOON

Location Trip Interrupts Two Engagements and One Honeymoon

Hollywood romance will resume its natural trend this week. Three couples, separated for several weeks, when Metropolitan dispatched its company filming "Rocking Moon" to Alaska, will be reunited.

George Melford, producing this picture for Metropolitan, is one of the absent lovers. Just before his departure for Sitka, Melford announced his coming marriage to Diana Miller, featured Fox actress, now playing in Buck Jones's current vehicle, "The Cowboy Prince." This wedding is scheduled to take place the latter part of November.

Lilyan Tashman, feminine star of the picture, is the second member of a temporarily broken romance, who is with the "Rocking Moon" unit. Two weeks before she left Los Angeles, she became the wife of Edmund Lowe. Because he is being starred in Elinor Glyn's "The Reason Why" at Metro-Goldwyn-Mayer, Lowe could not carry out carefully laid plans to visit her in Alaska.

John Bowers, masculine star of the picture, is the third lover to be rudely separated from the girl of his heart by the whims of the producers. Bowers is engaged to marry Marguerite De La Motte, probably just before Christmas. He had already started the building of a home in which they plan to live following their wedding. Miss De La Motte, now starring in Hollywood in Belasco's "Fifth Avenue," is supervising continuance of construction on the home.

The "Rocking Moon" company has departed from Sitka, and is en route to this city. A few delays on the return trip will necessitate two weeks' traveling time.

Blanche Sweet Returns to Play in "Far Cry"

Blanche Sweet, First National feature player, who has been in the East playing opposite Ben Lyons in a Robert Kane production, "Invisible Wounds," is on her way to the West Coast to prepare for a leading role in the forthcoming production of "Far Cry," which is to be made under the direction of Sylvano Balboni. She will arrive this week.

Before her eastern engagement Miss Sweet essayed the leading feminine role in Edwin Carewe's notable production, "Why Women Love," soon to be released locally.

In both photoplays the noted screen player is said to hang up new laurels for herself.

JOAN MURRAY IN DEBUT

Joan, daughter of John T. Murray, popular screen comedian, commenced her eighth year by making her film debut in Edwin Carewe's "Joanna," under the watchful eye of her daddy, who also plays in the picture.

PLAYDOM

O'NEILL PLAY AGAIN

"BEYOND THE HORIZON" EFFECTIVE AT POTBOILERS

By Edwin Schallert

Yet another very successful endeavor in play production may be added to the credit of the Potboilers. For the second time in their history as an organization they are offering Eugene O'Neill's "Beyond the Horizon," and the performance equals in well-founded quality any that they have recently given, if it does not actually seem in its general character a shade more effectual than usual.

"Beyond the Horizon" possesses, of course, somewhat less of newness than others of the plays that the Potboilers have recently presented. It is among O'Neill's earlier writings. At the same time, it is exceptionally welcome, because it offers such potently developed situations and such unrelenting contrasts between the idealistic and the practical. Also it is peculiarly rich in that compelling and so often almost indefinable force known as "atmosphere."

It is a curiously visionary title that is affixed to this story of the muddled destinies of two farm lads, but the mood that this title suggests is one that haunts the entire action—the beckoning influence lies beyond the horizon.

Not through the stage action itself, but constantly through the dialogue is this influence conveyed. The inevitable echo of impressions of faraway lands and countries.

Actually the audience never sees aught but the drab setting of the farm and its effect on the youth who sacrifices his desire to rove in order to marry and settle down on the domain of his father, for which domain he has absolutely no kinship.

In many ways, to be sure, "Beyond the Horizon" is a drama of bitterness rather than beauty. It is not for the theatergoer seeking out the diverting—unless diversion spells enjoying the unfolding of a plot that is in its essence tragic—not only for a single personage therein, but for virtually each and every one on the stage. Actually there is only one death that is visualized, and that is at the culmination. Another is merely spoken of.

Technically, this play commands a broad interest. The sequence of its dramatic climaxes is quite remarkable. It holds out with telling consistency of purpose from the beginning almost to the very end. The wandering away into the realm of words—the literary expeditions that are so often typical of the O'Neill play are in the main absent. For the most part, "Beyond the Horizon" might be described as down to the soil—and with a gripping force of reality. Only toward the end does there appear a less definite objective, and even that can be a plentiful cause for argument, especially as regards those who are O'Neill devotees.

I would hardly compare the production given last night with the one that I attended three years ago in a little upstairs room down on Los Angeles. It was there, that the Potboilers had their earliest home as a play producing organization, I believe, and it was an humble retreat, indeed, with old-fashioned schoolyard benches instead of chairs. They have progressed considerably beyond in the location they now occupy in the Denishawn Building, although it is much to be hoped that they will some day have their own theater.

The production of "Beyond the Horizon" presents a cast that is exceptionally well balanced. At least, none of the parts are done in that downright amateurish fashion which is sometimes true of the organization. I can see chance for improvement yet in the portrayals both of Karyl Marker and Kenneth Chryst as the two brothers.

To his credit it must be said that Mr. Marker achieved a very good climax in the big dramatic scene where he hurls epithets at his wife for her developing infatuation for his brother. Elsewhere his interpretation did not suggest needful visionary feeling. I would say that it was inclined to be too lackadaisical.

Much hinges on this portrayal, of course, since he is the victim, yet cannot attract too much sympathy. The character of the wife also is difficult, and was dramatically and emotionally very well done indeed by Theodora Warfield in some of the tenser scenes. It needs more of subtlety, however.

Kenneth Chryst gained quite well throughout the performance, and like the others, was perhaps at his best where the call was for dramatic effect.

Exceedingly fine was the mother portrayed by Edith Hollister. Good also the sea captain of Mique Spooner. Arthur Turner Foster's denunciation of his son was also splendid. Jane K. Loofbourrow amused with her characterization. Others were Adrian Weil and Robert S. Hall.

Altogether a very interesting production.

ORCHESTRA TO PLAY FOR NEWSPAPER MEN

Frank L. Newman, managing director of the Metropolitan, Million Dollar and Rialto theaters, will draw the finest talent from the theaters under his direction to provide gala entertainment for the California Circulation Men's Association at their convention banquet tonight at the Ambassador.

Mr. Newman, who is to be a speaker at the banquet, will present Waring's Pennsylvanians, the famous collegiate orchestra which is just finishing an eight weeks' engagement at the Million Dollar and which opens next Saturday at the Metropolitan. The Pennsylvanians will render some of their peppiest syncopation for the festive newspaper men.

WILLIAM FOX SIGNS NEW COMEDY LEADS

William Fox has signed two "pint-sized" comedy leads to long-term contracts. Georgie Harris and Barbara Luddy are the latest additions to the Fox West Coast studios. Miss Luddy and Mr. Harris will have the leading roles in a new Irish-Jewish comedy series to be filmed shortly.

"East Side, West Side," the first comedy of this new series, has just been completed under the direction of Ben Stoloff, with Mr. Harris and Miss Luddy in the leading roles.

FILM DISPLAYS FASHIONS

"Sally, Irene and Mary," the Edmund Goulding production for Metro-Goldwyn-Mayer, will reveal the most recent and the most expensive of the season's gowns.

Though Sally is the only one of the trio who is beautifully gowned there are at least a dozen women appearing in the important scenes of the story who have three and four changes of wardrobe. These women have to represent smart show girls and therefore must be well groomed at all times.

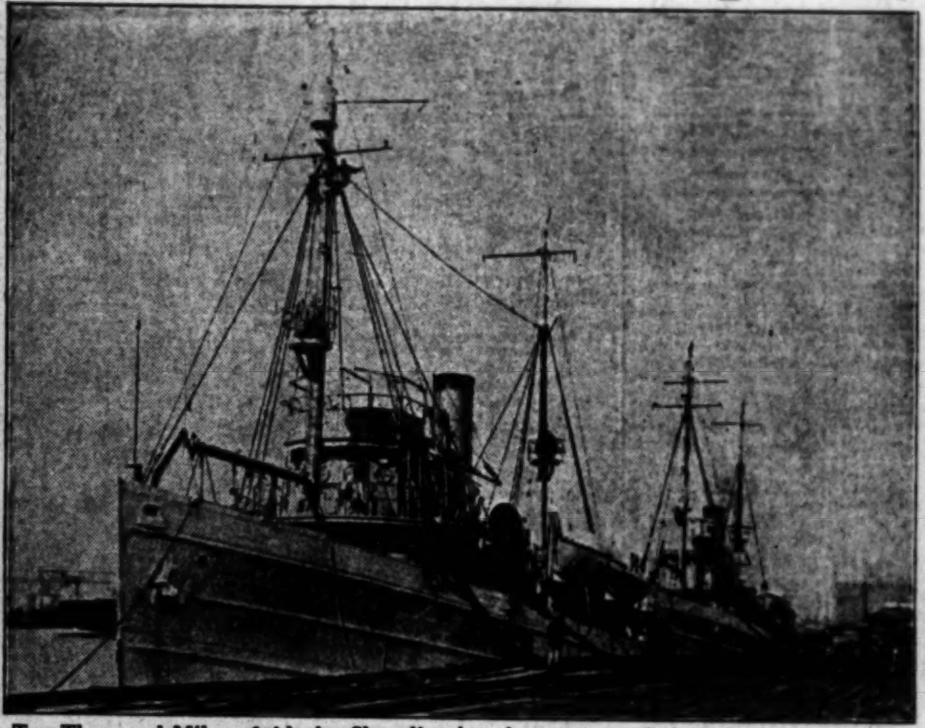
Gwen Lee, for instance, though she only appears in two scenes, has a different gown each time. One is a magnificent street costume of black satin richly trimmed with lynx fur. The other is an evening dress of pink satin with a wrap to match. This is an imported costume and is one of the most chic and effective seen in the picture. The two costumes worn by Miss Lee are valued at $4000.

Molly MaKaye is another girl who plays a bit and she has three changes of costume. A street gown of black velvet handsomely trimmed with chinchilla and with a hat to match cost $2000. An evening gown of real lace over pink taffeta and trimmed with French flowers cost $500 and a dancing dress which she wears on the stage and which is a gorgeous creation of silver lace and souffle cost $1000.

And so with all the costumes worn by those playing small parts and extra. The wardrobe is estimated at a considerable fortune on this production, which features Constance Bennett, Joan Crawford and Sally O'Neil, and in which William Haines, Henry Kolker and Douglas Gilmore play the male leads.

Edmund Goulding adapted the story to the screen from the stage play by Ed Dowling.

Government Exploration Ships Back From Summer in Arctic



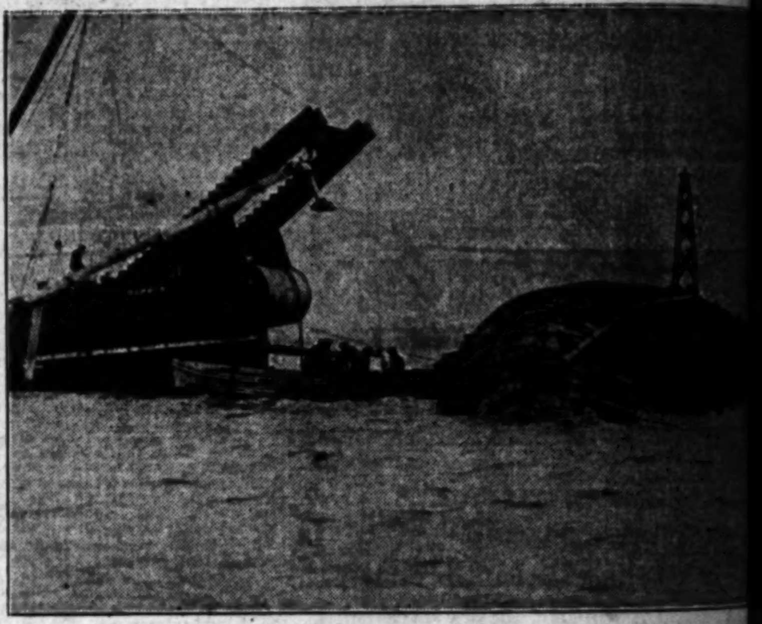
Ten Thousand Miles of Alaska Shoreline has been mapped during the past summer by the United States Coast and Geodetic Survey ships Pioneer and Discover, pictured above as they arrived last week at Oakland for overhauling in preparation for next summer's work. (P. & A. photo.)

Chinese Language Is No Mystery to 8-year-old John Todd, a relative of the late Congressman Julius Kahn. John, who is pictured above with his mother on their return from the Orient, speaks Chinese fluently. (P. & A. photo.)

An Open Switch Was Responsible for the wrecking of the carrying a world series crowd from Pittsburgh, at Wheeling, W. Va. Three members of the train crew were killed and a score of jured in the wreck. (P. & A. photo.)

After Relatives Had Collected Insurance amounting to $85,000 because of his supposed death, William H. Turner (above,) formerly a miner at McCarr, Ky., returned to the United States last week to face a charge of murder growing out of the mine explosion in which he was believed to have died. (P. & A. photo.)

Too Good to Their Prisoners, Sheriff P. M. Hoffman (left) of Cook County, Illinois, and Warden W. H. Wesbrook of the Cook County Jail, must serve prison sentences. They are charged with having extended unreasonable special privileges to two wealthy rum-runner prisoners. (P. & A. photo.)

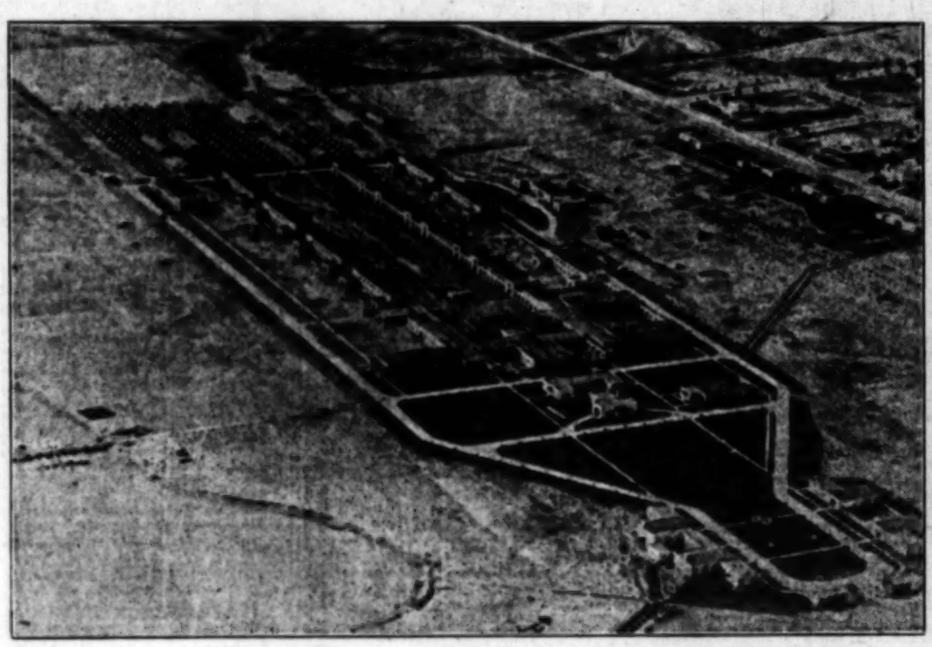


An Untold Tale of the World War comes to light with the the British monitor Glatton at the entrance to Dover Harbor. the Glatton, loaded with explosives, caught fire and was of sixty men being sacrificed. (Kadel & Herbert photo.)

Use of Airplane in Arctic exploration was defended before the Coolidge air board last week by Lieutenant-Commander R. E. Byrd (above,) just returned to civilization after a summer in the Arctic with the MacMillan expedition. (P. & A. photo.)

The Last Photo of President Coolidge's Cabinet as it stood before the resignation of was effective is reproduced above. Seated, left to right—Postmaster-General New, Secretaries logg, President Coolidge, Secretary Mellon and Atty.-Gen. Sargent. Standing, left to right— Hoover, Jardine, Work and Wilbur. The photo was made at the President's request as a retiring Secretary of War. (P. & A. photo.)

The Highest Sport Ground in the World is the plateau of the Jungfraujoch in the Bernese Alps, Switzerland, 11,500 feet above sea level. Photo shows devotees of skiing enjoying themselves on the plateau. Arrow indicates the highest hotel in the world. (Kadel & Herbert photo.)



Eleven Thousand Boys Have Been Trained at the San Diego Naval Training Station since June, 1923, when it was opened. The above aerial view shows the station, which is located on the harbor just outside of San Diego. It is modern in every detail. (P. & A. photo.)

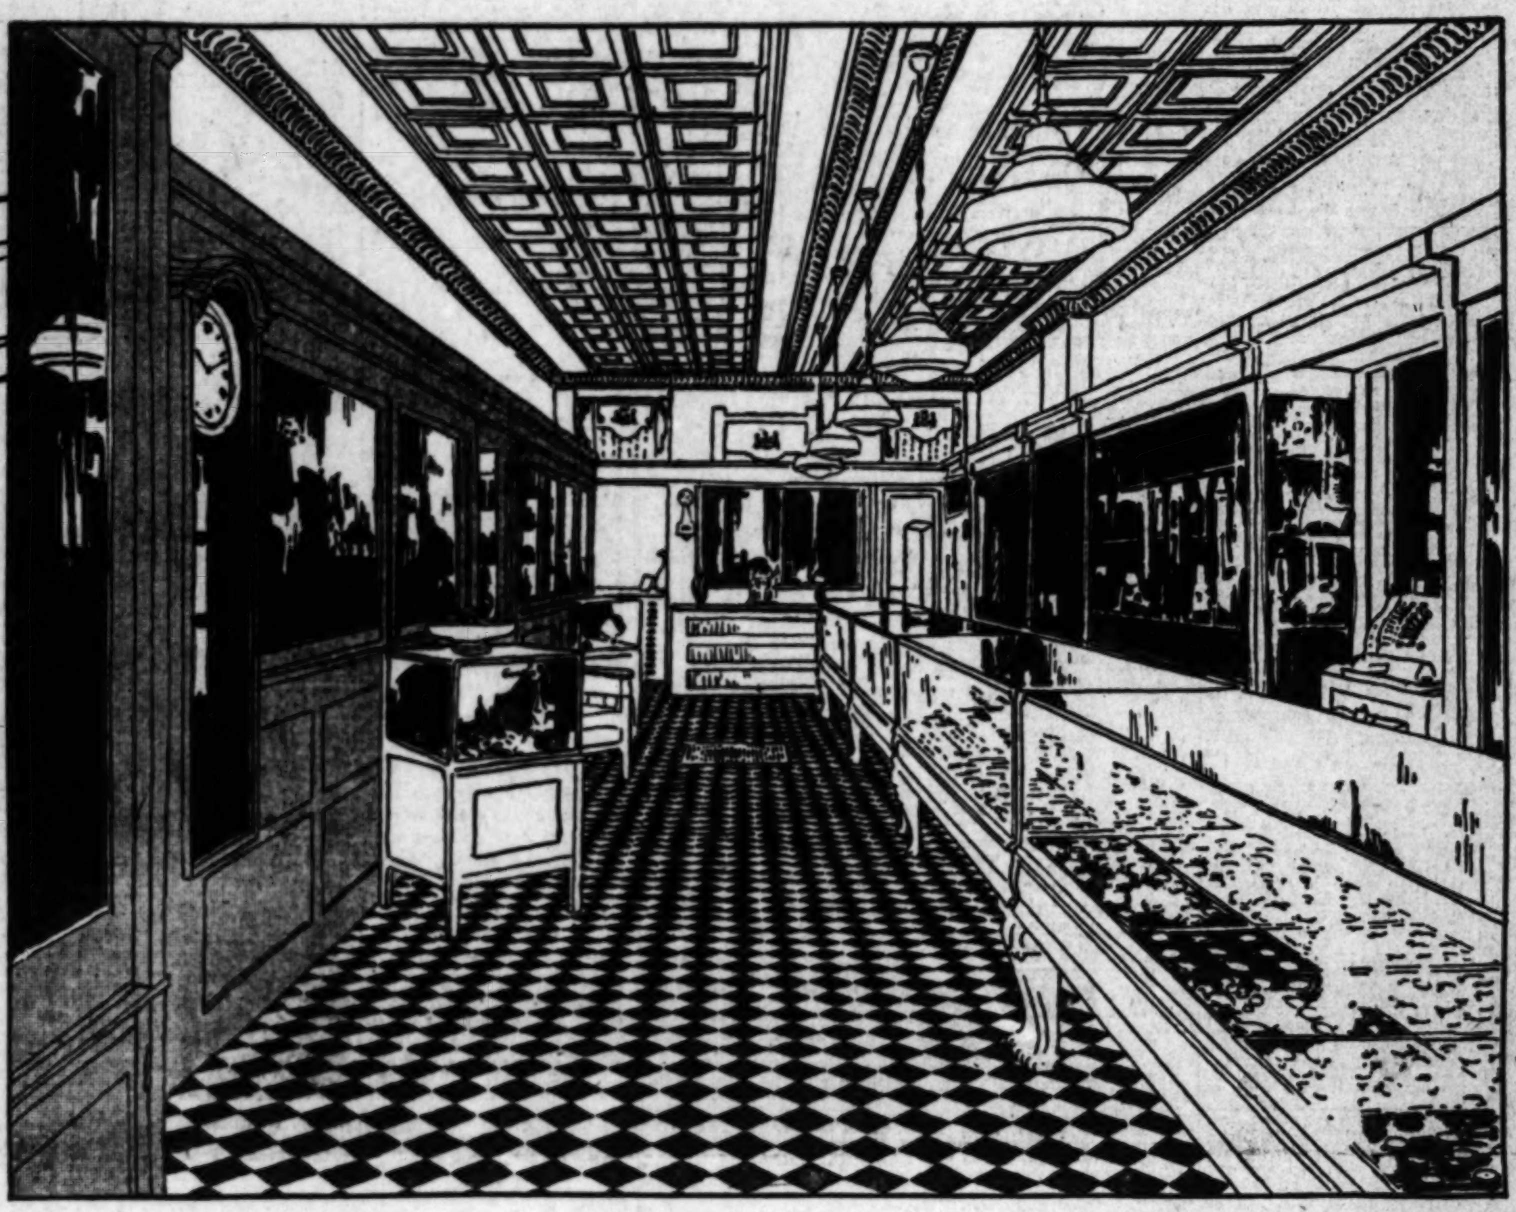
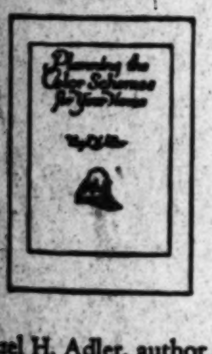
Instinctively you look where you're walking!



This Blabon floor of Linoleum, a large black and cream tile pattern 1164, in the Jewelry Store of William Gartner, Warren, Ohio, is particularly appropriate for floors of similar stores and smart shops.



Planning the Color Schemes for Your Home

Hazel H. Adler, author of books on interior decoration, gives valuable suggestions on harmonizing furniture and draperies with walls and floors, in our 36-page book, "Planning the Color Schemes for Your Home", handsomely illustrated in full colors. Sent anywhere in the United States upon receipt of 20 cents.

"HEADS UP!" "Look where you're going", and other similar cautionary expressions are more prevalent today than ever, and as a result you instinctively look where and upon what you are walking.

Perhaps you have an attractive shop in a desirable location. Your furniture, stock and fixtures may be of the finest; but one thing is certain, the appearance of the floor cannot escape the eye of the customer who enters your store. He must look where he is walking.

If the floor of your store is one of the modern types of Blabon's Linoleum, it is a real asset to any establishment, because, if properly installed and cared for thereafter, its appearance says: "Clean! Sanitary! Quiet! Dignified!"

Laid over old or stained wood floors, a smart linoleum design imparts the charm of restored newness, and at the same time affords a sanitary, smooth, warm, comfortable and easy-to-clean floor.

There are many attractive patterns among the Blabon Moulded Inlaid, Marble Tiles—beautiful imitations of pearl and black marble—Parquetry effects and two-toned combinations in soft colorings that are particularly suitable for floors of stores and offices.

The modern method of cementing linoleum down over builders' deadening felt insures water-tight seams which are practically invisible, and adds much to the beauty and permanency of a Blabon floor.

Ask for Blabon's Linoleum by name. It is sold by good home-furnishing and department stores. Our illustrated booklet, "The Floor for the Modern Home", sent free, upon request.

Ministers Urge Conference for Racial Amity

Following closely the pattern laid by a number of southern cities in fostering a more amicable relationship between the negro and white races, the Los Angeles Methodist Ministers' Association yesterday adopted a resolution urging the City Ministerial Union to appoint a committee to consult with the Mayor and City Council upon the best methods of preventing racial differences in this city.

The resolution, according to Rev. F. M. Larkin, executive secretary of the California State Church Federation, was actuated by the recent disturbances in the southern section of the city over colored citizens owning property in the district. Another factor was a meeting held Sunday by several hundred colored people at the Wesley Chapel, Methodist Episcopal Church, at which they deplored the treatment they had been accorded in several instances and adopted resolutions to be presented to the Mayor, Chief of Police and Governor.

Former Federal Prohibition Man Confesses Bribe

I. H. Miller, formerly a Federal prohibition agent, yesterday, before Judge James in Federal Court, pleaded guilty to a charge of accepting a bribe. S. T. Burch, also a former prohibition officer, who was indicted with Miller nearly two years ago, pleaded guilty last week.

The two were charged with threatening to make trouble for Rabbi Jacob Tovil in connection with 600 gallons of sacramental wine, the records for which had been lost or stolen, unless paid for silence. While Harold H. Dolley, then district prohibition chief, and two aids, watched the transaction unobserved, $350 in marked money was paid over, according to the accusation.

Judge James set the case over until today to obtain more information.

TEACHER OF FIFTY YEARS' SERVICE DIES

Funeral Service for Miss Josephine E. Seaman to Take Place Tomorrow

Funeral services for Miss Josephine E. Seaman, a teacher for fifty years continuously, will be conducted tomorrow at 11 a.m. at the chapel of Pierce Brothers, 820 West Washington street. Miss Seaman died Sunday at the Glenhaven Sanatorium in Glendale, after an illness of nearly three years.

Miss Seaman began her teaching career in Albany, N. Y., in 1871, in the New York State Normal School. In 1887 she came to California to visit her brother, W. W. Seaman, then County Superintendent of Schools of Los Angeles. She was so pleased with the city that she resigned her eastern position and took a position as a teacher of English at the Los Angeles State Normal School, which later was merged into the University of California, Southern Branch. She taught in this institution for thirty-four years, resigning in 1921 at the conclusion of a half-century of teaching service.

A year after her retirement her health failed and on the advice of a physician, moved to Glendale to be near care and attention. She retained her mental vigor to the day of her death. It is expected that many of the thousands of teachers who passed through the teachers' courses during her thirty-four years of teaching, will attend the funeral services tomorrow.

WIFE SUES NINE WHEN MATE GOES

Children of Beach Town Founder Accused of Taking Husband Away

Charging her husband's children and their husbands and wives with stealing the love of her husband, Mrs. Cora E. Offerle yesterday filed suit for $25,000 damages against nine individuals. The husband in the case is Edwin E. Offerle, said to have been one of the founders of the beach city of Naples.

Those named defendants in the action are Gertrude Musselman and her husband; Verne Stoddard, Max Stoddard, Mollie Davis and her husband; Edwin Offerle, Jr., and his wife; Lola Offerle and Frank H. Jaques. The defendants were said to be children or children-at-law of Offerle by a former marriage.

According to the complaint, the plaintiff and Offerle were married August 31, last, and lived together in Long Beach until this month, when the defendants were asserted to have induced Offerle to leave his bride. Mrs. Offerle declared she was left without the support or protection of her husband because of the asserted acts of the defendants.

SUIT NAMES DOCTORS IN LOSS OF LEG

Woman Seeks $100,000 as Amputation Charged to Negligent Treatment

John Dunlop and Trusten M. Hart, physicians and surgeons, were named defendants in a suit for $100,000 filed yesterday by Helen R. Goldman, who asserted she had suffered amputation of a leg as a result of their treatment.

She set forth that she engaged the defendants October 31, 1924, to correct a deformity of her legs and that they operated upon her, placing her left leg in a cast in such an asserted careless and negligent manner that gangrene poisoning set in. Amputation of the leg below the knee was necessitated, according to the complaint, which was prepared by Attorneys Milton M. Cohen and Jerome H. Kann.

Dr. Hart stated last night that he had been called in merely as assistant to Dr. Dunlop in the case. Dr. Dunlop refused to make any comment.

Co-eds at U.S.C. Carry Election for Self Rule

Student self-government has been accepted by the women students of the University of Southern California by a vote of 510 to 11, and from now on the name of the Associated Women Students is to be the Women's Self-Government Association. With this inauguration at Southern California, and the occupancy of the new women's dormitory, the University of Southern California becomes eligible for membership in the American Association of University Women.

The legislative committee will be composed of women faculty members and representatives of the co-ed student body, and a judicial committee will enforce the rules made by the legislative committee. The W.S.G.A. will comprise the Y.W.C.A., the W.A.A., the Pan-Hellenic Association and the group in the Women's Residence Hall, and will not conflict with the student body.

Miss Ethel Oliver is president of the W.S.G.A. at Southern California and Miss Marjory Rice is vice-president of the student body.

RUSH WORK ORDERED ON STREET VIADUCT

The Board of Public Works yesterday ordered the City Engineering Department to rush work at the easterly approach to the new Ninth-street viaduct. The city is grading and improving the road at the approach and the Los Angeles Railway is putting in tracks. It is expected the viaduct will be ready for traffic by Sunday.
